Henriksen,1997 Did Dr Strangelove s America really learn to stop worrying and love the bomb as the title of Stanley Kubrick s 1964 film would have us believe What has that darkly satirical comedy in common with the impassioned rhetoric of Martin Luther King s I Have a Dream speech or with the beat of Elvis Presley s throbbing I m All Shook Up They all in Margot Henriksen s vivid depiction of the decades after World War II are expressions of a cultural revolution directly related to the atomic bomb Revolution and the Word : The Rise of the Novel in America Cathy N. Davidson Professor of English Duke

University,1987-02-19 Revolution and the Word offers a unique perspective on the origins of American fiction looking not only at the early novels themselves but at the people who produced them sold them and read them It shows how in the aftermath of the American Revolution the novel found a special place among the least privileged citizens of the new republic As Cathy N Davidson explains early American novels most of them now long forgotten were a primary means by which those who bought and read them especially women and the lower classes moved into the higher levels of literacy required by a democracy This very fact Davidson shows also made these people less amenable to the control of the gentry who naturally enough derided fiction as a potentially subversive genre Combining rigorous historical methods with the newest insights of literacy theory Davidson brilliantly reconstructs the complex interplay of politics ideology economics and other social forces that governed the way novels were written published distributed and understood Davidson also shows in almost tactile detail how many Americans lived during the Constitutional era She depicts the life of the traveling book peddler the harsh lot of the printer the shortcomings of early American schools the ambiguous politics of novelists like Brackenridge and Tyler and the lost lives of ordinary women like Tabitha Tenney and Patty Rogers Drawing on a vast body of material the novels themselves as well as reviews inscriptions in cherished books letters and diaries and many other records Davidson presents the genesis of American literature in its fullest possible context **Nonthermal Food Processing, Safety, and Preservation** Anand
