Dream work claims that our dreams powerfully reflect or influence spiritual psychological and even physical realities Dreams can be explored for psychological insight in psychotherapy for spiritual insight in Christian dream work or manipulated for occult revelations or spiritual growth Dream work may also be used as an adjunct to physical healing The authors expose the occult potential and examine the major problems and dangers as well as give a biblical evaluation **Encyclopedia of New Age**

Some topics covered are angels visualization shamanism hypnosis new age medicine and martial arts **Knowing the Facts about Channeling and Crystal Work** John Ankerberg,John Weldon,2012-08-30 When men and women willingly give over their minds and bodies to spirit entities and these spirits enter and control them using them to heal or to give teachings and other information this is called channeling Crystal work uses crystals to invoke the spirits The spirits claim they can assist people toward true individual social and spiritual enlightenment Channeled spirits claim to be wise and loving entities but are they What is their real purpose The authors examine the potential problems and dangers that can occur through channeling along with a biblical evaluation of the practice *Get the Picture* Brent Marchant,2007-01-01

Conscious creation is the theory that we create our own reality when we watch the movie screen Brent Marchant examines psychological aspects of motion pictures **Rough Metaphysics** Peter Skafish,2023-04-25

A powerful case for why anthropology should study outsiders of thought and their speculative ideas What sort of thinking is needed to study anomalies in thought In this trenchantly argued and beautifully written book anthropologist Peter Skafish explores this provocative question by examining the writings of the medium and rough metaphysician Jane Roberts 1929 1984 Through a close interpretation of her own published texts as well as those she understood herself to have dictated for her cohort of channeled personalities including one named Seth who would inspire the New Age movement Skafish shows her intuitive and dreamlike work to be a source of rigorously inventive ideas about science ontology translation and pluralism Arguing that Roberts s writings contain philosophies ahead of their time he also asks How might our understanding of speculative thinking change if we consider the

way untrained writers occult visionaries and their counterparts in other cultural traditions undertake it What can outsider thinkers teach us about the limitations of even our most critical intellectual habits Rough Metaphysics is at once an ethnography of the books of a strange and yet remarkable writer a commentary on the unlikely philosophy contained in them and a call for a new way of doing and undoing philosophy through anthropology and vice versa In guiding the reader through Roberts s often hallucinatory world of concepts Skafish also develops a series of original interpretations of thinkers from William James to Claude L vi Strauss to Paul Feyerabend who have been vital to anthropologists and their fellow travelers Seductively written and surprising in its turns of thought Rough Metaphysics is a feast for anyone who wants to learn how to think something new especially about thought
