Chatbots and the Domestication of AI Hendrik Kempt, 2024-12-07 With the publication of chatGPT in December 2022 a new era of artificial dialogue systems and chatbots has emerged Many established thinkers and figures have published their stance on the development of this technology not rarely combined with stark language about its transformative potential and potential risks New terminologies have found entrance to public and philosophical discourse new regulatory frameworks have been introduced from small to large scale and an entire economy has shifted many apps have sprung into existence using chatGPT and other LLMs as a basis for their services large corporations take the risks of releasing unfinished language models to undercut the competition In the meantime many more stakeholders have entered the economic regulatory and social discourses on how to deal with this emerging technology Taking the latest developments in the field into consideration this completely revised and updated second edition now includes new chapters on the tech ethics of Large Language Models and LLMs as relational technology The author considers the consequences of chatbots on human human relationships providing analysis on robot rights human centered design and the social tension between robophobes and robophiles

Sex, Law, and Sovereignty in French Algeria, 1830-1930 Judith Surkis, 2019-12-15 This is a masterful study of the ways in which sex and law were inextricably intertwined in the elaboration of French rule in Algeria Its great virtue is to demonstrate in careful detail with an impressive range of material from court records to novels exactly how the conquest of Algeria repeatedly challenged the very ideals of the secular universalism in whose name colonization was carried out Joan Wallach Scott author of *Sex and Secularism* During more than a century of colonial rule over Algeria the French state shaped and reshaped the meaning and practice of Muslim law by regulating it and circumscribing it to the domain of family law while applying the French Civil Code to appropriate the property of Algerians In *Sex Law and Sovereignty in French Algeria 1830 1930* Judith Surkis traces how colonial authorities constructed Muslim legal

difference and used it to deny Algerian Muslims full citizenship In disconnecting Muslim law from property rights French officials increasingly attached it to the bodies beliefs and personhood Surkis argues that powerful affective attachments to the intimate life of the family and fantasies about Algerian women and the sexual prerogatives of Muslim men supposedly codified in the practices of polygamy and child marriage shaped French theories and regulatory practices of Muslim law in fundamental and lasting ways Women s legal status in particular came to represent the dense relationship between sex and sovereignty in the colony This book also highlights the ways in which Algerians interacted with and responded to colonial law Ultimately this sweeping legal genealogy of French Algeria elucidates how the Muslim question in France became and remains a question of sex
