**Historical Dictionary of the Crusades** Corliss K. Slack,2013-05-09 The crusades were among the longest and most bitter wars in human history and consisted of no less than seven major expeditions from Western Europe from the late 11th to the early 14th centuries for the purpose of wresting Jerusalem and the Holy Land from the control of the Muslims In the end it was the Muslims who won and the Christians who suffered a major setback and the Middle East remained firmly in Muslim hands This was one of the worst clashes between different religions and civilizations and for long it was largely forgotten or brushed over That is no longer the case with many Muslims regarding Western interference in the region as a repeat of the crusades while launching their own jihads So while an old conflict it is still with us today Even at the time it was very hard to understand the causes and outcome of the crusades and that remains a problem today This Historical Dictionary of the Crusades cannot claim to have resolved it but it most definitely does make the situation easier to understand The introduction provides an overview tracing the crusades from one expedition to the next and assessing their impact The actual flow of events is far easier to follow thanks to the chronology And maps help to trace the events geographically The entries and there are more than 300 of them in this second edition look more closely at notable figures including Pope Gregory VII Richard the lionhearted and Saladin as well as important places Jerusalem Constantinople and others events battles and sieges as well as the use of weapons and armor The bibliography points to further reading      Saladin: Sultan of the Holy Sword Kathrine Sorley Walker,1971      *Joscelyn III and the Fall of the Crusader States, 1134-1199* Robert Lawrence Nicholson,2023-12-14      **Logistics of Warfare in the Age of the Crusades** John H. Pryor,2016-12-05 How were the Crusades made possible There have been studies of ancient medieval and early modern warfare as well as work on the finances and planning of Crusades but this volume is the first specifically to address the logistics of Crusading Building on previous work it brings together experts from the fields of medieval Western Byzantine and Middle Eastern studies to examine how the marches and voyages were actually made Questions of manpower types and means of transportation by land and sea supplies financial resources roads and natural land routes sea lanes and natural sailing routes all these topics and more are covered here Of particular importance is the attention given to the horses and other animals on which transport of supplies and the movement of armies depended      **The Routledge Companion to the Crusades** Peter

Lock,2013-04-15 A compilation of facts figures maps family trees summaries of the major crusades and their historiography the Routledge Companion to the Crusades spans a broad chronological range from the eleventh to the eighteenth century and gives a chronological framework and context for modern research on the crusading movement Not just a history of the Crusades but an overview of the logistical economic social and biographical history this is a core text for students of history and religious studies *The Knights Templar* Stephen Howarth,1982 The age of the Crusades encompassed the rise and fall of a singular Order of fighting men equally devoted to God war and the defense of Palestine After the Crusades the Templars obeyed no one except the Pope and acquired land and castles by gift conquest and purchase becoming a church within the Church They were bankers merchants diplomats and tax gatherers and though they themselves were poor the wealth of their Order was legendary As the nation states arose the Templars were accused of heresy treachery sodomy usury blasphemy and idolatry The author assesses the faults and fine qualities of the brotherhood examining the reasons for its initial allure and eventual ignominious obliteration **The Wizard of the Damavand** Joseph Richardson Parke,1910 The Library of the Palestine Pilgrims' Text Society: Life of Saladin, Beha Ed-Din Palestine Pilgrims' Text Society (London, England),1897

The Rare and Excellent History of Saladin or al-Nawadir al-Sultaniyya wa'l-Mahasin al-Yusufiyya by Baha' al-Din Ibn Shaddad D.S. Richards,2020-04-28 Saladin is perhaps the one and only Muslim ruler who emerges with any clarity in standard tales and histories of the Crusades this is a translation of Baha al Din Ibn Shaddad s account of his life and career Ibn Shaddad 1144 1234 was clearly a great admirer of Saladin and was a close associate of his serving as his qadi al askar judge of the army from 1188 until Saladin s death in 1193 His position and his access to information make this an authoritative and essential source for Saladin s career while his personal relationship with the sultan adds a sympathetic and moving element to the account of his final years Aside from its inherent value as a source for the history of Egypt and the Middle East it therefore provides a much needed complement and corrective to the widely known Latin accounts of the Crusades and the Latin Kingdom of Jerusalem in the 12th century The present translation is based on a fuller edition of the text than that used in the previous 19th century translation and takes into account the translator s readings of the earliest manuscript of the work dated July 1228 The Postcolonial Middle Ages J. Cohen,2000-04-21 An increased awareness of the importance of minority and subjugated voices to the histories and narratives which have previously excluded them has led to a wide spread interest in the effects of colonization and displacement This collection of essays is the first to apply post colonial theory to the Middle Ages and to critique that theory through the excavation of a distant past The essays examine the establishment of colony empire and nationalism in order to expose the mechanisms of oppression through which aboriginal native or simply pre existent cultures are displaced eradicated or transformed **Encounter between Enemies: Captivity and Ransom in the Latin Kingdom of Jerusalem** Yvonne Friedman,2021-10-25 This fascinating study examines the customs legal codes and socioeconomic mechanisms that evolved from the initial Christian Muslim encounter on

Crusader battlefields It pinpoints changes in European mentality and conduct of war tracing acculturation processes in Frankish society in the Levant These changes emerged from the need to redeem captives making payment of ransom to the infidel conceivable and acceptable The book pays special attention to the story of the vanquished to the situation of women to the behavior of the Military Orders toward captives and to the image of the captive in Crusader literature in the context of making war and peace
