Crossover Picturebooks Sandra L. Beckett,2013-06-17 This book situates the picturebook genre within the widespread international phenomenon of crossover literature examining an international corpus of picturebooks including artists books wordless picturebooks and celebrity picturebooks that appeal to readers of all ages Focusing on contemporary picturebooks Sandra Beckett shows that the picturebook has traditionally been seen as a children s genre but in the eyes of many authors illustrators and publishers it is a narrative form that can address any and all age groups Innovative graphics and formats as well as the creative often complex dialogue between text and image provide multiple levels of meaning and invite readers of all ages to consider texts that are primarily marketed as children s books The interplay of text and image that distinguishes the picturebook from other forms of fiction and makes it a unique art form also makes it the ultimate crossover genre

Crossover picturebooks are often very complex texts that are challenging for adults as well as children. Many are characterized by difficult adult themes, genre blending, metafictional discourse, intertextuality, sophisticated graphics, and complex text-image interplay. Exciting experiments with new formats and techniques, as well as novel interactions with new media and technologies, have made the picturebook one of the most vibrant and innovative contemporary literary genres, one that seems to know no boundaries. Crossover Picturebooks is a valuable addition to the study of a genre that is gaining increasing recognition and appreciation and contributes significantly to the field of children's literature as a whole.

Literary Cultures and Twentieth-Century Childhoods Rachel Conrad, L. Brown Kennedy, 2020-09-12 This collection of essays offers innovative methodological and disciplinary approaches to the intersection of Anglophone literary cultures with children and childhoods across the twentieth century. In two acts of re-centering, the volume focuses both on the multiplicity of childhoods and literary cultures and on child agency. Looking at classic texts for young audiences and at less widely read and unpublished material across genres including poetry, fiction, historical fiction, or biography, picturebooks, and children's television, essays foreground the representation of child voices and subjectivities within texts, explore challenges to received notions of childhood, and emphasize the role of child-oriented texts in larger cultural and political projects. Chapters frame themes of spectacle, self, and specularities across the twentieth century, question tropes of childhood, explore identity and displacement in narrating history and culture, and elevate children as makers of literary culture. A major intent of the volume is to approach literary culture not just as produced by adults for consumption by children but also as co-created by young people through their actions as speakers, artists, readers, and writers.
