Gorton,2012-12-27 An explanation and history of financial crises The Ephemeral Civilization Graeme Snooks,2002-09-11
The Ephemeral Civilization is an astonishing intellectual feat in which Graeme Snooks develops an original and ground breaking analysis of changing sociopolitical forms over the past 3 000 years Snooks challenges the prevailing theories of social evolutionism with an innovative approach which also looks ahead to the twenty first century The Ephemeral Civilization builds on the model of dynamic strategy outlined in the author s highly acclaimed companion volume The Dynamic Society The Ephemeral Society is divided into three parts theory history and future **ITF Round Tables The Wider Economic Benefits of Transport Macro-, Meso- and Micro-Economic Transport Planning and Investment Tools** International Transport Forum,2008-07-08 This Round Table challenges the standard cost benefit analysis of transport infrastructure investment projects on the grounds that it ignores wider economic impacts of such projects **Dove Va la Storia Economica?** Francesco Ammannati,2011 **Bulletin** National Railway Historical Society,1964 **As Time Goes by** Christopher Freeman,Francisco Louçã,2001 This is a well informed highly topical and persuasive study of interest across all the social sciences BOOK JACKET A Most Magnificent Machine Craig Miner,2010-10-14 Just as the railroad transformed America s economic landscape it profoundly transfigured its citizens as well But while there have been many histories of railroads few have examined the subject as a social and cultural phenomenon Informed especially by rich research in the nation s newspaper archives Craig Miner now traces the growth of railroads from their origins in the 1820s to the onset of the Civil War In this first social history of the early railroads Miner reveals how ordinary Americans experienced this innovation at the grass roots from boosters dreams of get rich schemes to naysayers fears of soulless corporations Drawing on an amazing 400 000 articles from 185 newspapers plus more than 3 000 books and pamphlets from the era he documents the initial burst of enthusiasm accompanying early railroading as it took shape in various settings across the country Miner examines the cultural economic and political aspects of this broad and complicated topic while remaining rooted in the local interests of communities He takes readers back to the days of the Mauch Chunk Railway a tourist sensation of the mid 1820s navigates the mixed reactions to trains as Baltimore s city fathers envisioned tracks to the Ohio River shows how Pennsylvanians wrestled with the efficacy of railroads versus canals and describes the intense rivalry of cities competing for trade as old transportation patterns were replaced by the new rail technology Miner samples individual railroads to compare progress across the industry showing how it became a quintessentially American business and how the Panic of 1837 significantly slowed the railways as a major engine of growth for many years He also explores the impact of railroads on different regions even disproving the backwardness of the South by citing the Central of Georgia as one of the best managed and most profitable lines in the country Through this panoramic work readers will discover just how the benefits of what became the country s first big business triumphed over cultural concerns though not without considerable controversy along the way By identifying citizens hopes and fears sparked by the railroads A Most Magnificent Machine takes

readers down the tracks of progress as it opens a new window on antebellum America *The New Institutional Economic History of Douglass C. North* Matthijs Krul, 2018-08-28 This book offers a comprehensive assessment of Douglass North's contribution to economics and the social sciences by examining the origins and structure of his New Institutional Economic History (NIEH). Informed by contemporary debates in the philosophy of economics, Krul describes the evolution of North's theory from mainstream economics to an increasingly heterodox form of New Institutionalism. He also examines what North's original aims were in developing the NIEH research programme and how well it has achieved these aims. By exploring major themes in North's NIEH with an emphasis on the final stage of his theory, Krul sheds new light on the strengths and weaknesses of North's work. He also discusses the implications of this critical interpretation for the New Institutionalism in economics and other fields of social science.
