Resurrecting the Death of God Daniel J. Peterson, G. Michael Zbaraschuk, 2014-04-11 In 1966 an infamous Time magazine cover asked Is God Dead and brought the ideas of theologians William Hamilton and Thomas J J Altizer to the wider public In the years that followed both men suffered professionally and there was no notable increase to the small number of thinkers considered death of God theologians Meanwhile Christian fundamentalism staged a striking comeback in the United States Yet death of God or radical theology has had an ongoing influence on contemporary theology and philosophy Contributors to this book explore the origins influence and legacy of radical theology and go on to take it in new directions In a time when fundamentalism is the greatest religious temptation this volume makes the case for the necessity of resurrecting the death of God

Radical Theology Ingolf U. Dalferth, 2016-07-01 Ingolf U Dalferth develops a radical theology that unfolds the orienting strength of faith for human life from the event of God's presence to every present In a concise and clear manner Dalferth outlines the theological and philosophical approaches to hermeneutics in the modern era in order to promote a convincing and defensible theology for the twenty first century critically carrying on Martin Heidegger and Rudolf Bultmann without forgetting Karl Barth The result of his reconstruction is a radical theology that neither glorifies premodern theology in an antimodern attitude nor seeks a mystical deepening of the secular but argues for a radical change in theological perspective of the possible In doing so theology unfolds limit concepts that restrict the claims of science and philosophy critically and develops ideas of orientation that illumine the ways in which human life is understood and lived in radically new ways in faith From here Dalferth unfolds the reality of revelation and the Christian sense of an unconditional hope that fundamentally transcends all beliefs based on mundane realities and orients the world on something beyond its own temporal horizon its loving Creator

Radical Theology and Emerging Christianity Katharine Sarah Moody, 2016-03-03 The theological turn in continental philosophy

and the turn to Paul in political philosophy have occasioned a return to radical theology a tradition whose philosophical heritage can be traced to the death of God announced in the work of Nietzsche and Hegel John D Caputo's deconstructive theology and Slavoj Žižek's materialist theology are two radical theologies that explore what it might mean to pass through the death of God and to abandon this experience as specifically Christian Radical Theology and Emerging Christianity demonstrates how these theologies are transforming everyday religious practices through an examination of the work of Peter Rollins and Kester Brewin two figures at the radical margins of a contemporary expression of Western religiosity called emerging Christianity The author uses her analysis of all four figures to argue that deconstructive practices can enable religious communities to become part of a wider materialist collective in which the death of God continues to resonate Pushing the methodological boundaries of philosophy of religion by examining religious practices as the site of philosophical signification the book challenges scholars and practitioners alike to a new and more demanding dialogue between theory and practice

The Death of God Movement and the Holocaust Stephen R. Haynes, John K. Roth, 1999-06-30 The Death of God theologians represented one of the most influential religious movements that emerged of the 1960s a decade in which the discipline of theology underwent revolutionary change Although they were from different traditions utilized varied methods of analysis and focused on culture in distinctive ways the four religious thinkers who sparked radical theology Thomas Altizer William Hamilton Richard Rubenstein and Paul Van Buren all considered the Holocaust as one of the main challenges to the Christian faith Thirty years later a symposium organized by the American Academy of Religion revisited the Death of God movement by asking these four radical theologians to reflect on how awareness of the Holocaust affected their thinking not only in the 1960s but also in the 1990s This edited volume brings together their essays along with responses by other noted scholars who offer critical commentary on the movement's impact

legacy and relationship to the Holocaust The Palgrave Handbook of Radical Theology Christopher D. Rodkey, Jordan E. Miller, 2018-10-10 The Palgrave Handbook of Radical Theology is the definitive guide to radical theology and the commencement for new directions in that field For the first time radical theology is addressed and assessed in a single comprehensive volume including introductory and historical essays for the beginner essays on major figures and their thought and shorter articles on various themes concepts and related topics This book is a seminal work for the radical theology movement It clarifies origins and demonstrates the exigency and utility of current figures and issues A useful and essential guide for newcomers and veterans in the field this volume serves as both a reference work and an introduction to omitted or forgotten topics within contemporary discussions *The Jewish American Novel* Philippe Codde, 2007 Philippe Codde provides a comparative cultural analysis of the unprecedented success of the Jewish novel in the postwar United States by situating the process and event in the context of three closely related American cultural movements the popularity in the US of French philosophical and literary existentialism the increasing visibility of the Holocaust in US American life and the advent of radical theology Codde argues that the literary repertoire of the postwar Jewish novel consists of an amalgam of these cultural elements that were making their mark in the political religious and philosophical systems of the United States at the time and that this explains in part the Jewish novel's sweeping success in the American literary system

Thinking Jewish Culture in America Ken Koltun-Fromm, 2013-12-11 Thinking Jewish Culture in America argues that Jewish thought extends our awareness and deepens the complexity of American Jewish culture This volume stretches the disciplinary boundaries of Jewish thought so that it can productively engage expanding arenas of culture by drawing Jewish thought into the orbit of cultural studies The eleven contributors to Thinking Jewish Cultures together with Chancellor Arnold Eisen's postscript position Jewish thought within the dynamics and possibilities of contemporary Jewish culture These diverse essays in Jewish thought re-imagine cultural space as a public and sometimes contested performance of Jewish identity and they each seek to re-enliven that space with reflective accounts of cultural meaning How do Jews imagine themselves as embodied actors in America Do cultural obligations limit or expand notions of the self How should we imagine Jewish thought as a cultural performance What notions of peoplehood might sustain a vibrant Jewish collectivity in a globalized economy How do programs in Jewish studies work within the academy These and other questions engage both Jewish thought and culture opening space for theoretical works to broaden the range of cultural studies and to deepen our understanding of Jewish cultural dynamics Thinking Jewish Culture is a work about Jewish cultural identity reflected through literature visual arts philosophy and theology But it is more than a mere reflection of cultural patterns and choices the argument pursued throughout Thinking Jewish Culture is that reflective sources help produce the very cultural meanings and performances they purport to analyze **The Christian Witness in a Secular Age** Donald G. Bloesch, 2002-01-02 This volume presents an evangelical appraisal of modern theological thinking It examines the views of nine leading theologians on the apologetic task

today from Karl Barth and Reinhold Niebuhr to Harvey Cox and Thomas Altizer The strengths and weaknesses in the theology of each are set forth It is the author s contention that modern apologetics is often anchored in the spirit of the age and the values of the culture rather than in biblical revelation This book calls on Christians to place their trust not in imperfect human reason but in God s self revelation in Christ which can be discerned only by faith **Decentering**

Philosophy of Religion Norman L.
