Imagining the Forest John R. Knott, 2011-11-30 Forests have always been more than just their trees The forests in Michigan and similar forests in other Great Lakes states such as Wisconsin and Minnesota played a role in the American cultural imagination from the beginnings of European settlement in the early nineteenth century to the present Our relationships with those forests have been shaped by the cultural attitudes of the times and people have invested in them both moral and spiritual meanings Author John Knott draws upon such works as Simon Schama s *Landscape and Memory* and Robert Pogue Harrison s *Forests*

The Shadow of Civilization in exploring ways in which our relationships with forests have been shaped using Michigan its history of settlement popular literature and forest management controversies as an exemplary case Knott looks at such well known figures as William Bradford James Fenimore Cooper John Muir John Burroughs and Teddy Roosevelt Ojibwa conceptions of the forest and natural world including how Longfellow mythologized them early explorer accounts and contemporary literature set in the Upper Peninsula including Jim Harrison's True North and Philip Caputo's Indian Country Two competing metaphors evolved over time Knott shows the forest as howling wilderness impeding the progress of civilization and in need of subjugation and the forest as temple or cathedral worthy of reverence and protection Imagining the Forest shows the origin and development of both

Deep Woods Frontier Theodore J. Karamanski, 1989 Examines the interplay between men and technology in the lumbering of Michigan's rugged Upper Peninsula In Deep Woods Frontier Theodore J Karamanski examines the interplay between men and technology in the lumbering of Michigan's rugged Upper Peninsula Three distinct periods emerged as the industry evolved The pine era was a rough pioneering time when trees were felled by axe and floated to ports where logs were loaded on schooners for shipment to large cities When the bulk of the pine forests had been cut other entrepreneurs saw opportunity in the unexploited stands

of maple and birch and harnessed the railroad to transport logs Finally in the pulpwood era weed trees despised by previous loggers are cut by chain saw and moved by skidder and truck Narrating the history of Michigan s forest industry Karamanski provides a dynamic study of an important part of the Upper Peninsula s economy
