Rail Atlas 1970:

Rail Atlas 1970 Hardb,2003 In 1963 the then Chairman of the British Railways Board Dr later Lord Richard Beeching produced his report on the future structure of the railway industry Innocuously entitled The Reshaping of Britain s Railways the report was to become one of the most controversial documents ever produced on a major British industry and 40 years on still represents one of the defining moments of Britain s railway history Tasked by the government with reducing the ever increasing losses suffered by the railway industry Beeching s response was to take a root and branch analysis of each line that was still operational the result was the infamous axe the proposal to close vast swathes of the railway network thereby creating vast areas that were no longer served by rail Although there were more positive aspects to the report such as the emphasis on bulk freight traffic it was the closure programme that most people and especially railway enthusiasts remember most From 1964 onwards the railways contracted rapidly even the election of a new Labour Government in 1964 failed to stem the flow of closures but by 1970 the majority of closures scheduled by Beeching had occurred The early 1970s however did witness further limited closures as many of the lines which had been reprieved earlier such as the lines serving much of east Lincolnshire succumbed In the second of Ian Allan Publishing s new series of historical railway atlases the year 1970 comes under the spotlight Taking 1 May 1970 as the cut off the book provides a graphic portrait of the railway network as it existed after the wholesale closures of the 1960s In 45 full colour maps along with a comprehensive index the user is provided with an interesting snapshot of the railway industry at the time For many it will be illuminating to see how many routes survived the Beeching era only to succumb in the period after 1970 routes such as those to Bridport lifracombe Swanage and Minehead all feature as passenger routes while others such as the branch to Hemyock continued to eke out their existence as freight only lines
