humiliation and depravity are the cornerstones of the artistic spirit How else to rationalize one's deliberate choice to face a life of unsigned rejection letters calls from worried parents and collection agencies and cups and cups of ramen noodles Being a noble artiste is a rough gig It's one part denial one part masochism And it gets all the respect of being a fry cook without the convenient minimum wage Only a fool would agree to such soul crushing until now *The Starving Artist's Survival Guide* boldly reassures both the dreamer and the doer that you are not alone Regardless of whether you are a painter a poet a musician a writer an actor or simply paralyzed by an English lit or fine arts degree help has arrived Topics include the pros and cons of various artistic day jobs People love clowns except for the 80 percent who want to beat them up and the 20 percent who do coping with form letter rejections through the healing power of haikus You blinking red light A call back from my agent No just goddamn Mom a survey of artists dwellings from the romanticized loft to Mama's rent free attic and most important Holding On Ten Good Reasons to Keep Your Head out of the Oven *The Loves of the Artists* Jonathan

Jones,2013-05-23 A sweeping epic history of the Renaissance artists seen through the lens of something that perhaps occupied their thoughts and influenced their art the most sex Taking Donatello's provocative reinvention of the nude as his starting point Jonathan shows how the story of the Renaissance is the story of a sexual revolution The great artists of the 15th and 16th century were not just visionaries but lovers Jonathan argues that the famous nudes of Michelangelo and Titian are not abstract images of ideal beauty but erotic expressions of love and desire and that in order to understand the Renaissance we have to understand the sex lives of the men and women who defined it men like Raphael who obsessively painted his lover La Fornarina in the nude Michelangelo who made beautiful drawings of naked male bodies to present to the young man he adored and Rembrandt whose bedroom portraits of Hendrickje Stoffels are the frankest expressions of love anywhere in art Sweeping from its origins in Florence in the mid 15th century to its culmination in the work of Rubens and Rembrandt in the 17th The Loves of the Artists shows that the Renaissance invented eroticism as we know it and that the new ways of thinking about sex it engendered are crucial to understanding not only art but European culture as a whole
