Victorian London Liza Picard,2014-01-28 To Londoners the years 1840 to 1870 were years of dramatic change and achievement As suburbs expanded and roads multiplied London was ripped apart to build railway lines and stations and life saving sewers The Thames was contained by embankments and traffic congestion was eased by the first underground railway in the world A start was made on providing housing for the deserving poor There were significant advances in medicine and the Ragged Schools are perhaps the least known of Victorian achievements in those last decades before universal state education In 1851 the Great Exhibition managed to astonish almost everyone attracting exhibitors and visitors from all over the world But there was also appalling poverty and exploitation exposed by Henry Mayhew and others For the laboring classes pay was pitifully low the hours long and job security

nonexistent Liza Picard shows us the physical reality of daily life in Victorian London She takes us into schools and prisons churches and cemeteries Many practical innovations of the time flushing lavatories underground railways umbrellas letter boxes driving on the left point the way forward But this was also at least until the 1850s a city of cholera outbreaks transportation to Australia public executions and the workhouse where children could be sold by their parents for as little as 12 and streetpeddlers sold sparrows for a penny tied by the leg for children to play with Cruelty and hypocrisy flourished alongside invention industry and philanthropy

Dirty Old London Lee Jackson,2014-01-01 In Victorian London filth was everywhere horse traffic filled the streets with dung household rubbish went uncollected cesspools brimmed with night soil graveyards teemed with rotting corpses the air itself was choked with smoke In this intimately visceral book Lee Jackson guides us through the underbelly of the Victorian metropolis introducing us to the men and women who struggled to stem a rising tide of pollution and dirt and the forces that opposed them Through thematic chapters Jackson describes how Victorian reformers met with both triumph and disaster Full of individual stories and overlooked details from the dustmen who grew rich from recycling to the peculiar history of the public toilet this riveting book gives us a fresh insight into the minutiae of daily life and the wider challenges posed by the unprecedented growth of the Victorian capital

Slums and Slum Clearance in Victorian London J.A. Yelling,2012-12-06 First published in 1986 Victorian London is a classic site of the slum This study looks at the process of slum clearance It covers the development of policies and programmes from their initiation through Cross's Act 1875 to the abandonment of clearance by the London County Council at the end of the Victorian period in favour of a suburban solution It is concerned with the manner in which such policies related to the nature of the slum and its place in the urban structure The discussion ranges from contemporary understanding of such matters to the detailed content and repercussions of policies which required the designation of unfit houses the compensation of property owners the displacement of tenants and the rebuilding of sites

Apartment Stories Sharon

Marcus,2023-11-15 In urban studies the nineteenth century is the age of great cities In feminist studies it is the era of the separate domestic sphere But what of the city s homes In the course of answering this question Apartment Stories provides a singular and radically new framework for understanding the urban and the domestic Turning to an element of the cityscape that is thoroughly familiar yet frequently overlooked Sharon Marcus argues that the apartment house embodied the intersections of city and home public and private and masculine and feminine spheres Moving deftly from novels to architectural treatises legal debates and popular urban observation Marcus compares the representation of the apartment house in Paris and London Along the way she excavates the urban ghost tales that encoded Londoners ambivalence about city dwellings contends that Haussmannization enclosed Paris in a new regime of privacy and locates a female counterpart to the fl neur and the omniscient realist narrator the porti re who supervised the apartment building In urban studies the nineteenth century is the age of great cities In feminist studies it is the era of the separate domestic sphere But what of the city s homes In the course of answering this question Apartment Stories provides a singular The Business of Beauty

Jessica P. Clark,2020-04-30 The Business of Beauty is a unique exploration of the history of beauty consumption and business in Victorian and Edwardian London Illuminating national and cultural contingencies specific to London as a global metropolis it makes an important intervention by challenging the view of those who like their historical contemporaries perceive the 19th and early 20th centuries as devoid of beauty praxis let alone a commercial beauty culture Contrary to this perception The Business of Beauty reveals that Victorian and Edwardian women and men developed a number of tacit strategies to transform their looks including the purchase of new goods and services from a heterogeneous group of urban entrepreneurs hairdressers barbers perfumers wigmakers complexion specialists hair restorers manicurists and beauty culturists Mining trade journals census data periodical print and advice literature Jessica P Clark takes us on a journey through Victorian and Edwardian London s beauty businesses from the shady back parlors of Sarah Madame Rachel Levenson to the elegant showrooms of Eug ne Rimmel into the first Mayfair salon of Mrs Helena Titus aka Helena Rubinstein By revealing these stories Jessica P Clark revises traditional chronologies of British beauty consumption and provides the historical background to 20th century developments led by Rubinstein and others Weaving together histories of gender fashion and business to investigate the ways that Victorian critiques of self fashioning and beautification defined both the buying and selling of beauty goods this is a revealing resource for scholars students fashion followers and beauty enthusiasts alike **The**

Eternal Slum Anthony S. Wohl,2001-03-01 The problem of how where and on what terms to house the urban masses in an industrial society remains unresolved to this day In nineteenth century Victorian England overcrowding was the most obvious characteristic of urban housing and despite constant agitation it remained widespread and persistent in London and other great cities such as Manchester Glasgow and Liverpool well into the twentieth century The Eternal Slum is the first full length examination of working class housing issues in a British town The city investigated not only provided the context for

the development of a national policy but also in scale and variety of response stood in the vanguard of housing reform The failure of traditional methods of social amelioration in mid century the mounting storm of public protest the efforts of individual philanthropists and then the gradual formulation and application of new remedies constituted a major theme the need for municipal enterprise and state intervention Meanwhile the concept of overcrowding never precisely defined in law but based on middle class notions of decency and privacy slowly gave way to the positive idea of adequate living space with comfort as much as health or morals the criterion Not just dwellings but people were at issue There is little evidence in this period of the attitude of the worker himself to his housing Wohl has extensively researched local archives and in particular drawn on the vestry reports which have been relatively neglected Profusely illustrated with contemporary photographs and drawings this book is the definitive study of the housing reform movement in Victorian and Edwardian London and suggests what it was really like to live under such appalling conditions This important study will be of interest to social historians British historians urban planners and those interested in how social policies developed in previous eras

Vagabonds Oskar Jensen, 2024-02-20 Dickensian London is brought to real and vivid life in this innovative accessible social history revealing the true character of this place and time through the stories of its street denizens shortlisted for the Wolfson History Prize 2023 London 1857 A pair of teenage girls holding a sign that says Fugitive Slaves ask for money on the corner of Blackman Street After a constable accosts them and charges them with begging they end up in court where national newspapers pick up their story Are the girls truly escaped slaves from Kentucky Or will the city s dystopian Mendicity Society catch them in a lie exposing them as born and raised Londoners and endangering their safety With its many accounts of people like these who lived and made their living on the streets Vagabonds forms a moving picture of London s most compelling period 1780 1870 Piecing together contemporary sources such as newspaper articles letters and journal entries historian Oskar Jensen follows the harrowing hopeful journeys of the city s poor children immigrants street performers thieves and sex workers all diverse in gender ethnicity ability and origin For the first time their own voices give us a radical new perspective on this moment in history with its deep inequality that bears an astonishing resemblance to our own era s divides

High Calvinists in Action Ian J. Shaw, 2003-02-06 This valuable contribution to the debate about the relation of religion to the modern city fills an important gap in the historiography of early nineteenth century religious life Although there is some evidence that strict doctrine led to a more restricted response to urban problems extensive local and personal variations mean that simple generalizations should be avoided Ian J Shaw argues against earlier prejudiced views and shows that high Calvinists played a vigorous and successful part in the response of early nineteenth century churches to the process of urbanization The study includes six substantial case studies of ministers and their churches in Manchester and London Four high Calvinist ministers are considered with two studies of ministers holding to an evangelical Calvinist doctrine also included to provide instructive contrasts Detailed social analysis of the congregations is based upon extensive use of

manuscript and printed sources sermons and local and denominational press *The Eternal Slum* Anthony Wohl, 2017-07-28
