Rainbows Of Life The Promise Of Kirlian Photography:

Rainbows of Life Mikol Davis, Earle Lane, 1978 **Picturing Aura** Jeremy Stolow, 2025-04-01 The remarkable history of efforts to visualize the human aura and the lives of its pictures in religion science art and culture Picturing Aura is the first book of its kind an extended historical anthropological and philosophical study of modern efforts to visualize the hidden radiant force encompassing the living body known as our aura This rich interdisciplinary study by Jeremy Stolow chronicles the rise and global spread of modern instruments and techniques of picturing aura from the late nineteenth century to the present day exploring how its images are put to work in the diverse realms of psychical research esotericism art photography popular culture and the New Age alternative medical and spiritual marketplace At their core pictures of auras are boundary objects that operate simultaneously in multiple conceptual and practical realms serving varying goals of making art healing bodies and exploring the cosmos Drawing on extensive archival as well as field research Stolow reconstructs a global history of this boundary crossing enterprise through its evolving media technologies markets and cultural arenas It is a story shaped through exchanges among professionals and amateurs scientists and occultists countercultural artists and entrepreneurs metropolitans and hinterland figures With more than 60 full color illustrations Picturing Aura brings to light a remarkable entangled history of picture making that challenges settled assumptions about religion art and science Eastern Body, Western Mind Anodea Judith, 2011-03-16 A revised edition of the groundbreaking New Age book that seamlessly merges Western psychology and science with spirituality creating a compelling interpretation of the Eastern chakra system and its relevance for Westerners today A useful tool for contemplating our strengths weaknesses and appropriate approaches to growth Yoga Journal In Eastern Body Western Mind chakra authority Anodea Judith brought a fresh approach to the yoga based Eastern chakra system adapting it to the Western framework of Jungian psychology somatic therapy childhood developmental theory and metaphysics and applying the chakra system to important modern social realities and issues such as addiction codependence family dynamics sexuality and personal empowerment Arranged schematically the book uses the inherent structure of the chakra system as a map upon which to chart our Western understanding of individual development Each chapter focuses on a single chakra starting with a description of its characteristics and then exploring its particular childhood developmental patterns traumas and abuses and how to heal and maintain balance Biophilosophy Rolf Sattler, 2012-12-06 This book is an introduction to biophilosophy written primarily for the student of biology the practicing biologist and the educated layperson It does not presuppose technical knowledge in biology or philosophy However it requires a willingness to examine the most basic foundations of biology which are so often taken for granted Furthermore it points to the bottomlessness of these foundations the mystery of life the Unnamable I have tried to further the awareness that biological statements are based on philosophical assumptions which are present in our minds even before we enter the laboratory These assumptions which often harbor strong commitments are exposed throughout the book I have tried to show

how they influence concrete biological research as well as our personal existence and society Thus emphasis is placed on the connection between biophilosophy and biological research on the one hand and biophilosophy and the human condition on the other
