**Radicalism and Reverence** George M. territories such as the world in the moon or the nations of the Antipodes but sometimes they composed serious disquisitions about the here and now proposing how England or its nascent colonies could be conceived of as an Oceana or a New Jerusalem This book provides a comprehensive view of the operations of the utopian imagination in literature from 1603 to the 1660s Appealing to social theorists literary critics and political and cultural historians this volume revises prevailing notions of the languages of hope and social dreaming in the making of British modernity during a century of political and intellectual upheaval

*Lacan, Foucault, and the Malleable Subject in Early Modern English Utopian Literature* Dan Mills,2020-02-13 Theoretically informed scholarship on early modern English utopian literature has largely focused on Marxist interpretation of these texts in an attempt to characterize them as proto Marxist The present volume instead focuses on subjectivity in early modern English utopian writing by using these texts as case studies to explore intersections of the thought of Jacques Lacan and Michel Foucault Both Lacan and Foucault moved back and forth between structuralist and post structuralist intellectual trends and ultimately both defy strict categorization into either camp Although numerous studies have appeared that compare Lacan's and Foucault's thought there have been relatively few applications of their thought together onto literature By applying the thought of both theorists who were not literary critics to readings of early modern English utopian literature this study will on the one hand describe the formation of utopian subjectivity that is both psychoanalytically Oedipal and pre Oedipal and socially constructed and on the other hand demonstrate new ways in which the thought of Lacan and Foucault inform and complement each other when applied to literary texts The utopian subject is a malleable subject a subject whose linguistic psychoanalytical subjectivity determines the extent to which environmental and social factors manifest in an identity that moves among Lacan's Symbolic Imaginary and Real

the cosmic drama of the world's end and experience reckoning while there was still time to alter its outcome

Boundaries of Utopia - Imagining Communism from Plato to Stalin Erik van Ree, 2015-05-22 The idea that socialism could be established in a single country was adopted as an official doctrine by the Soviet Union in 1925 Stalin and Bukharin being the main formulators of the policy Before this there had been much debate as to whether the only way to secure socialism would be as a result of socialist revolution on a much broader scale across all Europe or wider still This book traces the development of ideas about communist utopia from Plato onwards paying particular attention to debates about universalist ideology versus the possibility for socialism in one country The book argues that although the prevailing view is that socialism in one country was a sharp break from a long tradition that tended to view socialism as only possible if universal in fact the territorially confined socialist project had long roots including in the writings of Marx and Engels
