Serving Women Household Service In Nineteenth Century America:

Serving Women Faye E. Dudden, 1983 Examines the daily lives and social conditions of household servants and discusses their relationships with their female employers At Home in Nineteenth-Century America Amy G. Richter, 2015-01-23 Few institutions were as central to nineteenth century American culture as the home Emerging in the 1820s as a sentimental space apart from the public world of commerce and politics the Victorian home transcended its initial association with the private lives of the white native born bourgeoisie to cross lines of race ethnicity class and region Throughout the nineteenth century home was celebrated as a moral force domesticity moved freely into the worlds of politics and reform and home and marketplace repeatedly remade each other At Home in Nineteenth Century America draws upon advice manuals architectural designs personal accounts popular fiction advertising images and reform literature to revisit the variety of places Americans called home Entering into middle class suburban houses slave cabins working class tenements frontier dugouts urban settlement houses it explores the shifting interpretations and experiences of these spaces from within and without Nineteenth century homes and notions of domesticity seem simultaneously distant and familiar This sense of surprise and recognition is ideal for the study of history preparing us to view the past with curiosity and empathy inspiring comparisons to the spaces we inhabit today malls movie theaters city streets and college campuses Permitting us to listen closely to the nineteenth century's sweeping conversation about home in its various guises At Home in Nineteenth Century America encourages us to hear our contemporary conversation about the significance and meaning of home anew while appreciating the lingering imprint of past ideals Instructor's Guide **Domesticity And Dirt** Phyllis Palmer, 2010-09-23 Examining the cultural norms of women after Suffrage to define labor based on color After Foucault University of Illinois at Chicago. Institute for the Humanities, 1988 The essays in this collection assess the impact of Michel Foucault's work on the conditions of disciplinary knowledge in humanistic studies and speculate on the directions we might take from his work They cover a wide range of fundamental concerns from philosophy of knowledge in both theoretical and applied forms to philology history psychoanalysis feminism and politics Whether the contributors would be counted as being for or against Foucault all of them show that their understanding has been altered by the challenges his work has posed In some cases Foucault's thought is severely criticized as an obstacle to effective understanding or action in others his thought offers a resource through which received opinion can be displayed **Hungering for America** Hasia R. DINER, 2009-06-30 Millions of immigrants were drawn to American shores not by the mythic streets paved with gold but rather by its tables heaped with food How they experienced the realities of America's abundant food its meat and white bread its butter and cheese fruits and vegetables coffee and beer reflected their earlier deprivations and shaped their ethnic practices in the new land Hungering for America tells the stories of three distinctive groups and their unique culinary dramas Italian immigrants transformed the food of their upper classes and of sacred days into a generic Italian food that inspired community pride and cohesion Irish

immigrants in contrast loath to mimic the foodways of the Protestant British elite diminished food as a marker of ethnicity And East European Jews who venerated food as the vital center around which family and religious practice gathered found that dietary restrictions jarred with America's boundless choices These tales of immigrants in their old worlds and in the new demonstrate the role of hunger in driving migration and the significance of food in cementing ethnic identity and community Hasia Diner confirms the well worn adage Tell me what you eat and I will tell you what you are

Playing House in the American West Cathryn Halverson, 2013-11-26 Examines an eclectic group of western women's autobiographical texts canonical and otherwise *Playing House in the American West* argues for a distinct regional literary tradition characterized by strategic representations of unconventional domestic life The controlling metaphor Cathryn Halverson uses in her engrossing study is playing house From Caroline Kirkland and Laura Ingalls Wilder to Willa Cather and Marilynne Robinson from the mid nineteenth to the late twentieth centuries western authors have persistently embraced wayward or eccentric housekeeping to prove a woman's difference from western neighbors and eastern readers alike The readings in *Playing House* investigate the surprising textual ends to which westerners turn the familiar terrain of the home evaluating community arguing for different conceptions of race and class and perhaps most especially resisting traditional gender roles Western women writers Halverson argues render the home as a stage for autonomy resistance and imagination rather than as a site of sacrifice and obligation The western women examined in *Playing House in the American West* are promoted and read as representatives of a region as insiders offering views of distant and intriguing ways of life even as they conceive of themselves as outsiders By playing with domestic conventions they recast the region they describe portraying the West as a place that fosters female agency individuality and subjectivity

The Shadow Of The Mills S. J. Kleinberg, 2017-03-17 The profound disruption of family relationships caused by industrialization found its most dramatic expression in the steel mills of Pittsburgh in the 1880s The work day was twelve hours and the work week was seven days with every other Sunday for rest In this major work S J Kleinberg focuses on the private side of industrialization on how the mills structured the everyday existence of the women men and children who lived in their shadows What did industrialization and urbanization really mean to the people who lived through these processes What solutions did they find to the problems of low wages poor housing inadequate sanitation and high mortality rates Through imaginative use of census data the records of municipal charitable and fraternal organizations and the voices of workers themselves in local newspapers Kleinberg builds a detailed picture of the working class life cycle marital relationships the interaction between parents and children the education and employment prospects

Alva Vanderbilt Belmont Sylvia D. Hoffert, 2018-11-01 A fascinating biography of the New York socialite who played a surprising role in the fight for suffrage Born in the middle of the nineteenth century Alva Vanderbilt Belmont was known to be domineering temperamental and opinionated She married two millionaires and pressured her daughter to wed an aristocrat This resolve to get her own way regardless of the consequences stood her in good stead when she joined the American woman suffrage movement in 1909 Thereafter she used her wealth her administrative expertise and her social celebrity to help convince Congress to pass the 19th Amendment and then to persuade the exhausted leaders of the National Woman's Party to initiate a worldwide equal rights campaign In this book Sylvia D Hoffert argues that Belmont was a feminist visionary and that her financial support was crucial to the success of the suffrage and equal rights movements She also shows how Belmont's activism and the money she used to support it enriches our understanding of the personal dynamics of the American woman's rights movement Drawing upon and analyzing Belmont's own memoirs she illustrates how this determined woman went about the complex and collaborative process of creating her public self Engaging Highly recommended Choice

Abel, 2009-06-30 The image of the female caregiver holding a midnight vigil at the bedside of a sick relative is so firmly rooted in our collective imagination we might assume that such caregiving would have attracted the scrutiny of numerous historians As Emily Abel demonstrates in this groundbreaking study of caregiving in America across class and ethnic divides and over the course of ninety years this has hardly been the case While caring for sick and disabled family members was commonplace for women in nineteenth and early twentieth century America that caregiving the caregivers experience of it and the medical profession s reaction to it took diverse and sometimes unexpected forms A complex series of historical changes Abel shows has profoundly altered the content and cultural meaning of care Hearts of Wisdom is an immersion into that world of care Drawing on antebellum slave narratives white farm women s diaries and public health records Abel puts together a multifaceted picture of what caregiving meant to American women and what it cost them from the pre Civil War years to the brink of America s entry into the Second World War She shows that caregiving offered women an arena in which experience could be parlayed into expertise while at the same time the revolution in bacteriology and the transformation of the formal health care system were weakening women s claim to that expertise Table of Contents Acknowledgments Introduction Part One 1850 1890 1 Hot Flannels Hot Teas and a Great Deal of Care Emily Hawley Gillespie and Sarah Gillespie 1858 1888 2 An Overview of Nineteenth Century Caregiving 3 Tried at the Quilting Bees Con icts between Old Ladies and Aspiring Professionals Part Two 1890 1940 4 A Terrible and Exhausting Struggle Martha Shaw Farnsworth 1890 1924 5 Just as You Direct Caregiver Translations of Medical Authority 6 Negotiating Public Health Directives Poor New Yorkers at the Turn of the Century Reviews of this book This excellent
