Tankoon Carol Cook,2012-12-11 Book One of Caitlyns Dragon Tankoon finds the land in trouble All of the stories are mixed up Trees grow apples on one side and bananas on the other Rain falls in cubes instead of drops The atmospheric continuum which controls the weather and the optimal controller which controls all the stories in Tankoon are becoming unstable The Fernal Equalizer is splitting If it continues to split Tankoon and possibly our land will cease to exist The only thing that can fix these controlling devices is a key that will fit into the Fernal Equalizer and bring everything back to normal This key is held by a dragon Only a really real princess can control the dragon to obtain the key However he will only give up the key if he wants to If he doesn't he will destroy whoever tries to obtain it Caitlyn is a really real princess but does she have what it takes to overcome all of the dangers to reach the mountains of Astra Arum triumph over those trying to keep her from the dragon and face the dragon to obtain the key Follow Caitlyn and her friends in Book One of Caitlyns Dragon *Sailing on the Great Lakes and Rivers of America ... Into Africa, Out of Academia Kwan Kew Lai, 2020-10-22. In 2006, Kwan Kew Lai left her full-time position as a professor in the United States to provide medical humanitarian aid to the remote villages and the war-torn areas of Africa. This memoir follows her experiences from 2006 to 2013 as she provided care during the HIV/AIDS epidemics after natural disasters and as a relief doctor in refugee camps in Kenya, Libya, Uganda, and in South Sudan, where civil war virtually wiped out all existing healthcare facilities. Throughout her memoir, Lai recounts intimate encounters with refugees and internally displaced people in camps and in hospitals with limited resources, telling tales of their resilience, unflinching courage, and survival through extreme hardship. Her writing provides insight into communities and transports readers to heart-achingly beautiful parts of Africa not frequented by the usual travelers. This is a deeply personal account of the huge disparities in the healthcare system of our global village and is a call to action for readers to understand the interconnectedness of the modern world, the needs of less developed neighbors, and the shortcomings of their healthcare systems.
