David Moody, 2014-09-25 The long awaited second volume of A David Moody s critically acclaimed three part biography of Ezra Pound weaves together the illuminating story of his life his achievements as a poet and a composer and his one man crusade for economic justice The years 1921 1939 were the most productive of Pound s career In 1920s Paris he was among the leading figures of the avant garde and in that ambience he composed an opera made original contributions to the theory of harmony and wrote the first thirty cantos of his great epic Moody explores this creativity in fascinating detail examining the environment that allowed for some of Pound s greatest work This period also brought Pound s politics firmly into view and

Moody is able to shed new light on his sympathy for Mussolini's Fascism his invoking Confucian China as a model of responsible government and his abiding commitment to the democratic values of the American Constitution Pound is revealed as a great poet and a flawed idealist caught up in the turmoil of his darkening time and struggling sometimes blindly and in error and self contradiction to be a force for enlightenment
