

Sex, Love, Compassion

Only in recent years have professional philosophers begun to study the nature of sexuality.¹ The analysis of love was a staple of respectable philosophizing from the time of Plato through the age of romanticism and into the twentieth century. Though interest in love as a philosophical topic flagged for several decades, it now is once receiving more attention. Questions about compassion and sexual feeling related to it have always been treated as legitimate in moral philosophy. But little has been achieved, as yet, in the effort to resolve these fundamental problems about human nature.

In my own writing, which includes efforts in both of these fields, I have sometimes felt that the methodology I pursue, like other philosophy and historians of philosophy, creates an unfortunate barrier that prevents sufficient comprehension. The conceptualists as well as the others agreed that, by its very being, philosophy defines its own limitations. Philosophies of sex, love, and compassion have such small impact and pervasiveness for a species like ours that our mightiest will believe that no matter

Philosophy of Love Irving Singer, 2011-01-07 The author of the classic philosophical treatment of love reflects on the trajectory over decades of his thoughts on love and other topics In 1984 Irving Singer published the first volume of what would become a classic and much acclaimed trilogy on love Trained as an analytical philosopher Singer first approached his subject with the tools of current philosophical methodology Dissatisfied by the initial results finding the chapters he had written just dreary and unproductive of anything he turned to the history of ideas in philosophy and the arts for inspiration He discovered an immensity of speculation and artistic practice that reached wholly beyond the parameters he had been trained to consider truly philosophical In his three volume work *The Nature of Love* Singer tried to make sense of this historical progression within a framework that reflected his precise distinction making and analytical background In this new book he maps the trajectory of his thinking on love It is a partial summing up of a lifework partial because it expresses the author s still unfolding views because it is a recapitulation of many published pages because love like any subject of that magnitude resists a neatly comprehensive all inclusive formulation Adopting an informal even conversational tone Singer discusses among other topics the history of romantic love the Platonic ideal courtly and nineteenth century Romantic love the nature of passion the concept of merging and his critique of it ideas about love in Freud Schopenhauer Nietzsche Dewey Santayana Sartre and other writers and love in relation to democracy existentialism creativity and the possible future of scientific investigation Singer s writing on love embodies what he has learned as a contemporary philosopher studying other authors in the field and trying to get a little further This book continues his trailblazing explorations

Irving Singer and the meaning in our own lives results from creative efforts on our part. It is not a prior reality awaiting our discovery. Though we talk about a search for meaning, what we are seeking is primarily a mode of creativity that will make our lives meaningful. In *The Creation of Value*, the first volume of his *Meaning in Life* trilogy, Singer studies the nature of imagination, idealization, and love in the context of humanity's attempt to define itself through the pursuit of meanings and values that it creates. Singer confronts life's most troubling problems: the meaning of death, the presence of anxiety in daily existence, the conditions needed for us to have a life worth living, and the possibility of a love of life in others as well as in ourselves.

Ingmar Bergman, Cinematic Philosopher Irving Singer, 2009-09-18. The development of themes, motifs, and techniques in Bergman's films from the first intimations in the early work to the consummate resolutions in the final movies. Known for their repeating motifs and signature tropes, the films of Ingmar Bergman also contain extensive variation and development. In these reflections on Bergman's artistry and thought, Irving Singer discerns distinctive themes in Bergman's filmmaking from first intimations in the early work to consummate resolutions in the later movies. Singer demonstrates that while Bergman's output is not philosophy on celluloid, it attains an expressive and purely aesthetic truthfulness that can be considered philosophical in a broader sense. Through analysis of both narrative and filmic effects, Singer probes Bergman's mythmaking and his reliance upon the magic inherent in his cinematic techniques. Singer traces throughout the evolution of Bergman's ideas about life and death and about the possibility of happiness and interpersonal love. In the overtly self-referential films that he wrote or directed, *The Best Intentions*, *Fanny and Alexander*, *Sunday's Children*, as well as the less obviously autobiographical ones including *Wild Strawberries*, *The Seventh Seal*, and the triad that begins with *Through a Glass Darkly*, Bergman investigates problems in his existence and frequently reverts to childhood memories. In such movies as *Smiles of a Summer Night*, *Scenes from a Marriage*, and *Saraband*, Bergman draws upon his mature experience and depicts the troubled relationships between men who are often weak and women who are made to suffer by the damaged men with whom they live. In *Persona*, *Cries and Whispers*, and other works, his experiments with the camera are uniquely masterful. Inspecting the panorama of Bergman's art, Singer shows how the endless search for human contact motivates the content of his films and reflects Bergman's profound perspective on the world.

The Nature of Love, Volume 1 Irving Singer, 2009-02-20. An analysis of concepts of bestowal, appraisal, imagination, and idealization followed by explorations into the writings of thinkers that include Plato, Ovid, and Martin Luther. Irving Singer's trilogy *The Nature of Love* has been called majestic. *New York Times Book Review*: monumental. *Boston Globe*: one of the major works of philosophy in our century. *Nous*: wise and magisterial. *Times Literary Supplement*: and a masterpiece of critical thinking that is a timely, eloquent, and scrupulous account of what, after all, still makes the world go round. *Christian Science Monitor*: In the first volume, Singer begins by studying love as appraisal and bestowal, as well as imagination and idealization. He then examines the contrasting views of Plato, Aristotle, Plotinus, Ovid, Lucretius, Saint Augustine, Saint Thomas Aquinas, and Martin Luther. After having

described the nature of erotic idealization Singer analyzes the religious idealization in Judeo Christian concepts of eros philia nomos and agape Medieval Catholicism sought to combine these four ideas of love in the caritas synthesis Luther repudiated that attempt on the grounds that love exists only in God s agapastic bestowal of unlimited goodness upon humanity and all of nature In relation to the different modes of theorizing Singer explores the humanistic implications of each

Cinematic Mythmaking Irving Singer, 2010-09-24 Mythic themes and philosophical probing in film as an art form as seen in works of Preston Sturges Jean Cocteau Stanley Kubrick and various other filmmakers Film is the supreme medium for mythmaking The gods and heroes of mythology are both larger than life and deeply human they teach us about the world and they tell us a good story Similarly our experience of film is both distant and intimate Cinematic techniques panning tracking zooming and the other tools in the filmmaker s toolbox create a world that is unlike reality and yet realistic at the same time We are passive spectators but we also have a personal relationship with the images we are seeing In Cinematic Mythmaking Irving Singer explores the hidden and overt use of myth in various films and in general the philosophical elements of a film s meaning Mythological themes Singer writes perform a crucial role in cinematic art and even philosophy itself Singer incisively disentangles the strands of different myths in the films he discusses He finds in Preston Sturges s The Lady Eve that Barbara Stanwyck s character is not just the biblical Eve but a liberated woman of our times Eliza Doolittle in the filmed versions of Shaw s Pygmalion is not just a statue brought to life but instead a heroic woman who must survive her own dark night of the soul The protagonist of William Wyler s The Heiress and Anieszka Holland s Washington Square is both suffering Dido and an awakened Amazon Singer reads Cocteau s films including La Belle et la B te Orph e and The Testament of Orpheus as uniquely mythological cinematic poetry He compares Kubrickian and Homeric epics and analyzes in depth the self referential mythmaking of Federico Fellini in many of his movies including 8 The aesthetic and probing inventiveness in film Singer shows us restores and revives for audiences in the twenty first century myths of creation of the questing hero and of ideals both secular and religious that have had enormous significance throughout the human search for love and meaning in life
