Hope in Times of Crisis Marina Ngursangzeli Behera, Michael Biehl, Risto Jukko, Kenneth R. Ross, 2025-06-06

The early twenty first century has dashed hopes for a more peaceful harmonious and prosperous world order as many societies have been plunged into conflict and living conditions for many have become ever more precarious The crisis is compounded by the advance of damaging climate change that jeopardizes the future of life on earth Where can the imagination be found to meet such an unprecedented crisis This book mines one hundred years of ecumenical reflection on mission affirming the strengths of this tradition It does so in a spirit of metanoia repentance recognizing that churches and missions were often complicit in trends

that have proved to be damaging At the same time it draws on elements of renewal in thinking about mission cherishing of life environmental responsibility action for justice deepening of spirituality working from a basis in ecumenical Christianity to make common cause with people of all faiths and convictions who share similar concerns While the book is unflinching in confronting the injustice and destructiveness of the prevailing world order its final message is one of hope proposing that a retrieval and renewal of the ecumenical vision holds the promise of a brighter future **Escaping Conflict** Barrett

The Rwanda Crisis Gérard Prunier,1997 In the spring of 1994 the tiny African nation of Rwanda exploded onto the international media stage as internal strife reached genocidal proportions But the horror that unfolded before our eyes had been building steadily for years before it captured the attention of the world In The Rwanda Crisis journalist and Africa scholar G rard Prunier provides a historical perspective that Western readers need to understand how and why the brutal massacres of 800 000 Rwandese came to pass Prunier shows how the events in Rwanda were part of a deadly logic a plan that served central political and economic interests rather than a result of ancient tribal hatreds a notion often invoked by the media to dramatize the fighting The Rwanda Crisis makes great strides in dispelling the racist cultural myths surrounding the people of Rwanda views propagated by European colonialists in the nineteenth century and carved into history by Western influence Prunier demonstrates how the struggle for cultural dominance and subjugation among the Hutu and Tutsi the central players in the recent massacres was exploited by racially obsessed Europeans He shows how Western colonialists helped to construct a Tutsi identity as a superior racial type because of their distinctly non Negro features in order to facilitate greater control over the Rwandese Expertly leading readers on a journey through the troubled history of the country and its surroundings Prunier moves from the pre colonial Kingdom of Rwanda through German and Belgian colonial regimes to the 1973 coup The book chronicles the developing refugee crisis in Rwanda and neighboring Uganda in the 1970s and 1980s and offers the most comprehensive account available of the manipulations of popular sentiment that led to the genocide and the events that have followed In the aftermath of this devastating tragedy The Rwanda Crisis is the first clear eyed analysis available to American readers From the massacres to the subsequent cholera epidemic and emerging refugee crisis Prunier details the horrifying events of recent years and considers prospects for the future of Rwanda
