Sounding the Color Line Erich Nunn, 2015 *Sounding the Color Line* explores how competing understandings of the U S South in the first decades of the twentieth century have led us to experience musical forms sounds and genres in racialized contexts Yet though we may speak of white or black music rock or rap sounds constantly leak through such barriers A critical disjuncture exists then between actual interracial musical and cultural forms on the one hand and racialized structures of feeling on the other This is nowhere more apparent than in the South Like Jim Crow segregation the separation of musical forms along racial lines has required enormous energy to maintain How asks Nunn did the protocols structuring listeners racial associations arise How have they evolved and been maintained in the face of repeated transgressions of the musical color line Considering the South as the imagined ground where conflicts of racial and national identities are staged this book looks at developing ideas concerning folk song and racial and cultural nationalism alongside the competing and sometimes contradictory workings of an emerging culture industry Drawing on a diverse archive of musical recordings critical artifacts

and literary texts Nunn reveals how the musical color line has not only been established and maintained but also repeatedly crossed fractured and reformed This push and pull between segregationist cultural logics and music's disrespect of racially defined boundaries is an animating force in twentieth century American popular culture

Outrageous Fortune Joe Cleary, 2007 Did Ireland produce a more radical and ambitious literature in the straitened circumstances of the first half of the twentieth century than it has managed to do since it began to modernize and become more affluent from the 1960s onwards Has Irish modernism ceded place to a prevailing naturalism that seems gritty and tough minded but that is aesthetically conservative and politically self thwarted Does the fixation with de Valera's Ireland in recent narrative represent a necessary settling of accounts with a dark abusive history or is it indicative of a worrying inability on the part of Irish artists and intellectuals to respond to the very different predicaments of the post Cold War world These are some of the questions addressed in *Outrageous Fortune* Scanning literature theatre film and music Joe Cleary probes the connections between capital culture and criticism in modern Ireland He includes readings of James Joyce and the Irish modernists the naturalists Patrick Kavanagh John McGahern and Edna O'Brien and comments too on what he terms the neo naturalism of Marina Carr Patrick McCabe and Martin McDonagh He concludes with a provocative analysis of the cultural achievement of the Pogues
