Seven Interpretive Essays on Peruvian Reality José Carlos Mariátegui, 2014-03-19 Once again I repeat that I am not an impartial objective critic My judgments are nourished by my ideals my sentiments my passions I have an avowed and resolute ambition to assist in the creation of Peruvian socialism I am far removed from the academic techniques of the university From the Author's Note Jose Carlos Mari tegui was one of the leading South American social philosophers of the early twentieth century He identified the future of Peru with the welfare of the Indian at a time when similar ideas were beginning to develop in Middle America and the Andean region Generations of Peruvian and other Latin American social thinkers have been profoundly influenced by his writings Seven Interpretive Essays on Peruvian Reality Siete ensayos de interpretaci n de la realidad peruana first published in 1928 is Mari tegui s major statement of his position and has gone into many editions not only in Peru but also in other Latin American countries The topics discussed in the essays economic evolution the problem of the Indian the land problem public education the religious factor regionalism and centralism and the literary process are in many respects as relevant today as when the book was written Mari tegui s thinking was strongly tinged with Marxism Because contemporary sociology anthropology and economics have been influenced by Marxism much more in Latin America than in North America it is important that North Americans become more aware of Mari tegui s position and accord it its proper historical significance Jorge Basadre the distinguished Peruvian historian in an introduction written especially for this translation provides an account of Mari tegui s life and describes the political and intellectual climate in which these essays were written Seven Interpretive Essays on Peruvian Reality Jose C. Mariategui, 1971-01-01 Catalog of **Copyright Entries. Third Series** Library of Congress. Copyright Office,1973 **Decolonizing Democracy from Western** Cognitive Imperialism Mentan, Tatah, 2015-08-06 There seems to be a sort of prevalent attitude in the Western world that its brand of democracy is something of a catch all solution for all the world's political problems. Hence Western imperialism has always been sold under the pretext of spreading freedom and democracy Democracy is beautiful But it is no proof against imperialism Whether democracy is causal is another whole consideration It may be a case of the least bad of evil alternatives It may be a case of a state of social and political development over and above the way people organize themselves It may be the fate of rational life on a planet with insufficient energy reserves to support locomotion without predation But what gives anyone the right to go into a sovereign country and change its foundation through War The whole democracy freedom line is a lie to give Western imperialism a friendly face Imperialism and its lie of spreading democracy is an unmitigated evil whether for material gain or the pride fostered by active participation in the machinery of state Therefore a people seeking to control their destiny must decolonize imposed Western democracy Latin America and the Origins of Its Twenty-First Century Michael Monteón, 2009-12-30 Latin American societies were created as pre industrial colonies that is peoples whose cultures and racial makeup were largely determined by having been conquered by Spain or Portugal In all these societies a

colonial heritage created political and social attitudes that were not conducive to the construction of democratic civil societies And yet Latin America has a public life not merely governments but citizens who are actively involved in trying to improve the lives and welfare of their populations Monteon focuses on the relation of people's lifestyles to the evolving pattern of power relations in the region Much more than a basic description of how people lived this book melds social history politics and economics into one creating a full picture of Latin American life There are two poles or markers in the narrative about people s lives the cities and the countryside Cities have usually been the political and cultural centers of life from the conquest to the present Monteon concentrates on cities in each chronological period allowing the narrative to explain the change from a religiously centered life to the secular customs of today from an urban form organized about a central plaza and based on walking to one dominated by the automobile and its traffic Each chapter relates the connections between the city and its countryside and explains the realities of rural life Also discussed are customs diets games and sports courting and marriage and how people work **Anti-Imperial Metropolis** Michael Goebel, 2015-08-25 This book traces the spread of a global anti imperialism from the vantage point of Paris between the two World Wars where countless future leaders of Third World countries spent formative stints Exploring the local social context in which these emergent activists moved the study delves into assassination plots allegedly hatched by Chinese students demonstrations by Latin American nationalists and the everyday lives of Algerian Senegalese and Vietnamese workers On the basis of police reports and other primary sources the book foregrounds the role of migration and interaction as driving forces enabling challenges to the imperial world order weaving together the stories of peoples of three continents Drawing on the scholarship of twentieth century imperial international and global history as well as migration race and ethnicity in France it ultimately proposes a new understanding of the roots of the Third World idea Political Ecology Enrique Leff, 2021-02-23 This book offers a conceptual framework for the critical understanding of the present socio environmental conflicts It reflects on the evolution of subject and thought a shift in environmental thinking triggered by the development of eco territorial conflicts and the social responses given to the environmental question Bringing together 40 years of the authors writing and research the book explores the transition from ecological economics and historical materialism to ecological Marxism It unpacks the forging of political ecology from value theory in political economy to ecological distribution and ecologies of difference a transition to an environmental rationality grounded in the ontology of diversity a politics of difference and an ethics of otherness This evolution in thinking gives consistency to a theoretical discourse able to respond to the territorial conflicts generated by the radicalization of the environmental question as a key social issue of our times The book is a call to respond to the urgent challenge of reversing the tendency towards the entropic death of the planet and to building a sustainable world order **Across Borders** Joerg Rieger, 2013-06-20 While work in theology and religious studies by scholars in Latin America and by Latino a scholars in the United States has made substantial contributions to the current scholarship in the

field there are few projects where scholars from these various contexts are working together Across Borders Latin
Perspectives in the Americas Reshaping Religion Theology and Life is unique as it brings leading scholars from both worlds
into the conversation The chapters of this book deal with the complexities of solidarity the intersections of the popular and
the religious the example of Afro Cubanisms the meaning of popular liberation struggles Hispanic identity formation at the U
S border and the unique promise of studying religion and theology in the tensions between North and South in the Americas

The constituent chapters of the book are exhibits of that argument and question some fashionable conceptual oppositions and value apartheids This book will be of great interest to students and scholars in the fields of social and political philosophy contemporary political theory postcolonial studies African philosophy and social thought
