More than one hundred books have been written about T E Lawrence which explore the man and his deeds Just about every aspect and the many incarnations of his life his campaigns the geo politics of the Arab world and the influence of the West in it as Lawrence experienced them have been examined However nobody has gone in search of the mind of the man himself of his formation and his deep beliefs Nobody has asked the question What really is the source of the extraordinary power of this little man not only in terms of his incontestable qualities of leadership but also in regard to the sheer range of his activities and accomplishments Archaeologist writer guerilla warfare theorist and practitioner diplomat soldier and airman Lawrence also possessed an unusual ability to cross boundaries of class race culture and religion On top of this he demonstrated the ability to walk away from power and wealth and the accumulation of things to change his name more than once to begin again at the bottom of the heap in the RAF and stay there with only a few friends and books and a motorcycle Lawrence Warrior and Scholar is a quest It examines how a slight Oxford academic combined two of the most challenging paths a man can choose What drove and motivated this man How was it that he could apparently out shoot out ride and out starve the Bedouin How is it that the US military and others are still studying his famous account of the Arab Revolt and his 27 Articles Drawing upon what Lawrence and those who knew him wrote and did and said Bruce Leigh delves into Lawrence s personal

philosophy and practices examining and analyzing his library and his close relationship to the world of classical scholarship and chivalry emphasizing that Lawrence's views were not abstractions only but intimately tied to his actions and deeds. Ultimately the book argues that there is a message in Lawrence's writings and activities one that is against the grain of the world of self definition by consumption. As one of his friends wrote "The Man was great the message is greater" **The American Mercury** George Jean Nathan, Henry Louis Mencken, 1929
