Abstract The purpose of this study was to determine the effect of a 12-week, low-intensity, supervised walking program on the physical and psychological health of sedentary, middle-aged women. The study was a randomized, controlled trial. The subjects were randomly assigned to either a supervised walking program or a control group. The walking program consisted of 12 weeks of supervised walking, 3 times per week, for 30 minutes per session. The control group consisted of 12 weeks of no supervised walking. The subjects were assessed at baseline and at 12 weeks. The walking program had a significant positive effect on the physical and psychological health of the subjects. The walking program significantly improved the subjects' physical health, as measured by the 6-minute walk test, and their psychological health, as measured by the Beck Depression Inventory and the State-Trait Anxiety Inventory. The walking program also significantly improved the subjects' quality of life, as measured by the SF-36. The walking program was well tolerated and had no adverse effects. The results of this study suggest that a 12-week, low-intensity, supervised walking program can improve the physical and psychological health of sedentary, middle-aged women.

The Radiography Procedure and Competency Manual Anita Biedrzycki, 2017-08-14. Be prepared to meet the ARRT competency requirements. These procedure checklists make it easy. To qualify for your certification exam, you must demonstrate your competency in all 36 mandatory procedures and in at least 15 of the 30 elective procedures, and your instructors must verify your proficiencies. First, you can use the checklists to review the procedures in preparation for the exam and to develop decision-making skills that will produce the highest quality radiographs while considering the needs and limitations of the patient. Then, your instructors can use them to record their evaluation of your competency for each procedure. And finally, program directors can use them to verify to the ARRT that you have demonstrated the required competencies and proficiencies.
