**Sustainable Communities** Hugh Barton, 2013-12-02 This book re addresses the concepts of neighbourhood and community in a refreshing and challenging way It will be of immense benefit not only to town planners but also to all those professional and voluntary groups and politicians who seek to create the new communities of tomorrow From the Foreword by Jed Griffiths Past President of the Royal Town Planning Institute There is widespread support for the principle of creating more sustainable communities but much hazy wishful thinking about what this might mean in practice In reality we witness more the death of local neighbourhoods than their creation or rejuvenation reflecting an increasingly mobile privatized and commodified society Sustainable Communities examines the practicalities of re inventing neighbourhoods It is neither an idealistic utopian tract nor a designer's manual but is rather a serious attempt to address the real issues This collection of expert contributions examines the nature of local community and methods of building social capital presents the findings of a world wide survey of eco neighbourhoods and eco villages with case studies from the United Kingdom Europe America and Australia develops a fresh perspective on the planning and design of neighbourhoods in urban areas based on the eco system approach explores practical programmes for local resource management and the implications for community based decision making provides a detailed appendix listing current eco village and eco neighbourhood schemes by country Written by an interdisciplinary team of social and environmental scientists town planners and urban designers this is a thought provoking and important contribution to both the theory and practice of the development of sustainable communities

Goldstein,2023-03-14 An acclaimed history of Harlem s journey from urban crisis to urban renaissance With its gleaming shopping centers and refurbished row houses today s Harlem bears little resemblance to the neighborhood of the midcentury urban crisis Brian Goldstein traces Harlem s Second Renaissance to a surprising source the radical social movements of the 1960s that resisted city officials and fought to give Harlemites control of their own destiny Young Harlem activists inspired by the civil rights movement envisioned a Harlem built by and for its low income predominantly African American population In the succeeding decades however the community based organizations they founded came to pursue a very different goal a neighborhood with national retailers and increasingly affluent residents *The Roots of Urban Renaissance* demonstrates that gentrification was not imposed on an unwitting community by unscrupulous developers or opportunistic outsiders Rather it grew from the neighborhood s grassroots producing a legacy that benefited some longtime residents and threatened others     **Aslib Book Guide** ,1994     **The British National Bibliography** Arthur James Wells,1994     *Boletin Internacional de Bibliografia Sobre Educacion* ,1995     **The Lure of the City** Austin Williams,Alastair Donald,2011-09-12 Cities by their very nature are a mass of contradictions They can be at once visually stunning culturally rich exploitative and unforgiving In *The Lure of the City* Austin Williams and Alastair Donald explore the potential of cities to meet the economic social and political challenges of the current age This book seeks to examine the dynamics of urban life showing that new opportunities can be maximised and social advances realised in existing and emerging urban centres The book explores both the planned and organic nature of urban developments and the impacts and aspirations of the people who live and work in them It argues convincingly that the metropolitan mindset is essential to the struggle for human liberation The short accessibly written essays are guaranteed to spark debate across the media and academia about the place of cities and urban life in our ever changing world     The Cumulative Book Index ,1996 A world list of books in the English language
