Old Man And The Bureaucrats:

International Eliade, The , Behind the Great Wall James Whitlark, 1991 This work explores what lies behind the fantastic barrier in a borderland that C G Jung called the unconscious the avant garde writer Kafka termed incomprehensible and Whitlark argues is an entire spectrum of muted awareness The Bureaucrats of Buenos Aires, 1769-1810 Susan Migden Socolow, 1987 In this work Susan Socolow examines bureaucrats in early modern society by concentrating on those of Buenos Aires under the Bourbon reforms in the late colonial bureaucracy Socolow studies the individuals who held positions in the colonial civil service their recruitment aspirations job tenure professional advancement and economic position The late eighteenth century was a critical time for the southernmost regions of Latin America for in this period they became a separate political entity the Viceroyalty of the Rio de la Plata Socolow's work part of a continuing study of the political economic and social elites of the emerging city of Buenos Aires here considers the bureaucracy put into place by the Bourbon reforms The author examines the professional and personal circumstances of all bureaucrats from the high ranking heads of agencies to the more lowly clerks contrasting their expectations and their actual experiences She pays particular attention to their recruitment promotion salary and retirement as well as their marriage and kinship relationships in the local society **The Old Man and the Bureaucrats** Mircea Eliade, 1988 Proposes the means by which the therapist can help validate stepfamilies as viable units creating integration of old loyalties and new ties Reprint of the 1979 ed published by Univ of Notre Dame Press Annotation copyrighted by Book News Inc Portland OR Mircea Eliade's Vision for a New Humanism David Cave, 1993-01-28 The influential scholar of religion Mircea Eliade envisioned a spiritually destitute modern culture coming into renewed meaning through the recovery of archetypal myths and symbols Eliade defined this restoration of meaning as a new humanism of existential meaning and cultural religious unity Through a biographical exegesis of Eliade's life and writings from his earliest years in Romania to his final ones as professor of the history of religions at the University of Chicago Cave sets forward a structural description of what this new humanism might have meant for Eliade and what it signifies for modern culture Cave concludes by endorsing Eliade's radically pluralistic vision which he argues offers a key to the revitalization of our demythologized and material culture This study repositions previous Eliadean studies and places the new humanism as the paradigm in relation to which future readings of Eliade should be evaluated *The Bureaucrat and the Poor* Vincent Dubois, 2016-03-16 Welfare offices usually attract negative descriptions of bureaucracy with their queues routines and impersonal nature Are they anonymous machines or the locus of neutral service relationships Showing how people experience state public administration *The Bureaucrat and the Poor* provides a realistic view of French welfare policies institutions and reforms and in doing so dispels both of these myths Combining Lipsky's street level bureaucracy theory with the sociology of Bourdieu and Goffman this research analyses face to face encounters and demonstrates the complex relationship between welfare agents torn between their institutional role and their personal feelings and welfare

applicants required to translate their personal experience into bureaucratic categories Placing these interactions within the broader context of social structures and class race and gender the author unveils both the social determinations of these interpersonal relationships and their social functions Increasing numbers of welfare applicants coupled with mass unemployment family transformations and the so called integration problem of migrants into French society deeply affect these encounters Staff manage tense situations with no additional resources some become personally involved while others stick to their bureaucratic role most of them alternate between involvement and detachment assistance and domination Welfare offices have become a place for re socialisation where people can talk about their personal problems and ask for advice On the other hand bureaucratic encounters are increasingly violent symbolically if not physically More than ever they are now a means of regulating the poor

The Crisis of the Old Order in Russia Roberta Thompson Manning, 2019-01-29

Focusing on the role of the landowning gentry in the First Russian Revolution of 1905 1907 Roberta Manning explores the complex relationship between this traditional social and political elite and the imperial Russian government in the period between the abolition of serfdom and the February Revolution of 1917 In contrast to the commonly accepted view that the 1905 Revolution significantly expanded the circle of people involved in government Professor Manning argues that the gentry became Russia's dominant political force after the 1907 coup d'etat Overwhelmed after Emancipation by economic crisis and a devastating erosion of their role in government service the gentry utilized the revitalized assemblies of the nobility and the newly founded zemstvos first to agitate for and then to dominate the representative institutions created by the 1905 Revolution Through a vast array of primary sources Professor Manning considers the acquisitions and consequences of the gentry's augmented political role and presents an updated account of the peasant rebellions of 1905 1907 and their impact on the gentry Included is a brilliant portrayal of P A Stolypin the period's most gifted gentry statesman and of the defeat accomplished with the aid of gentry pressure groups of his reform program the last comprehensive effort to restructure the political order of Imperial Russia Studies of this period of Russian history have generally focused on the dramatic confrontation between the Old Regime and its revolutionary adversaries Here Professor Manning illuminates the equally fateful conflicts within the Russian upper classes Roberta Thompson Manning is Associate Professor at Boston College Studies of the Russian Institute Columbia University Originally published in 1983 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
