Works: The Jesuits in North America in the seventeenth century Francis Parkman, 1901 **Seventeenth Century North America** Carl Ortwin Sauer, 1980 This book is a review of the impact of European colonialization on the cultural and natural landscapes of native North America In this text the author has focused on rare neglected first hand French and Spanish source materials to provide us with ecologically and ethnographically rich stunningly detailed and articulate portraits of the American Landscape and the culturally sophisticated Native land management systems which were already in place at the dawn of Euro American history Far from a vast and open wilderness s America was at its dawn already a human environment as Sauer so clearly demonstrates and our history as a people would swing on the ability of our early Founding fathers often no more than glorified European real estate agents to perceive the intricacies of these eco systems as they lay before them like an open book Back cover The Jesuits in North America in the Seventeenth Century Parkman Francis, 2016-06-21 Unlike some other reproductions of classic texts 1 We have

not used OCR Optical Character Recognition as this leads to bad quality books with introduced typos 2 In books where there are images such as portraits maps sketches etc We have endeavoured to keep the quality of these images so they represent accurately the original artefact Although occasionally there may be certain imperfections with these old texts we feel they deserve to be made available for future generations to enjoy
