Prison Jacqueline Z. Wilson, 2008 *Prison Cultural Memory and Dark Tourism* discusses decommissioned Australian prisons currently or potentially functioning as tourist attractions In particular it addresses a fundamental question Do the interpretations and presentations of the sites include and fairly represent the personal stories and experiences associated with those prisons The author argues that the conventional understanding of most of Australia's historical prisons fosters a radical othering of inmates and with it the exclusion distortion and historical neglect of their narratives This book examines avenues via which neglected narratives may be glimpsed or inferred presenting a number of examples This remedies the imbalance in some degree and tests such avenues potential as resources for inclusive interpretations by public historians and curators The book also focuses on the influence of celebrity prisoners whose links to the penal system are exploited as promotional features by the sites and in some cases by the individuals themselves Their narratives provide broad if unwitting support for the system and for the othering of the more general inmate population The ramifications of the above with regard to aspects of Australian identity mean that certain facets of the Australian character traditionally held to be emblematic are affected These effects have subtle but tangible consequences for modern Australians collective memory and deleterious consequences for current popular attitudes to penal practice

The Oxford Encyclopedia of Women in World History Bonnie G. Smith, 2008 The Encyclopedia of Women in World History captures the experiences of women throughout world history in a comprehensive 4 volume work Although there has been extensive research on women in history by region no text or reference work has comprehensively covered the role women have played throughout world history The past thirty years have seen an explosion of research and effort to present the experiences and contributions of women not only in the Western world but across the globe Historians have investigated women's daily lives in virtually every region and have researched the leadership roles women have filled across time and region They have found and demonstrated that there is virtually no historical social or demographic change in which women have not been involved and by which their lives have not been affected The Oxford Encyclopedia of Women in World History benefits greatly from these efforts and experiences and illuminates how women worldwide have influenced and been influenced by these historical social and demographic changes The Encyclopedia contains over 1 250 signed articles arranged in an A Z format for ease of use The entries cover six main areas biographies geography and history comparative culture and society including adoption abortion performing arts organizations and movements such as the Egyptian Uprising and the Paris Commune women's and gender studies and topics in world history that include slave trade globalization and disease With its rich and insightful entries by leading scholars and experts this reference work is sure to be a valued go to resource for scholars college and high school students and general readers alike

Chinese Diaspora Charity and the Cantonese Pacific, 1850-1949 John Fitzgerald, Hon-ming Yip, 2020-04-15 Chinese Diaspora Charity and the Cantonese Pacific 1850 1949 sheds new light on the history of charity among Chinese overseas and its place in the history of charity in China and in the wider history of global philanthropy It finds that diaspora charity besides serving traditional functions of helping the sick and destitute and supporting development in China helped to build trust among dispersed hometown networks while challenging color boundaries in host societies by contributing to wider social causes The book shows that charitable activities among the Gold Rush communities of the Pacific rim a loosely integrated migr network from Guangdong Province perhaps better known for its business acumen and hard work among English speaking settler societies in North America and Australasia also led the way with social innovations that helped to shape modern charity in China Fitzgerald and Yip's volume demonstrates that charity lay at the heart of community life among

Chinese communities overseas From remittances accompanying letters to contributions to benevolent organizations emigrants transferred funds in many different ways to meet urgent requirements such as disaster relief while also contributing to long term initiatives like building schools or hospitals By drawing attention to diaspora contributions to their host societies the contributors correct a common misunderstanding of the historical Chinese diaspora which is often perceived by host communities as self interested or disengaged This important study also reappraises the value of charitable donations in the maintenance of networks an essential feature of diaspora life across the Cantonese Pacific Fitzgerald and Yip s fascinating collection is a major contribution to the growing study of charity and its relationship to social welfare The essays show how remittances were used for much more than family support The book fills a large gap on the almost unrecognized importance of charity among Cantonese communities in the Chinese diaspora Diana Lary University of British Columbia This collection is a great contribution to our understanding of how important charity became among overseas Chinese in the early stages of the diaspora between 1850 and 1949 Philanthropy was crucial in the creation of trust networks among the diasporic communities that earned Chinese recognition to the overseas communities both in China and in their host countries Sue Fawn Chung University of Nevada Las Vegas
