Saint Augustine Soliloquies And Immortality Of The Soul Classical Texts Series:

Sight and Embodiment in the Middle Ages S. Biernoff, 2002-07-01 This book breaks new ground by bringing postmodern writings on vision and embodiment into dialogue with medieval texts and images an interdisciplinary strategy that illuminates and complicates both cultures This is an invaluable reference work for anyone interested in the history and theory of visibility and it is essential reading for scholars of art science or spirituality in the medieval period **St**

Augustine Ryan N. S. Topping, 2014-10-23 After setting Augustine's thought firmly within the context of his life and times Ryan Topping examines in turn the causes of education the purposes pedagogy curriculum and limits of learning as Augustine understood them Augustine's towering influence over Medieval and Renaissance theorists from Hugh of St Victor to Aquinas to Erasmus is traced The book concludes by drawing Augustine into dialogue with contemporary philosophers exploring the influence of his meditations on higher education and suggesting how his ideas can reinvigorate for our generation the project of liberal learning Soliloquies ; And, Immortality of the Soul Saint Augustine (of Hippo), 1990

Augustine's Soliloquies and the Immortality of the Soul explore the primacy of mind over things of sense and the immortality of the soul These central tenets of Neoplatonism are not mere theoretical questions for Augustine the work offers an insight into his emotions at this time Latin text with facing translation introduction and commentary **Encyclopedia of Medieval**

Philosophy Henrik Lagerlund, 2010-12-07 This is the first reference ever devoted to medieval philosophy It covers all areas of the field from 500 1500 including philosophers philosophies key terms and concepts It also provides analyses of particular theories plus cultural and social contexts Augustiniana, 1951 **Forthcoming Books** Rose Arny, 1993 *Theology as*

Improvisation Nathan Crawford, 2013-02-14 In *Theology as Improvisation* Nathan Crawford reimagines the possibilities for how theology thinks God within a postmodern world By engaging a number of thinkers in conversation he navigates the nature of thinking God in a postmodern world *Clarissa's Plots* Lois E. Bueler, 1994 This study also examines the connections among the plots how Clarissa's self-scrutinizing response to the pressures of test and trial and her refusal to achieve respectability at the expense of her integrity is explained by her pursuit of Christian prudence and how Lovelace's inability to fathom the disappearance of his tempter function after the rape as well as his inability to respond as does Belford to Clarissa's exemplary influence is an expression of his nature as protagonist in the Don Juan plot Richardson conducts all three plots concurrently Bueler demonstrates by exploiting the psychologically and dramatically rich resources of simultaneous dialogue and soliloquy inherent in the epistolary genre **Oxford Studies in Medieval Philosophy** Peter

King, Martin Pickavé, 2025-02-28 Oxford Studies in Medieval Philosophy showcases the best scholarly research in this flourishing field The series covers all aspects of medieval philosophy including the Latin Arabic and Hebrew traditions and runs from the end of antiquity into the Renaissance It publishes new work by leading scholars in the field and combines historical scholarship with philosophical acuteness The papers will address a wide range of topics from political philosophy to

Mintz,2021-01-28 This volume traces the history of Western philosophy of education in Antiquity Between the fifth century BCE and the fifth century CE Plato Isocrates Aristotle Cicero Augustine and others raised questions about the nature of teaching and learning the relationship of education and politics and the elements of a distinctively philosophical education Their arguments on these topics launched a conversation that occupied philosophers over the millennia and continues today About A History of Western Philosophy of Education An essential resource for researchers scholars and students of education this five volume set that traces the development of philosophy of education through Western culture and history Focusing on philosophers who have theorized education and its implementation the series constitutes a fresh dynamic and developing view of educational philosophy It expands our educational possibilities by reinvigorating philosophy s vibrant critical tradition connecting old and new perspectives and identifying the continuity of critique and reconstruction It also includes a timeline showing major historical events including educational initiatives and the publication of noteworthy philosophical works **Augustine and Gender** Maggie Ann Labinski, Kim Paffenroth,2024-03-06 The relationship between Augustine of Hippo and the subject of gender raises important questions Augustine and Gender address these issues head on This volume offers original interpretations of the many ways that gender appears throughout Augustine s thought and works Contributions draw from a wide range of sources including Augustine s sermons letters treatises and dialogues Readers will discover detailed analyses about the nature of desire and emotion the politics of sex and marriage the possibilities of human speech and exegesis and the hope of education and community In addition this book is a persuasive demonstration of the benefits of bringing together Augustinian scholars with the most pressing concerns of the present Books in Print ,1977 **The Arts of Disruption** Nicolette Zeeman,2020-07-22 The monograph series Oxford Studies in Medieval Literature and Culture showcases the plurilingual and multicultural quality of medieval literature and actively seeks to promote research that not only focuses on the array of subjects medievalists now pursue in literature theology and philosophy in social political jurisprudential and intellectual history the history of art and the history of science but also that combines these subjects productively It offers innovative studies on topics that may include but are not limited to manuscript and book history languages and literatures of the global Middle Ages race and the post colonial the digital humanities media and performance music medicine the history of affect and the emotions the literature and practices of devotion the theory and history of gender and sexuality ecocriticism and the environment theories of aesthetics medievalism The Arts of Disruption Allegory and Piers Plowman offers a series of new readings of the allegorical poem Piers Plowman but it is also a book about allegory It argues not just that there are

distinctively disruptive arts that occur in allegory but that allegory because it is interested in the difficulty of making meaning is itself a disruptive art The book approaches this topic via the study of five medieval allegorical narrative structures that exploit diegetic conflict and disruption Although very different they all bring together contrasting descriptions of spiritual process in order to develop new understanding and excite moral or devotional change These five structures are the paradiastolic hypocritical figure such as vices masked by being made to look like adjacent virtues personification debate violent language and gestures of apophasis narratives of bodily decline and grail romance Each appears in a range of texts which the book explores along with other connected materials in medieval rhetoric logic grammar spiritual thought ethics medicine and romance iconography These allegorical narrative structures appear radically transformed in *Piers Plowman* where the poem makes further meaning out of the friction between them Much of the allegorical work of the poem occurs at the points of their intersection and within the conceptual gaps that open up between them Ranging across a wide variety of medieval allegorical texts the book shows from many perspectives allegory's juxtaposition of the heterogeneous and its questioning of supposed continuities

Petrarch's 'Fragmenta' Thomas E Peterson, 2016-06-16 Petrarch's *Rerum vulgarium fragmenta* a collection of lyric poems on sacred and profane love and other subjects has traditionally been viewed as reflecting the conflicted nature of its author However award winning author Thomas E Peterson argues that Petrarch's *Fragmenta* is an ordered and coherent work unified by narrative and theological structures By concentrating on the poem's reliance on Christian tenets and distinguishing between author narrator and character Peterson exposes the underlying narrative and theological unity of the work Building on recent Petrarch scholarship and broader studies of medieval poetics poetic narrativity and biblical intertextuality Peterson conducts a rigorous examination of the *Fragmenta*'s poetic language This combination of stylistic and philological analysis recasts Petrarch's poetry in a new light revealing its radically innovative and liberating character

Wealth and the Material World in the Old English Alfredian Corpus Amy Faulkner, 2023 A new materialistic reading of the Alfredian corpus drawing on diverse approaches from thing theory to Augustinian principles of use and enjoyment to uncover how these works explore the material world The Old English prose translations traditionally attributed to Alfred the Great versions of Gregory's *Regula pastoralis* Boethius' *De consolazione philosophiae* Augustine's *Soliloquia* and the first fifty Psalms urge detachment from the material world but despite this its flotsam and jetsam from costly treasures to everyday objects abound within them This book reads these original and inventive translations from a materialist perspective drawing on approaches as diverse as thing theory and Augustine's principles of use and enjoyment By focussing on the material it offers a fresh interpretation of this group of translations bringing out their complex often contradictory relationship with the material world It demonstrates that as in the poetic tradition wealth in Alfredian literature is not simply a tool to be used or something to be enjoyed in excess rather in moving away from these two static binaries it shows that wealth is a current flowing both horizontally as an exchange of gifts

between humans and vertically as a salvific current between earth and heaven The prose translations are situated in the context of Old English poetry including Beowulf The Wanderer The Seafarer the Exeter Book Riddles and The Dream of the Rood

On Order Saint Augustine, 2020-10-27 A fresh new translation of Augustine's third work as a Christian convert The first four works written by St Augustine of Hippo after his conversion to Christianity are dialogues that have influenced prominent thinkers from Boethius to Bernard Lonergan Usually called the Cassiciacum dialogues these four works are of a high literary and intellectual quality combining Ciceronian and neo Platonic philosophy Roman comedy and Vergilian poetry and early Christian theology They are also arguably Augustine's most charming works exhibiting his whimsical levity and ironic wryness On Order is the third work in this tetralogy and it is Augustine's only work explicitly devoted to theodicy the reconciliation of Almighty God's goodness with evil's existence In this dialogue Augustine argues that a certain kind of self knowledge is the key to unlocking the answers to theodicy's vexing questions and he devotes the latter half of the dialogue to an excursus on the liberal arts as disciplines that will help strengthen the mind to know itself and God

The Classics in East Europe Victor Bers, Gregory Nagy, 1995

The Journey toward God in Augustine's Confessions Carl G. Vaught, 2012-02-01 This detailed discussion of Augustine's journey toward God as it is described in the first six books of the Confessions begins with infancy moves through childhood and adolescence and culminates in youthful maturity In the first stage Augustine deals with the problems of original innocence and sin in the second he addresses a pear stealing episode that recapitulates the theft of the forbidden fruit in the Garden of Eden and confronts the problem of sexuality with which he wrestles until his conversion and in the third he turns toward philosophy only to be captivated successively by dualism skepticism and Catholicism Augustine's journey exhibits temporal spatial and eternal dimensions and combines his head and his heart in equal proportions Vaught shows that the Confessions should be interpreted as an attempt to address the person as a whole rather than through our intellectual or volitional dimensions exclusively The passion with which Augustine describes the end of his journey is reflected best in a sentence found in the opening chapter of the text You have made us for yourself and our heart is restless until it rests in you Interpreting this statement Carl G Vaught presents a more emphatically Christian Augustine than is usually found in contemporary scholarship Refusing to view Augustine in an exclusively Neoplatonic framework Vaught holds that Augustine baptizes Plotinus just as successfully as Aquinas baptizes Aristotle It cannot be denied that Ancient philosophy influences Augustine decisively Nevertheless he holds the experiential and the theoretical dimensions of his journey toward God together as a distinctive expression of the Christian tradition

Augustine on Memory Kevin G. Grove, 2021-09-28 Augustine of Hippo indisputably one of the most important figures for the study of memory is credited with establishing memory as the inner source of selfhood and locus of the search for God Yet those who study memory in Augustine have never before taken into account his preaching His sermons are the sources of memory's greatest development for Augustine In Augustine's preaching especially on the Psalms the interior gives way to

communal exterior Both the self and search for God are re established in shared identity and the communal labor of remembering and forgetting Augustine on Memory presents this new paradigm not only for Augustinian studies but also for theologians philosophers ethicists and interdisciplinary scholars of memory
