powerful and controversial organization and using this context to both criticize and commend The culmination of a three decade long study this unique volume presents an unusually thorough and much needed holistic view of the NEA **Black Lung** Alan Derickson,2014-04-11 In the definitive history of a twentieth century public health disaster Alan Derickson recounts how for decades after methods of prevention were known hundreds of thousands of American miners suffered and died from black lung a respiratory illness caused by the inhalation of coal mine dust The combined failure of government medicine and industry to halt the spread of this disease and even to acknowledge its existence resulted in a national tragedy the effects of which are still being felt The book begins in the late nineteenth century when the disorders brought on by exposure to coal mine dust were first identified as components of a debilitating and distinctive illness For several decades thereafter coal miners dust disease was accepted in both lay and professional circles as a major industrial disease Derickson describes how after the turn of the century medical professionals and industry representatives worked to discredit and supplant knowledge about black lung with such success that this disease ceased to be recognized Many authorities maintained that breathing coal mine dust was actually beneficial to health Derickson shows that activists ultimately forced society to overcome its complacency about this deadly and preventable disease He chronicles the growth of an unprecedented movement from the turn of the century miners union to the social medicine activists in the mid twentieth century and the black lung insurgents of the late sixties which eventually won landmark protections and compensation with the enactment of the Federal Coal Mine Health and Safety Act in 1969 An extraordinary work of scholarship **Black Lung** exposes the enormous human cost of producing the energy source responsible for making the United States the world s preeminent industrial nation **Illustrated Catalogue of the Slide Archive of Historical Medical Photographs at Stony Brook** Center for Photographic Images of Medicine and Health Care (U.S.),1984 **Pennsylvania Historical Bibliography** ,1982 Complements and updates the Bibliography of Pennsylvania history issued and by Pennsylvania Historical and Museum Commission *Pennsylvania Heritage* ,1982 *Isis Cumulative Bibliography 1976-1985: Persons and institutions* History of Science Society,1990 **Bulletin of the History of Medicine** ,1985 Vols for 1939 include the Transactions of the 15th annual meetings of the American Association of the History of Medicine 1939 **Subject Catalog, 1982** Library of Congress,1982 **Where Humans and Spirits Meet** Kjersti Larsen,2008 Zanzibar an island off the East African coast with its Muslim and Swahili population offers rich material for this study of identity religion and multiculturalism This book focuses on the phenomenon of spirit possession in Zanzibar Town and the relationships created between humans and spirits it provides a way to apprehend how society is constituted and conceived and thus discusses Zanzibari understandings of what it means to be human *Religious Plurality in Africa* Marloes Janson,Kai Kresse,Benedikt Pontzen,Hassan Mwakimako,2024 Grounded in ethnographic and historiographic research and taking a cross regional approach this book explores the complex dynamics of similarity and difference rapprochement and detachment and

divergence and competition between practitioners of Christianity Islam and African religious traditions Across Africa Muslims Christians and practitioners of African religious traditions live in shared settings demarcating themselves in opposition to one another and at times engaging in violent conflicts but also being entangled in complex ways and showing unexpected similarities and mutual cross overs However while encounters and entanglements of African religious traditions with either Islam or Christianity have long been a central research issue the configuration as a whole has barely been taken into account even though Muslims Christians and practitioners of African religious traditions have long co existed and still co exist more or less peacefully in many settings in Africa Building on recent interventions to move beyond the compartmentalization of the study of religion in Africa this edited volume will spotlight why and how an integrated approach to Islam Christianity and African religious traditions is important Bringing together stimulating case studies from Kenya Nigeria Zanzibar Ghana and Mozambique that offer new directions for ethnographic and historical research the volume will not only shed light on an important phenomenon out there in the world the long overlooked ways in which Muslims Christians and practitioners of African religious traditions interact with one another in various majority minority configurations but will also engage with a critical rethinking of the study of religion in Africa and beyond

Spirit Possession, Modernity & Power in Africa Heike Behrend, 1999 In Africa as well as in Europe many spirits and their mediums are part of local as well as global cultures Christian spirits named Hitler Mussolini or King Bruce Bruce Lee flourish in a pantheon of new holy spirits in Uganda waging war against the government Spirits of airplanes engines guitars and angels are found in Central Africa and thunder snakes and rain as well as playboys and prostitutes inhabit the spirit world in West Africa Spirit possession cults have continued to proliferate even in the secular West and continue to be a subject of intense interest Despite the continuous expansion of the field some problems are only now beginning to be explored The experts in this volume focus on questions of power the history and inner dynamics of cults the role of gender and images of the other based on research conducted during the last fifteen years in Africa The contributors document changes taking place across the continent as possession beliefs and practices respond to new circumstances and address the shifting local implications of an increasingly global socio economy Gender ethnicity and class are examined as intersecting forces and features of spirit phenomena The case studies presented are richly contextualized history social organization and upheaval alternative religious options all are considered relevant to an understanding of possession forms Contributors Leslie Sharp Heike Behrend Adeline Masquelier Mathias Krings Jean Paul Colleyn Alexandra O de Sousa Susan Kenyon Tobias Wendl Ute Luig and Linda Giles Co published with James Currey Publishers U K The Wisconsin edition is not for sale in the United Kingdom the traditional British Commonwealth excepting Canada nor in Europe

Gender and Story in South India Leela Prasad, Ruth B. Bottigheimer, Lalita Handoo, 2006-09-14 Gender and Story in South India presents exciting ethnographic research by Indian women scholars on Hindu and Muslim women centered oral narratives The book is unique for its

geographic and linguistic focus on South India for its inclusion of urban and rural locales of narration and for its exploration of shared Hindu and Muslim female space Drawing on the worldviews of South Indian female narrators in both everyday and performative settings the contributors lead readers away from customary and comfortable assumptions about gender distinctions in India to experience a more dialogical poetically ordered moral universe that is sensitive to women s material and spiritual lives Book jacket      **National Union Catalog** ,1982 Includes entries for maps and atlases
