A Revolt Against Liberalism A.A.M. van der Linden, 2023-04-12 This is the first study to provide a comprehensive picture of the revolt brought about by American radical historians in the 1960s and 1970s With the turbulent sixties as a backdrop the work of radical luminaries like Eugene Genovese Herbert Gutman Staughton Lynd William Appleman Williams and Howard Zinn is discussed These historians made a significant contribution to present day notions about slavery working class history the New Deal the Cold War and a wealth of other subjects Their main target was American liberalism Radical criticism centered on the liberal concepts of the division of power and of the nature of man The acrimonious debate which ensued tore the historical profession apart Therefore most historians have stressed the disagreements between liberals and radicals Yet in this study it will be argued that in some respects the radicals were part and parcel of mainstream historiography though they presented a radical version of it

Germes, Genes, and Dissent Chloe Serene Burke, 2004 Postcolonial Theory and the

Arab-Israel Conflict Philip Carl Salzman, Donna Robinson Divine, 2021-04-26 Postcolonial theory is one of the main frameworks for thinking about the world and acting to change the world. Arising in academia and reshaping humanities and social sciences disciplines, postcolonial theory argues that our ideas about foreigners, the other, particularly our negative ideas about them, are determined not by a true will to understand but rather by our desire to conquer, dominate, and exploit them. According to postcolonial theory, the cause of poverty, tyranny, and misery in the world and of failed societies around the world is Euro American imperialism and colonialism. Previously published as a special issue of *Israel Affairs*, this work examines and challenges postcolonial theory. In scholarly research-based papers, the specialist authors examine various facets of postcolonial theory and application. First, the theoretical assumption and formulations of postcolonial theory are scrutinized and found dubious. Second, the deleterious impact on academic disciplines of postcolonial theory is demonstrated. Third, the distorted postcolonial view of history, its obsession with current events to the exclusion of the historical basis of events, is exposed and corrected. Fourth, an examination of Middle Eastern culture challenges the assumption that these societies have been shaped entirely and victimized by Western intrusion. Finally, exploring the Arab-Israel conflict, the one-sided case of postcolonial Arabism is explored and found to be faulty. *Internationalism in the Labour Movement 1830-1940*

Holthoon, Marcel van der Linden, 2025-02-10 **Women's Emancipation Movements in the Nineteenth Century** Sylvia Paletschek, 2005-11-14 The nineteenth century, a time of far-reaching cultural, political, and socio-economic transformation in Europe, brought about fundamental changes in the role of women. Women achieved this by fighting for their rights in the legal, economic, and political spheres. In the various parts of Europe, this process went forward at a different pace and followed different patterns. Most historical research up to now has ignored this diversity, preferring to focus on women's emancipation movements in major Western European countries such as Britain and France. The present volume provides a broader context to the movement by including countries both large and small from all regions of Europe. Fourteen historians, all of them specialists in women's history, examine the origins and development of women's emancipation movements in their respective areas of expertise. By exploring the cultural and political diversity of nineteenth-century Europe and at the same time pointing out connections to questions explored by conventional scholarship, the essays shed new light on common developments and problems. **Lynching Beyond Dixie** Michael J. Pfeifer, 2013-02-27

In recent decades, scholars have explored much of the history of mob violence in the American South, especially in the years after Reconstruction. However, the lynching violence that occurred in American regions outside the South, where hundreds of persons, including Hispanics, whites, African Americans, Native Americans, and Asian Americans, died at the hands of lynch mobs, has received less attention. This collection of essays by prominent and rising scholars fills this gap by illuminating the factors that distinguished lynching in the West, the Midwest, and the Mid-Atlantic. The volume adds to a more comprehensive history of American lynching and will be of interest to all readers interested in the history of violence across the varied regions of the United States.
