Marks,2010-11 The overthrow of Viceroy Joaquín de la Pezuela on 29 January 1821 has not received much attention from historians who have viewed it as a simple military uprising Yet in this careful study of the episode based on deep archival research Patricia Marks reveals it to be the culmination of decades of Peruvian opposition to the Bourbon reforms of the late eighteenth century especially the Reglamento de comercio libre of 1778 It also marked a radical change in political culture brought about by the constitutional upheavals that followed Napoleon's invasion of Spain Although Pezuela's overthrow was organized and carried out by royalists among the merchants and the military it proved to be an important event in the development of the independence movement as well as a pivotal factor in the failure to establish a stable national state in post independence Peru The golpe de estado may thereby be seen as an early manifestation of Latin American praetorianism in which a sector of the civilian population unable to prevail politically and unwilling to compromise pressures army officers to act in order to save the state

Brazil and the Soviet Challenge, 1917-1947 Stanley E. Hilton,1991-06-01 Between 1918 and 1961 Brazil and the USSR maintained formal diplomatic ties for only thirty one months at the end of World War II Yet despite the official distance the USSR is the only external actor whose

behavior real or imagined influenced the structure of the Brazilian state in the twentieth century In *Brazil and the Soviet Challenge 1917-1947* Stanley Hilton provides the first analysis in any language of Brazilian policy toward the Soviet Union during this period Drawing on American British and German diplomatic archives and unprecedented access to official and private Brazilian records Hilton elucidates the connection between the Brazilian elite's perception of a communist threat and the creation of the authoritarian Estado Novo 1937-1945 the forerunner of the post 1964 national security state He shows how the 1935 communist revolt prepared by Comintern agents was a pivotal event in Brazilian history making prophets of conservative alarmists and generating irresistible pressure for an authoritarian government to contain the Soviet threat He details the Brazilian government's secret cooperation with the Gestapo during the 1930s and its concomitant efforts to forge an anti Soviet front in the Southern Cone And he uncovers an unexplored aspect of Brazil's national security policy namely the attempt to build counterintelligence capabilities not only within Brazil but also in neighboring countries While the history of the Brazilian communist movement has been extensively studied this is the first work to explore how images of the Soviet Union and its policies influenced the Brazilian foreign policy elite It will be important reading for all students of twentieth century political history
