**Childhood in Ancient Egypt** Amandine Marshall,2022-05-10 A groundbreaking account of how the ancient Egyptians perceived children and childhood from the Predynastic period to the end of the New Kingdom There could be no society no family and no social recognition without children The way in which children were perceived integrated and raised within the family and the community established the very foundations of Egyptian society Childhood in Ancient Egypt is the most comprehensive attempt yet published to reconstruct the everyday life of children from the Predynastic period to the end of the New Kingdom Drawing on a vast wealth of textual iconographic and archaeological sources stretching over a period of 3 500 years Amandine Marshall pieces together the portrait of a society in which children were ever present in a multiplicity of situations The ancient sources are primarily the expressions of male adults who were little inclined to take an interest in the condition of the child and the feelings of young Egyptians and all that touches on their emotional state can never be deduced from the sources Nevertheless by cross referencing and comparing thousands of documents Marshall has been able to explore how ancient Egyptians perceived children and childhood and whether children had a particular status in the eyes of the law society and the Egyptian state She examines the maintenance of the child and the care expended on its being and discusses the kinds of clothing jewelry and hairstyles children wore the activities that punctuated their daily lives the kinds of games and toys they enjoyed and what means were employed to protect them from illness evil spirits or ghosts Illustrated with 160 drawings and photographs this book sheds unprecedented light upon the experience of childhood in ancient Egypt and represents a major contribution to the growing field of ancient world childhood studies

**Jewish Writings of the Second Temple Period** Michael E. Stone,1984-01-01 This volume describes that part of the rich literary production of ancient Judaism which was not contained

in the Hebrew Bible nor in rabbinic literature These writings originated in the Second Temple period which proved highly creative in the midst of strong external influences and internal movements Prime example are the Dead Sea Scrolls documents of an extremely separatist sect Their discovery in 1947 revolutionized our understanding of Second Temple Judaism and its literature The scrolls appear more or less related in spirit to a group of writings transmitted by Christianity and known as the Pseudepigrapha Yet another group are the Apocrypha closely related to later biblical writings and incorporated within the Greek Old Testament Finally the encounter with Greek culture is documented by Jewish authors writing in Greek notably Philo and Josephus After a historical outline which sets the stage the chapters of this book describe and analyse these documents Selective bibliographies for further reading conclude the chapters

**Wisdom in Transition** Samuel L. Adams, 2008 This volume considers a major shift among Jewish sages during the Second Temple period as certain authors moved from an earthly focus to a belief in individual immortality Egyptian instructions and the book of Proverbs are examined for necessary background The colorful responses of Qoheleth and Ben Sira to an emergent belief in the afterlife are also discussed 4QInstruction the largest Wisdom text from the Dead Sea Scrolls corpus demonstrates this shift to an eschatological understanding This book considers the diverse reasons for the changes that one finds in 4QInstruction especially the issue of social context It will prove useful to those interested in Wisdom literature the Dead Sea Scrolls apocalypticism and the development of beliefs in the afterlife

**LA NOTION DE LIMITE TERRITORIALE DANS L'ÉGYPTÉ PHARAONIQUE** Romain Séguier, 2025-09-17 Cette thèse explore la notion de limite territoriale dans l'Égypte pharaonique avant le Nouvel Empire en se concentrant sur le terme *hwt* Elle est issue d'un travail de thèse soutenu en septembre 2020 et publiée par l'autorité pharaonique selon une norme de rectitude et une limite d'origines divines Elle correspond avant tout à une limite territoriale instituée par le bornage Les frontières de champs de villes de provinces et même de l'Égypte résultent de la rencontre de limites institutionnelles et matérielles inspirées des limites naturelles et idéologiques Cette approche révèle une vision du monde organisée selon la dynamique de la Mât administrant l'humanité et ses réalisations Elle constitue également un puissant outil de contrôle au service des ambitions économiques et de la subsistance d'un corps social centralisé autour de la fonction pharaonique marquant une différenciation spatiale Ainsi les enjeux liés à la frontière révèlent les responsabilités idéologiques de Pharaon notamment celle de faire respecter l'intégrité des acquis spatiaux originels et de les accroître Elle est réalisée par l'engendrement ou peut advenir sans souligner sa création unilatérale Son entretien implique protection, maintien, affermissement, renouvellement et même lutte armée Elle peut être fermée mais son franchissement ou sa transgression soulignent sa porosité L'idéal d'une frontière sacralisée et immuable se confronte à la réalité de sa spoliation ou de sa destruction Inversement le désir de la voir large ou s'étendre sans cesse devient central à partir du deuxième millénaire En résumé l'interprétation de *hwt* révèle sa complexité intrinsèque Ses graphies et contextes soulignent les nuances d'une limite physique réalisée par une partition intérieure et quitte à inspirer de la division naturelle et l'imaginaire de l'

espace terrestre C est une métaphore de la différenciation cellulaire se rapportant à la spatialité dont les fondements sont divins et qui sous tend l'action d'écriture transmise la fonction pharaonique reflète la fois l'autorité divine et une imposition politique dans la définition et la gestion territoriale de l'Égypte au travers d'une empreinte matérielle Cette charge idéologique se confronte à la réalité pratique de l'espace parcouru et habité par des populations et des logiques différentes induisant une vision plurielle et vivante de territoire immuable d'un territoire de passage et d'attractivité de l'autre territoire est façonné par une autorité forte souvent par des acteurs sous-représentés Les convergences et divergences autour de territoire mettent en lumière les évolutions de la notion de territoire reflétant des revendications territoriales de plus en plus précises et tendues du pouvoir politique La gestion matérielle de territoire présente une continuité sur la période étudiée mais l'organisation spatiale de l'Égypte semble refléter des tensions et des enjeux croissants observables par l'emploi du terme et ses représentations physiques Finalement territoire apparaît comme la matérialisation sensible de l'idéologie culturelle et religieuse d'un groupe humain dont la seule constante est le changement

**Ancient Egyptian Society** Danielle Candelora, Nadia Ben-Marzouk, Kathlyn M. Cooney, 2022-08-31

**L'Égypte pharaonique, L'âge d'or des pyramides** Christian

Jacq, 2023-10-25 Les pyramides n'étaient pas des tombeaux mais des matrices d'éternité qui ont fatigué le temps C'est cette révélation essentielle de l'âge d'or de la civilisation pharaonique que nous raconte de sa plume incomparable Christian Jacq Il nous invite dans un ouvrage richement illustré à couvrir l'extraordinaire aventure de ces bâtisseurs qui se nourrissaient des sciences sacrées l'astrologie la magie l'alchimie Il nous explique pourquoi aucun esclave n'a jamais travaillé à la construction des pyramides Pourquoi ces dernières n'ont jamais caché le moindre corps mortel puisque la pyramide est l'incarnation d'Osiris travers ce récit passionnant Christian Jacq nous fait galement percevoir la signification profonde et la portée des rituels initiatiques qui ont animé le maître des constructeurs Il nous montre comment les anciens Égyptiens affrontaient les preuves du quotidien mais aussi la mort qu'ils ne craignaient pas puisqu'elle ouvrait sur l'éternité Comme il affirmait rappelle Christian Jacq la première phrase des Textes des Pyramides Pharaon n'est pas parti mort il est parti vivant
