Davis, Mrs. Emma Frances (Angell) Drake, 1927 *Preaching Eugenics* Christine Rosen, 2004-03-04 With our success in
mapping the human genome the possibility of altering our genetic futures has given rise to difficult ethical questions
Although opponents of genetic manipulation frequently raise the specter of eugenics our contemporary debates about
bioethics often take place in a historical vacuum In fact American religious leaders raised similarly challenging ethical
questions in the first half of the twentieth century *Preaching Eugenics* tells how Protestant Catholic and Jewish leaders
confronted and in many cases enthusiastically embraced eugenics a movement that embodied progressive attitudes about
modern science at the time Christine Rosen argues that religious leaders pursued eugenics precisely when they moved away
from traditional religious tenets The liberals and modernists those who challenged their churches to embrace modernity
became the eugenics movement's most enthusiastic supporters Their participation played an important part in the success of
the American eugenics movement In the early twentieth century leaders of churches and synagogues were forced to defend
their faiths on many fronts They faced new challenges from scientists and intellectuals they struggled to adapt to the
dramatic social changes wrought by immigration and urbanization and they were often internally divided by doctrinal
controversies among modernists liberals and fundamentalists Rosen draws on previously unexplored archival material from
the records of the American Eugenics Society religious and scientific books and periodicals of the day and the personal
papers of religious leaders such as Rev John Haynes Holmes Rev Harry Emerson Fosdick Rev John M Cooper Rev John A
Ryan and biologists Charles Davenport and Ellsworth Huntington to produce an intellectual history of these figures that is
both lively and illuminating The story of how religious leaders confronted one of the era's newest sciences eugenics sheds
important new light on a time much like our own when religion and science are engaged in critical and sometimes bitter
dialogue *Everybody Belongs* Arthur Shapiro, 2003-09 The evil prosthesis of Captain Hook the comical speech of Porky Pig
and the bumbling antics of Mr Magoo are all examples of images in our culture which can become the basis of negative
attitudes and subliminal prejudice towards persons with disabilities These attitudes influence and underlie discriminatory
acts resulting in negative treatment and segregation A teacher's ability to recognize and counter such images may well
determine the success of inclusion and mainstreaming programs in our schools and society Well researched and well written
this book offers practical guidance as grounded in solid research to schools that are wrestling with how to mainstream

children with disabilities **Moral Regulation and Governance in Canada** Amanda Glasbeek, 2006 Moral Regulation and Governance in Canada offers an outstanding selection of readings that represents an overview of the key issues in deviance moral regulation and governance in Canada from a distinctly Canadian perspective It effectively tracks the sociology of deviance from governmentality studies to theories of social control Of particular note is the focus this book gives to gender issues It also argues that sometimes what is considered deviant is less related to criminality and more concerned with the perception of normalcy Current Catalog National Library of Medicine (U.S.), 1968 First multi year cumulation covers six years 1965 70 **The Wandering Womb** Lana Thompson, 2012-05-02 A provocative tour through religious medical and social history The Wandering Womb pinpoints the humorous outrageous and hair raising beliefs practices and longstanding falsehoods about women which have permeated human culture Illustrations Mediated Deviance and Social Otherness Kylo-Patrick R. Hart, 2009-01-14 If in fact Lizzie Borden took an axe and gave her step mother forty whacks why from a representational standpoint did her stepmother deserve it If older gay men in Internet chat rooms regularly provide much needed acceptance and advice to younger gay males during the coming out process how is it that they continually reinforce racist ideologies and powerless subjectivities while doing so What sorts of media images are commonly presented of individuals and groups that are regarded as being deviant in society and whose interests do they ultimately serve The answers to these important questions and many others are provided in the pages of Mediated Deviance and Social Otherness Interrogating Influential Representations which explores provocative representations of deviance in various media forms including books films musical offerings news accounts television programs and Internet sites and their substantial cultural political and social consequences for the lived realities of individuals of different backgrounds and lifestyles The eye opening chapters of this book enable readers to more fully realize the regularity with which media representations continuously contribute in powerful ways to the formation and perpetuation of influential social constructions of deviance and otherness as they pertain to delinquents criminals and individuals of all ages classes genders races sexual orientations and health disability statuses Mediated Deviance and Social Otherness Interrogating Influential Representations is a thought provoking anthology that offers fresh insight and new approaches to critically analyzing social constructions of deviancy across a variety of media forms While scholars have long examined the relationship between media and deviancy this collection of essays features a range of theoretical perspectives through which to investigate deviancy and its various interpretations in original ways In the process it deepens our understanding of how deviancy has been constructed across time and in differing social cultural milieus The essays in this anthology reflect the diverse disciplines of their contributing scholars At the same time the anthology does not waver from its clear focus on deviancy lending it substantial coherence and readability The book is expertly structured and edited Each of the essays draws inspiration from a refreshing variety of sources and fields of study The anthology is accordingly divided into six distinct yet related sections that mark its coherence and readability

Simultaneously the essays within each section are quite different from one another allowing the reader to make thought provoking connections between representations of deviancy both within sections and among them Mediated Deviance and Social Otherness Interrogating Influential Representations is an important text Considering the growth of new media forms its investigation of both old and new media in relation to social constructions of deviancy represents a timely and topical contribution to the field of media and cultural studies Given its breadth and scope the anthology represents a highly significant scholarly contribution that will greatly benefit scholars students and interested individuals of all levels It offers eye opening insights to anyone with an interest in cultural studies disease and disability studies film and television studies LGBT studies criminal justice sociology and related fields

Brief Reviewer Bio Metasebia Woldemariam Ph D is an associate professor of communication and media studies at Plymouth State University who specializes in media representations of deviancy and otherness Mediated Deviance and Social Otherness Interrogating Influential Representations is an erudite collection offering critical and cultural analysis of media representations within various media forms including journalism film documentary television fiction music and the Internet The book is divided into six sections that highlight the categories of deviance and otherness the contributors emphasize 1 Age 2 Crime and Criminals 3 Disease and Disability 4 Gender Race and Class 5 Sexual Orientation and 6 Other Forms of Deviance which include masochism carnival spectacles and cultures of violence While some chapters feature links to topics common to media studies such as the Motion Picture Production Code what is powerful about the collection is how varied the interpretive standpoints of the contributors are An example of one such unique interpretive perspective comes from Linda K Fuller whose chapter examines the sexual political aspects of African AIDS related films based on her work in West Africa with a sexologist collating and critiquing appropriate media for Life Skills This interpretive variety inspires novel examination of media representations through the originality of varied genres of analysis the collection offers analysis of classic as well as popular literature popular as well as veiled news media award winning as well as obscure television series and outlaw country music as well as rap music Because media is so broadly interpreted within the collection readers are encouraged to view mass media as a crucial cultural landscape for meaning making Each contributor offers a timely perspective about past or contemporary society through the analysis of unique media genres and artifacts or even through analysis of representations in multiple media forms For example Annette Holba examines multiple forms of the media representations of a less emphasized person in the Lizzie Borden case Borden's stepmother Editor Kylo Patrick R Hart's own contribution examines multiple media representations of the visible physical signs of AIDS before focusing on their representation in two particularly noteworthy film melodramas Rather than focusing on stereotypical categories of deviance and otherness the contributors focus on less commonly acknowledged representations or challenge commonly acknowledged understandings of media This is evident through Christopher J Prez's ethnographic observation of instant messages from Gay.com participants which dispels the notion that such online

communities allow for positive expressions of gay identity Through its broad interpretation of media the collection offers an ample array of less commonly acknowledged media genres as evident in Margaret Weigel s class analysis of the electric bulb advertising sign spectaculars in Manhattan from 1892 to 1917 Wendy Korwin s visual analysis of a set of four image plates used within prescriptive literature and Amanda Klein s cinematic comparison of portrayed deviance in the 1950s juvenile delinquency teenpic and the 1990s ghetto action film Incorporated also are unique perspectives on traditional news media representations as in Thomas Grochowski s interpretation of celebrity defendant perspectives of O J Simpson Occasionally common themes thread particular chapters together allowing opportunities to understand how critics view the same or similar media differently For example David Sealy and Georges Claude Guilbert as well as Valentin Locoge offer analysis of the HBO television series OZ Additionally contemporary moral dilemmas and societal issues are covered as they appear in various media representations as when Barbara Barnett s discussion of journalistic representations of maternal infanticide and perfection appear alongside Robert Goff s analysis of the textured view of abortion provided by the film Vera Drake Hart s collection is important to expanding the scholarly understanding of media representations because it provokes thinking about what makes media mean so much to humans in particular social cultural historical and even technological contexts The issue of the detrimental effects of shared notions of deviance and social otherness is evident in chapters that highlight original perspectives useful for either scholarly analysis or challenging graduate level classroom discussions Also because the collection includes literary analysis it could serve well those with interest in literary criticism ELESJA RUMINSKI Ph D is an assistant professor of English at Indiana University of Pennsylvania with experience teaching mass communication film studies and visual communication

Any Friend of the Movement Jimmy Elaine Wilkinson Meyer,2004 In the 1920s a few Cleveland women perceived a need for reliable birth control They believed that health and social service professionals denied women especially poor and working class women critical health care information Any Friend of the Movement tells the story of these women their actions and the organization they created the direct forerunner of a modern Planned Parenthood affiliate The disparate threads of this particular tale include the suicide of a pregnant woman the gift of a bereaved inventor smuggling contraceptive supplies across state lines and sponsoring ice skating galas to fund the work Any Friend of the Movement breaks new ground in the history of birth control activism in North America Meyer argues that private philanthropy and voluntary action on the part of clinics like the Maternal Health Association MHA and their clients vitalized the larger movement at its roots and pushed it forward

Framing the moron Gerald O'Brien,2015-11-01 Many people are shocked upon discovering that tens of thousands of innocent persons in the United States were involuntarily sterilized forced into institutions and otherwise maltreated within the course of the eugenic movement 1900 30 Such social control efforts are easier to understand when we consider the variety of dehumanizing and fear inducing rhetoric propagandists invoke to frame

their potential victims This book details the major rhetorical themes employed within the context of eugenic propaganda drawing largely on original sources of the period Early in the twentieth century the term moron was developed to describe the primary targets of eugenic control This book demonstrates how the image of morosity in the United States was shaped by eugenicists This book will be of interest not only to disability and eugenic scholars and historians but to anyone who wants to explore the means by which pejorative metaphors are used to support social control efforts against vulnerable community groups
