Marriage and Values in Public Policy Elizabeth van Acker, 2017-01-20 Marriage is a site of political conflict It is a controversial issue in the UK Australia and the US where there is a clash of values between neoliberal governments and diverse groups either strongly opposing or supporting marriage In the meantime fewer couples are marrying while other family forms are more widely accepted This book explores this disconnect by examining policy issues such as class divides ethnicity religion same sex marriage gender relations and romantic expectations A top down approach explores different government policy responses to marriage In all three countries there are differences and similarities in how governments react to the changes in family formations but values or conceptions of the desirable play a significant role Enhancing stability and commitment as well as personal responsibility are important for policymakers who aim to keep the family intact and thereby lower the burden on the public purse It is difficult for political actors to respond to conflicting and changing values surrounding the diversity in relationships or to translate them into policies There is a strong case to be made for increased policy attention to adult relationships and a much weaker case for marriage Rich evidence is drawn from interviews with key stakeholders as well as politicians speeches government departmental reports stakeholders documents and responses to

government policies and media articles *Same-Sex Marriage and Children* Carlos A. Ball, 2014-05-27 Same Sex Marriage and Children is the first book to bring together historical social science and legal considerations to comprehensively respond to the objections to same sex marriage that are based on the need to promote so called responsible procreation and child welfare Carlos A Ball places the current marriage debates within a broader historical context by exploring how the procreative and child welfare claims used to try to deny same sex couples the opportunity to marry are similar to earlier arguments used to defend interracial marriage bans laws prohibiting disabled individuals from marrying and the differential treatment of children born out of wedlock Ball also draws a link between welfare reform and same sex marriage bans by explaining how conservative proponents have defended both based on the need for the government to promote responsible procreation among heterosexuals In addition Ball examines the social science studies relied on by opponents of same sex marriage and explains in a highly engaging and accessible way why they do not support the contention that biological status and parental gender matter when it comes to parenting He also explores the relevance of the social science studies on the children of lesbians and gay men to the question of whether same sex couples have a constitutional right to marry In doing so the book looks closely at the gay marriage cases that recently reached the Supreme Court and explains why the constitutionality of same sex marriage bans cannot be defended on the basis that maintaining marriage as an exclusively heterosexual institution helps to promote the best interests of children Same Sex Marriage and Children will help lawyers law professors judges legislators social and political scientists historians and child welfare officials as well as general readers interested in matters related to marriage and families understand the empirical and legal issues behind the intersection of same sex marriage and children s welfare *Marriages and Families in the 21st Century* Tasha R. Justifying Same-Sex Marriage Louise Richardson-Self, 2015-05-29 There is massive public interest in same sex marriage a controversial topic that is rarely out of the media This book investigates the extent to which legalizing same sex marriage can contribute to ending the discrimination and social stigma faced by lesbian gay bisexual and transgender men and women LGBT in the Western world This issue breaks down into several further questions can marriage equality be defended without reinforcing the idea that marriage is the most only valuable form of intimate relationship Can marriage equality be defended without further marginalizing non conforming LGBT people What kind of equality should LGBT people strive for What critical agency might they lose when this equality is achieved What institutional legacies should we embrace The book focuses on human rights arguments supporting same sex marriage and questions whether they are likely to both justify legal change and encourage shifts in the sociopolitical reception of LGBT people After critically analyzing various arguments in favor of same sex marriage the author puts forward a justification that allows for marriage equality and does not result in the assimilation of queer identities into heteronormative identity
