That You Might Believe - Study on the Gospel of John Robert L. Deffinbaugh, 2002 There are certain books of the Bible that just seem to stand out and the Gospel of John is surely one such book It is frequently the first book of the Bible we encourage non Christians to read in the hope that its message will lead them to faith in Christ After all that is the purpose of the book See John 20 31 For Christians the Gospel of John is a source of much truth about our Lord and the Gospel But it is much more than that It is an opportunity for us to follow Him as we read and to identify with the disciples as their knowledge of Him continues to expand It is our opportunity to get to know the heart of the Savior and to fellowship with Him through His Word If men of old found their hearts set on fire as they listened to Him teach in person Luke 24 32 so we will find our hearts warmed as we seek to listen to Him through this Gospel I challenge you to join me in making the Gospel of John the subject of your study May God use it to help you see and serve Jesus Christ as the Lamb of God who takes away the sin of the world John 1 29

Ethics as Scales of Forms Richard Allen, 2014-09-18 This book is an important contribution to moral philosophy and also to moral theology It overcomes the dichotomising fragmentation of much contemporary moral philosophy which tends to take one aspect or component of moral activity such as the consequences of actions rules or intentions and to make it the only one The book employs an adaptation of

Collingwood's scheme of scales of forms to provide a synthesis which does justice to all aspects and components by placing each aspect or component on a scale in which each lower one presupposes the next higher and each higher one needs to be appropriately enacted and expressed in the next lower one. The lowest of all is that of the consequences of single actions and the highest in which all the others are fulfilled is that of the unique person as essentially an *ens amans* a loving being. That scale is itself insufficient for it in turn presupposes a scale of values and ends to be realised and pursued and thus overcomes another false dichotomy that of deontological duty versus axiological value ethics for duties without values and ends are pointless and arbitrary and values and ends without duties are of no moral significance. The order of types of love from mere liking and enjoyment to love of the unique person provides an appropriate scale integrated with one of various types of fulfilment: pleasure, happiness, virtue, whose summit love itself is also that of the previous scale. Thus insofar as we become what we ought to be then *ceteris paribus* we shall also find our true fulfilment. At each point relevant texts from Greek to contemporary European philosophy along with mentions of some other world and life views are cited to illustrate and give substance to the argument.

Thinking Through Chrétien de Troyes Zrinka Stahuljak, 2011. This co-written book challenges assumptions about Chrétien as the author of a canon of works. In a series of exchanges its five authors reassess the relationship between lyric and romance between individuality and social conditions and between psychology and medieval philosophy.
