Sabapathy,Patrick Flores,2023-05-12 Who spoke of the modern in Southeast Asia When and where was the modern written How was it written How was it received This collection brings together nearly 300 texts that were originally published between the late 19th to late 20th centuries selected by a group of scholars as responses to questions such as these The texts were produced chiefly in various locations in the region by artists critics historians and curators in 11 languages many of which had never before been translated into the English language Years in the making this publication is the first to present such breadth and depth of art writing in the region of Southeast Asia and will be a valuable resource to students teachers scholars and those interested in Southeast Asian studies and art history Looking from inside the region the rich fecundity of art discourses becomes clear if for example we compare the 1843 text by Raden Saleh from what is now Indonesia with the 1946 text of S Sudjojono allowing a historical grasp of modernity from two of its original texts or across the region to the 1971 text on Malaysia by Piyadasa The tyranny of physical cultural and temporal separation are thus overcome It is to the great credit of the editors that they have enabled this for us and this work will be a basic art historical reference both inside and beyond the region for some time to come John Clark Emeritus Professor of Art History University of Sydney Needed now more than ever this collection opens up new worlds in the guise of a region called Southeast Asia Each carefully selected text offers a new point of access to thinking through across beyond and with the elusive idea of the modern A signal achievement this volume is both a rich introduction

through the mid nineteenth century describe the American colonization that followed and include examples of Latino resistance that span the twentieth century from early workers strikes to the United Farm Workers movement of the 1960s. Later chapters trace the Chicana o Movement in the community and in the arts the struggle against the gentrification of the barrio and the growth of community organizing especially around immigrants rights from the perspective of a community organizer. To tell this sweeping story the contributors use a variety of approaches. Testimonios retell individual lives ethnographies relate the stories of communities and historical narratives uncover what has previously been ignored or discounted. The result is a unique portrait of a marginalized population that has played an important but neglected role in the development of a major American border city.
