Radio Inside:

Radio in the Movies Laurence Etling, Frank Barnas, Marie Barnas, 2023-10-27 This richly detailed examination of two forms of American entertainment focuses on the various ways that radio stations and air personalities have been depicted in motion pictures from 1926's *The Radio Detective* to more recent films like 2022's *Halloween Ends*. Newly updated and revised chapters cover the cinematic portrayals of various aspects of radio including disc jockeys sports broadcasts religious programs and abnormal personalities on the air. Such films as *The Big Broadcast* 1932 *Reveille with Beverly* 1943 *Mister Rock and Roll* 1957 *WUSA* 1970 *Radio Days* 1987 *Private Parts* 1997 *We Are Marshall* 2006 and *Straight Outta Compton* 2015 provide fascinating insights into not only their own times but also the historical eras that some of these films have attempted to recreate.

Radio's Legacy in Popular Culture Martin Cooper, 2022-01-27 Examining work by novelists filmmakers TV producers and songwriters this book uncovers the manner in which the radio and the act of listening has been written about for the past 100 years. Ever since the first public wireless broadcasts people have been writing about the radio often negatively sometimes full of praise but always with an eye and an ear to explain and offer an opinion about what they think they have heard. Novelists including Graham Greene Agatha Christie Evelyn Waugh and James Joyce wrote about characters listening to this new medium with mixtures of delight frustration and despair. Clint Eastwood frightened moviegoers half to death in *Play Misty for Me* but Lou Reed's *Rock* the act of listening as a cultural expression focusing on fiction films and songs about radio. Martin Cooper a broadcaster and academic uses these movies TV shows songs novels and more to tell a story of listening to the radio as created by these contemporary writers filmmakers and musicians.

The Portable Radio in American Life Michael Brian Schiffer, 2022-04-19 As an artifact of culture the portable radio is an unusual but perfect subject for investigation by archaeologist Schiffer. Seeing the history of everyday objects as the history of the life of a people he shows how the portable radio has reflected changes in American society as surely as clay pots have for ancient cultures.

The Radio Dealer ,1926 *Reproductions of Banality* Alice Yaeger Kaplan, Reproductions of Banality was first published in 1986 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions An established fascist state has never existed in France and after World War II there was a tendency to blame the Nazi Occupation for the presence of fascists within the country Yet the memory of fascism within their ranks still haunts French intellectuals and questions about a French version of fascist ideology have returned to the political forefront again and again in the years since the war In Reproductions of Banality Alice Yaeger Kaplan investigates the development of fascist ideology as it was manifested in the culture of prewar and Occupied France Precisely because it existed only in a gathering or formative stage and never achieved the power that brings with it a bureaucratic state apparatus French fascism never lost its utopian communal elements or its consequent aesthetic appeal Kaplan weighs this fascist aesthetic and its puzzling power of attraction by looking closely at its material remains the narratives slogans newspapers and film criticism produced by a group of writers who worked in Paris in the 1930s and early 1940s their most real moment These writers include Pierre Drieu la Rochelle Louis Ferdinand Celine Lucien Rebatat Robert Brasillach and Maurice Bardeche as well as two precursors of French fascism Georges Sorel and the Italian futurist F T Marinetti who made of the airplane an industrial carrier of sexual fantasies and a prime mover in the transit from futurism to fascism Kaplan's work is grounded in the major Marxist and psychoanalytic theories of fascism and in concepts of banality and mechanical reproduction that draw upon Walter Benjamin Emphasizing the role played by the new technologies of sight and sound she is able to suggest the nature of the long repressed cultural and political climate that produced French fascism and to show by implication that the mass marketing of ideology in

democratic states bears a family resemblance to the fascist mode of an earlier time *Changes in Navy Regulations and Naval Instructions, No. 8 ...* United States. Navy Department, 1916 Media and Democracy in Africa GÃ¶ran HydÃ©n, Michael Leslie, Folu Folarin Ogundimu, 2003-05-01 Recent discussion of democratization in Africa has focused primarily on the reform of formal state institutions the public service the judiciary and the legislature Similarly both scholars and activists have shown interest in how associational life and with it a civil society might be enhanced in the countries of the African continent Much less concern however has been directed to the communications media although they form a vital part of this process Media and Democracy in Africa provides the first comprehensive and up to date assessment of the role of the media in political change in sub Saharan Africa The central argument of the volume is that while the media may still be relatively weak compared to their positions in liberal democracies they have come to play a much more important role than ever before since independence Although they have not yet demonstrated sufficient effectiveness as public watchdogs and agenda setters they have succeeded in creating new communicative spaces for people who have previously been intimidated or silent Building on this the contributors argue that a different conceptualization of democratization than the mainstream currently uses may be necessary to capture the process in Africa where it is characterized by contestation rather than consolidation This volume shows that the media scene in Africa is diverse It stretches from the well developed and technologically advanced situation in South Africa to the still fledgling media operations that are typical in sub Saharan Africa In these countries print media as well as television and radio are just beginning to take their place in society and do so using simple and often outdated technology The volume also examines how these growing outlets are supplemented by informal media the so called radio trottoir or rumor mill whereby the autocratic and bureaucratic direction of public affairs are subject to private speculation and analysis Media and Democracy in Africa is organized to provide a historical perspective on the evolution of the African media placing the present in the context of the past including both colonial and post colonial experiences It will be of interest to Africa area specialists students of media and communications political scientists and sociologists Goran Hyden is Distinguished Professor of Political Science at the University of Florida Michael Leslie is associate professor in the College of Journalism and Communications at the University of Florida Folu F Ogundimu is associate professor in the School of Journalism at Michigan State University East Lansing *Tuning into development* Mendel, Toby, 2013-12-31
