The Quest for the Golden Trout Douglas M. Thompson, 2013-09-22 The angler s dream of fishing pristine waters in unspoiled country for sleek healthy trout has turned fishing into a form of theater It is a manufactured experience much to the detriment of our rivers and streams Americans love of trout has reached a level of fervor that borders on the religious Federal and state agencies as well as nongovernmental lobbying groups invest billions of dollars on river restoration projects and fish stocking programs Yet their decisions are based on faulty logic and risk destroying species they are tasked with protecting River ecosystems are

modified with engineered structures to improve fishing native species that compete with trout are eradicated and nonnative invasive game fish are indiscriminately introduced genetically modified and selectively bred to produce more appealing targets for anglers including the freakishly contrived golden trout The Quest for the Golden Trout is about looking at our nation's rivers with a more critical eye and asking more questions about both historic and current practices in fisheries management

Salmon Wars Catherine Collins, Douglas Frantz, 2022-07-12 A Pulitzer Prize winning correspondent and a former private investigator dive deep into the murky waters of the international salmon farming industry exposing the unappetizing truth about a fish that is not as good for you as you have been told A decade ago farmed Atlantic salmon replaced tuna as the most popular fish on North America's dinner tables We are told salmon is healthy and

environmentally friendly The reality is disturbingly different In *Salmon Wars* investigative journalists Douglas Frantz and Catherine Collins bring readers to massive ocean feedlots where millions of salmon are crammed into parasite plagued cages and fed a chemical laced diet The authors reveal the conditions inside hatcheries where young salmon are treated like garbage and at the farms that threaten our fragile coasts They draw colorful portraits of characters such as the big salmon farmer who poisoned his own backyard the fly fishing activist who risked everything to ban salmon farms in Puget Sound and the American researcher driven out of Norway for raising the alarm about dangerous contaminants in the fish Frantz and Collins document how the industrialization of Atlantic salmon threatens this keystone species endangers our health and environment and lines the pockets of our generation s version of Big Tobacco And they show how it doesn t need to be this way Just as Eric Schlosser s *Fast Food Nation* forced a reckoning with the Big Mac the vivid stories scientific research and high stakes finance at the heart of *Salmon Wars* will inspire readers to make choices that protect our health and our planet
