Waste Management and Sustainable Consumption Karin M. Ekström, 2014-12-17 The accelerated pace of global consumption over the past decades has meant that governments across the world are now faced with significant challenges in dealing with the dramatically increased volume of waste While research on waste management has previously focused on finding technological solutions to the problem this book uniquely examines the social and cultural views of waste shedding new light on the topic by emphasising the consumer perspective throughout Drawing on a wide variety of disciplines including environmental economic social and cultural theories the book presents philosophical reflections practical examples and potential solutions

to the problem of increasing waste. It analyses and compares case studies from countries such as Sweden, Japan, the USA, India, Nigeria, and Qatar, bringing out valuable insights for the international community and generating a critical discussion on how we can move towards a more sustainable society. This book will be of great interest to post graduate students and researchers in environmental policy, waste management, social marketing, and consumer behaviour, as well as policymakers and practitioners in consumer issues and business.

Waste Management Policies and Practices in BRICS Nations explores recent developments in waste management. BRICS nations are the emerging economies of the world. Increasing populations, urbanization, industrialization, and uses of chemical fertilizer and pesticide in agriculture for enhanced productivity of food, especially in India and China, to support the large populations, harm the natural environment. The rise in the living standards of the human population has increased environmental pollution manifold, resulting in the huge generation of biodegradable and non-biodegradable waste simultaneously, which has contaminated natural resources such as soil, water, and air. It has led to undesirable effects on the environment and human health. The book offers comprehensive coverage of the most essential topics including waste management problems with special reference to MSW in Brazil, Russia, India, China, and South Africa. Solid waste management in BRICS nations, Hazardous waste management in BRICS nations, Policies and laws in BRICS nations. This book contains both policies and methods used for the management of waste in BRICS nations. The chapters incorporate both policies and practical aspects.
