Say It With Me Vanessa Lampert, 2022-04-24 Rooted in everyday communities the voice of Say It With Me is wry candid and knowing offering poems that playfully record the foibles of domestic life There are curious stories a parrot flies away but always returns to its master a school bully becomes their victim's acupuncture patient in adulthood and a donor finds new kinship with the woman who receives his cells All these stories are gems full of curious twists and turns Often the poems represent specific places and people sometimes nostalgically so like memories of family beach trips with loved ones now deceased Others are flights of fancy imagining a park of one's dreams an ode to the small pleasures of life or inventing a new history where a father didn't die young Most significant however are the poignant and remarkable stories of family life There are happy portraits as well as thoughtful poems concerning divorce and parenthood also the body in triumph and decline Though speakers take up a watchful distance from events they are also fierce and unafraid to intervene A middle aged woman on the beach wades into the sea to chastise some lads playing with an inflatable sex doll Say it with me a line taken from the poem Canada is a phrase that often precedes a rallying cry or a brave but controversial factual statement The tales in this collection feel true and honest and its title is a call to unite This is a collection about the communities in which we live and the interconnectedness of human beings The likeable speaker of these poems surveys it all with the dry humour and wisdom of an older woman posing scenarios that we can all recognize as

authentic Ultimately Vanessa Lampert uses deep and rich storytelling to lay bare truths that are at once funny moving and illuminating The poems in Vanessa Lampert s new collection are lodestars How lucky to be guided by them In this book nature is more than an encounter to wonder about it is a binding both to our home here on earth the daily joy and loss of that and to our own corporeal selves For anyone looking for the words to what it means to be human look no further they are here Matthew Dickman Vanessa Lampert has a rare talent for telling stories which although they come from a place deeply personal to her become universal in their rendering These are poems which welcome us in like old friends full of warmth and generosity and which have the sudden ability to switch gears and with them our emotions in just a few short lines or phrases Say It With Me is a remarkable first collection of poems a book infused with darkness and light beauty and sadness humour and ultimately hopefulness Brian Bilston In Say It with Me Lampert s observant and witty voice accompanies us through subtle turns in thought redirecting our attention with a glance a clearing of the throat so that we step from the scenery of life into the resonant emotional landscape of living Her poems open the aperture and expose us to the loss that time is always enacting upon us its cruelty and its beauty Jack Underwood Vanessa Lampert is a chronicler of minute but crucially significant moments she holds them to the light to find their gleam and then shows them to us as stunning jewels We enter one of her poems on the familiar ground of a summer beach or an ordinary municipal park and leave years later often having communed with those we ve lost What she accomplishes may seem simple but the seismic shifts of our lives are packed into her humming lines Her poems are like a fairground on the final night of the season we want to clasp onto their joy and celebration that bit longer Tamar Yoseloff The Atomic Human Neil D. Lawrence,2024-09-03 A renowned computer scientist seeks the unique human quality that will prevail against artificial intelligence The greatest fear of AI is not that it rules out digital lives but that it displaces human intelligence entirely If artificial intelligence takes over decision making what then is unique and irreplaceable about human intelligence The Atomic Human is a journey of discovery to the core of what it is to be human in search of the qualities that cannot be replaced by the machine Neil Lawrence brings a timely fresh perspective to this new emerging era recounting his personal journey to understand the riddle of intelligence By understanding the essential element of what makes us human the atomic human Lawrence shows how AI can enable us to choose the future we want Lawrence persuasively shows that we can only control AI and decide what is right for society by understanding our intelligence and contrasting it against the new intelligence we are creating an intelligence he describes as helpless without humans even if unchecked it has the power to do great damage By contrasting our own intelligence with the capabilities of machine intelligence through history The Atomic Human reveals the technical origins capabilities and limitations of AI systems and how they should be wielded Not just by the experts but ordinary people Juggernaut Eric Robert Morse,2010-12-14 The author explains why the modern system has become so unwieldy and explains what must be done to correct it He takes readers on an epic journey from the dawn of Free market Capitalism during the Age of

Exploration through the Industrial Revolution and Adam Smith to the rise of Keynesianism and the dominance of the Welfare State from back cover **Blood of a Paper Doll** Carla Vendries, 2003-01-22 Through this account of one girl's battle with depression and euphoria she learns the key to not allowing the self to be wrapped up by the machine is to crush certain ideologies and conventions that say behavior needs to be labeled Self indulgence creates an emotional life perpetually spent inside an isolated dark wave but in this book she ultimately learns slowly but gradually that every thing that nourishes you also destroys you These disturbingly pretty poems are about undergoing an emotional state of metamorphosis and the acceptance of them Through a psyche fragmented by circumstances beyond control traveling on an edgeless encompassing path eventually leads to a beautiful spiritual catharsis The extremities of life succumb to a deep exploration of sex love separation and death Surrendering to intimacy and relationships serves as the band aid to the wound that could not yield from bleeding It is human nature for self destruction to take hold of the world nevertheless with it also follows the beginning of an age of paradisiacal happiness beyond belief By crushing the machine causing unnecessary poignancy in the heart It is how renouncing certain dangers in reality she transcends from one state to a more mysterious one In the end strength and courage are given birth to and it endures inside a woman who still feels her warm blood flowing through what appeared seemingly as a tailored cut out of a non resonant paper doll inside an anechoic mental chamber Orotund tones in grandiloquent rise espouse the stygian collapse of the bloody paper doll The obstacle staircase of liberal poems mirrors society outside the walls **Garbage and Recycling** Candice L.
