Franklin W. Robinson

Seventeenth Century Dutch Drawings:

Seventeenth-century Dutch and Flemish Drawings from the Robert Lehman Collection Metropolitan Museum of Art (New York, N.Y.), George Szabó, 1979 *Dutch Seventeenth-century Genre Painting* Wayne E. Franits, 2004-01-01 The appealing genre paintings of great seventeenth century Dutch artists Vermeer Steen de Hooch Dou and others have long enjoyed tremendous popularity This comprehensive book explores the evolution of genre painting throughout the Dutch Golden Age beginning in the early 1600s and continuing through the opening years of the next century Wayne Franits a well known scholar of Dutch genre painting offers a wealth of information about these works as well as about seventeenth century Dutch culture its predilections and its prejudices The author approaches genre paintings from a variety of perspectives examining their reception among contemporary audiences and setting the works in their political cultural and economic contexts The works emerge as distinctly conventional images Franits shows as genre artists continually replicated specific styles motifs and a surprisingly restricted number of themes over the course of several generations Luxuriously illustrated and with a full representation of the major artists and the cities where genre painting flourished this book will delight students scholars and general readers alike **Seventeenth-century Dutch Drawings** ,1991 *Art in History/History in Art* David Freedberg, Jan de Vries, 1996-07-11 Historians and art historians provide a critique of existing methodologies and an interdisciplinary inquiry into seventeenth century Dutch art and culture Seventeenth-Century Dutch Drawings William W. Robinson, 1994-06-01 **An Entrance for the Eyes** Martha Hollander, 2002-03-20 How refreshing how absolutely refreshing to find a book on Dutch painting that asks readers to begin by simply looking Hollander is faithful to the possibility so common in painting so unusual in scholarship that the paintings are elusive evasive unsystematically ambiguous Doors ajar windows onto the street paintings within paintings half drawn curtains blank mirrors a man s coat hung on a nail those are the engines of interpretation and Hollander tells their history lucidly and entirely persuasively James Elkins author of *The Object Stares Back* Hollander offers fresh and compelling readings of key works by Karel van Mander Gerard Dou Nicolaes Maes and Pieter de Hooch Very few recent books on Dutch art are as rich as this and few are written in such lucid unpretentious prose What shines forth from every page is a genuine love of the pictures Here is art history well tempered to the objects it interprets Joseph L Koerner author of *The Moment of Self Portraiture in German Renaissance Art* In recent years scholars have explored how space signifies in seventeenth century Dutch art and culture Hollander s fascinating study is the most comprehensive to date It examines space as conceived in the writings of Dutch art theorists constructed in contemporary architecture and disposed and made meaningful in the work of Gerard Dou Nicolaes Maes Pieter de Hooch and Karel van Mander *An Entrance for the Eyes* lays a firm foundation for research on this intriguing and hitherto understudied aspect of Dutch art Wayne E Franits author of *Paragons of Virtue Women and Domesticity in Seventeenth Century Dutch Art* **Dutch Drawings of the Seventeenth Century** J. H. J. Mellaart, 1926 **Seventeenth-Century Dutch and Flemish**

Painting Ivan Gaskell, Sammlung Thyssen-Bornemisza, 1990 A catalogue of 128 paintings produced during this period in which the art of portraiture was transformed religious imagery dynamized and new genres such as flower painting were established The art of Holland's Golden Age is perennially popular with collectors and gallery visitors alike and this book provides a new insight into this unique private collection In his introduction Ivan Gaskell considers the extremely varied character of Dutch and Flemish seventeenth century art It ranges from minutely observed scenes of everyday life to portraits religious works and intimate still life compositions The Thyssen Bornemisza Collection is especially rich in landscapes a subject which had emerged as a separate genre in the Netherlands in the previous century The author outlines the development of painting on both sides of the border placing it in its social and historical context and goes on to discuss the taste for Dutch and Flemish art from the seventeenth century to the present day and spotlights some of the earlier collectors This detailed catalogue of 128 paintings is the result of meticulous research in British Dutch and American libraries and archives The entries are arranged in ten groups by subject so that thematic similarities can be conveniently examined Amongst the most celebrated works is Frans Hals's monumental Family Portrait once the most expensive painting in the world All the paintings are illustrated in colour and are accompanied by comparative illustrations and technical photographs

Robinson, 1977 *Seventeenth-Century Dutch and Flemish Drawings from the Robert Lehman Collection* George Szabo, 2012 *The Art of Describing* Svetlana Alpers, 1989 The art historian after Erwin Panofsky and Ernst Gombrich is not only participating in an activity of great intellectual excitement he is raising and exploring issues which lie very much at the centre of psychology of the sciences and of history itself Svetlana Alpers's study of 17th century Dutch painting is a splendid example of this excitement and of the centrality of art history among current disciplines Professor Alpers puts forward a vividly argued thesis There is she says a truly fundamental dichotomy between the art of the Italian Renaissance and that of the Dutch masters Italian art is the primary expression of a textual culture this is to say of a culture which seeks emblematic allegorical or philosophical meanings in a serious painting Alberti Vasari and the many other theoreticians of the Italian Renaissance teach us to read a painting and to read it in depth so as to elicit and construe its several levels of signification The world of Dutch art by the contrast arises from and enacts a truly visual culture It serves and energises a system of values in which meaning is not read but seen in which new knowledge is visually recorded George

Steiner Sunday Times There is no doubt that thanks to Alpers's highly original book the study of the Dutch masters of the seventeenth century will be thoroughly reformed and rejuvenated She herself has the verve the knowledge and the sensitivity to make us see familiar sights in a new light E H Gombrich New York Review of Books

Shifting Priorities Nanette Salomon, 2004 This ground breaking book offers the first sustained examination of Dutch seventeenth century genre painting from a theoretically informed feminist perspective Other recent works that deal with images of women in this field maintain the paradoxical combination of seeing the images as positivist reflections of life as it was and as emblems of virtue and vice These reductionist practices deprive the works of their complex nature and of their place in visual culture important frameworks that the book attempts to restore to them Salomon expands the possibilities for understanding both familiar and unfamiliar paintings from this period by submitting them to a wide range of new and provocative questions Paintings and prints from the first half of the century through to the second are analyzed to understand the changing social roles and values attributed to the sexes as they were introduced and reflected in the visual arts
