Rahner And Metz Transcendental Theology As Political Theology:

Rahner and Metz Titus F. Guenther, 1994 Guenther has revealed a deep complementarity and interdependence between the writings of Karl Rahner and Johann Baptist Metz The work investigates the different contemporary theologies analyzing whether Rahner's theology represents a true version of what Metz has for some twenty years termed a political theology The author offers an interpretation of Metz's relation to modern secularity his dialogue with Marxism and critical theory and the development of his own special themes including discipleship christology and the truly Christian meaning of solidarity Guenther's comprehensive treatment of Rahner's thought explores his indebtedness to modern transcendental philosophy and his difference from it In his exploration of Rahner's ideas on the Second Vatican Council and his concern for the church's role in the world Guenther discusses the development of Rahner's theology of human subjectivity and freedom his ringing incarnationalism and pastoral commitment Guenther measures the apologetic potential to warrant the description political Guenther then examines the complementary and supplementary elements of Rahner and Metz's theologies Contents On Procedure Introduction Political Theology as Practical Fundamental Theology Characteristics and Dynamics of Rahner's Theology Political Theological Content in Rahner's Work Conclusion Karl Rahner's Political Theology Bibliography

Reconstructing Theology Terence Bateman, 2014 Francis Schussler Fiorenza is one of the pivotal contemporary Roman Catholics working in the field of systematic theology and has made vital contributions to the discipline This book the first of its kind provides an overview of Fiorenza's theological biography from early influences and original insights to a comprehensively systematic project to reconstruct the foundations of theology and explicates the major contours of Fiorenza's vital contributions to theological method foundational systematic and constructive theology and the practical function of religion in society and politics As the author argues Fiorenza's vision is one of unrivaled clarity and coherence even more it follows a path of the shifting patterns in theology over the past half century thus shedding light upon the internal constitution of recent Catholic and Protestant theology

Theology and the Boundary Discourse of Human Rights Ethna Regan, 2010-04-14 What are human rights Can theology acknowledge human rights discourse Is theological engagement with human rights justified What place should this discourse occupy within ethics Ethna Regan seeks to answer these questions about human rights Christian theology and philosophical ethics The main purpose of this book is to justify and explore theological engagement with human rights Regan illustrates how that engagement is both ecumenical and diverse citing the emerging engagement with human rights discourse by evangelical theologians in response to the War on Terror The book examines where the themes and concerns of key modern theologians Karl Rahner J B Metz Jon Sobrino and Ignacio Ellacurá converge with the themes and concerns of those committed to the advancement of human rights Regan also critically engages with the disdain for rights discourse that is found in the postliberal critiques of John Milbank and Stanley Hauerwas This interdisciplinary volume will be of interest to students and scholars in the fields of systematic theology theological ethics

human rights religion and politics and political theory Political Theology Francis Schüssler Fiorenza, Klaus Tanner, 2013-11-15 In this collection six leading theologians on political theology explore the contemporary states and potential future of the discipline Offering a highly nuanced and complex picture of older and newer Political Theology these scholars examine the multifaceted interconnections and tensions between political theologies liberation theologies feminist theologies and theologies that see themselves as postcolonial or decolonizing Among other topics the authors address the ecumenical and global nature of political theology the lack of critical feminist analysis in most political liberation and postcolonial theologies the statements regarding political theology in the encyclicals of Benedict XVI and the specific tasks that political theology must address to remain effective and relevant Contributors include Jürgen Moltmann Johann Baptist Metz Elisabeth Schüssler Fiorenza Francis Schüssler Fiorenza Klaus Tanner and Michael Welker **The Architectonics of Hope** Kyle Gingerich Hiebert, 2017-09-19 The Architectonics of Hope provides a critical excavation and reconstruction of the Schmittian seductions that continue to bedevil contemporary political theology Despite a veritable explosion of interest in the work of Carl Schmitt which increasingly recognizes his contemporary relevance and prescience there nevertheless remains a curious and troubling reticence within the discipline of theology to substantively engage the German jurist and sometime Nazi apologist By offering a genealogical reconstruction of the manner and extent to which recognizably Schmittian gestures are unwittingly repeated in subsequent debates that often only implicitly assume they have escaped the violent aporetics that characterize Schmitt's thought this volume illuminates hidden resonances between ostensibly opposed political theologies Using the complex relationship between violence and apocalyptic as a guide the genealogy traces the transformation of political theology through the work of a surprising collection of figures including Johann Baptist Metz John Milbank David Bentley Hart and John Howard Yoder *God in the World* Thomas F. O'Meara, 2007 Through O'Meara's clear and engaging style readers will discover or rediscover as the case may be how invaluable Rahner is for the church today **A Spirituality of Everyday Faith** Declan Marmion, 1998 Because spirituality is such a ubiquitous term today any attempt to elucidate it more fully is only to be welcomed Volume 23 in the LTPM series represents a significant contribution in this regard Beginning with the apostle Paul Declan Marmion shows how the meaning of the term spirituality changed over the centuries He then offers a useful working definition of spirituality and explores the complicated relationship between spirituality academic theology and religious experience In the main body of the book Marmion focuses on the spiritual basis of Karl Rahner's theology Exhibiting a comprehensive knowledge of the primary and secondary literature in this area Marmion uses Rahner's notion of spirituality to treat such important themes as the nature of God mystical experience prayer love of neighbor and more **Confronting the Mystery of God** Gaspar Martinez, 2002-05-13 A highly insightful study of three major movements in Roman Catholic theology over the past thirty years This fascinating work of theological scholarship offers an exceptionally broad scope and powerfully unifying theme Gaspar Martinez first offers penetrating interpretations of

three major contemporary theologians working on three continents in quite dissimilar historical cultural social and economic situations Then he goes on to illustrate how Johannes Metz Gustavo GutiTrrez and David Tracy each had a tense ongoing relationship to the mid twentieth century theologians and movements that formed them Karl Rahner nouvelle theologie and Bernard Lonergan respectively Martinez brilliantly contextualizes each of these thinkers In broad strokes he sketches postwar Germany postcolonial Peru and the American century and shows how each man was formed by his era He also examines the lines of influence and relationship between these theologians and some of their nontheological contemporaries Metz and Adorno Bloch and Benjamin GutiTrrez and Paulo Freire JosT Carlos Mariategui and the novelist JosT Marfa Arguedas and Tracy and thinkers from Eliade and Ricoeur to Gadamer and Derrida Martinez convincingly illustrates how each of these theologians in recent years has focused more directly on the mystery of God entailing greater emphasis on spirituality and mysticism with the consequence that the more properly theological their theologies have become the more they have become negative theologies

Metaphysics of Mystery Marijn de Jong, 2020-02-06 How can we theologically reflect on universality in a world that increasingly focuses on particularities and differences Marijn de Jong argues that the question of universality calls for a reconceptualized form of metaphysical theology which he finds in the work of Karl Rahner and Edward Schillebeeckx Casting a new light on these theologians de Jong demonstrates that their methods contain a dialectical interrelation of hermeneutics and metaphysics an interrelation which seemingly has been lost in more recent hermeneutical theology Rahner and Schillebeeckx carefully balance particularity and universality without falling prey to relativist or absolutist ways of reasoning By analyzing fundamental themes such as experience and interpretation nature and grace faith and reason and intelligibility and mystery de Jong reveals the modest theological metaphysics that lies at the heart of their methods This critical retrieval demonstrates the enduring relevance of these thinkers and opens up new avenues of thought for theologians that do not want to shy away from the difficult question of the universality of God

Human Rights and the Catholic Tradition Donald Dietrich, 2017-07-28 From the French Revolution to Vatican II the institutional Catholic Church has opposed much that modernity has offered men and women constructing their societies This book focuses on the experiences of German Catholics as they have worked to engage their faith with their culture in the midst of the two world wars the barbarism of the Nazi era and the uncertainties and conflicts of the post World War II world German Catholics have confronted and challenged their Church s anti modernism two lost wars the Weimar Republic the Nazi Third Reich the Cold War German reunification and the impulses of globalization Catholic theologians and those others nurtured by Catholicism who resisted Nazism to create their own private spaces developed a personal and existential theology that bore fruit after 1945 Such theologians as Karl Rahner Johannes Metz and Walter Kasper were rooted in their political experiences and in the renewal movement built by those who attended Vatican II These theologians were sensitive to the horrors of the Nazi brutalization the positive contributions of democracy and the need to create a Catholicism that could

join the conversation on human rights following World War II This dialogue meant accepting non Catholic religious traditions as authentic expressions of faith which in turn required that the sacred dignity of every man woman and child had to be respected By the twenty first century Catholic theologians had made furthering a human rights agenda part of their tradition and the German contribution to Catholic theology was crucial to that development The current Catholic milieu has been forged through its defensive responses to the Enlightenment through its resistance to ideologies that have supported sanctioned murder and through an extensive dialogue with its own traditions In focusing on the German Catholic experience Dietrich offers a cultural approach to the study of the religious and ethical issues that ground the hum

A History of Apologetics Avery Dulles, 2018-08-22 Making the case for the Christian faith apologetics has always been part of the Church's mission Yet Christians sometimes have had different approaches to defending the faith responding to the needs of their respective times and framing their arguments to address the particular issues of their day Cardinal Avery Dulles's *A History of Apologetics* provides a masterful overview of Christian apologetics from its beginning in the New Testament through the Middle Ages and on to the present resurgence of apologetics among Catholics and Protestants Dulles shows how Christian apologists have at times both criticized and drawn from their intellectual surroundings to present the reasonableness of Christian belief Written by one of Catholicism's leading American theologians *A History of Apologetics* also examines apologetics in the 20th and early 21st centuries including its decline among Catholics following Vatican II and its recent revival as well as the contributions of contemporary Evangelical Protestant apologists Dulles also considers the growing Catholic Protestant convergence in apologetics No student of apologetics and contemporary theology should be without this superb and masterful work
