Safety Net Programs And Poverty Reduction Lessons From Cross Country Experience:

Safety Net Programs and Poverty Reduction K. Subbarao,1997 The need for social safety nets has become a key component of poverty reduction strategies Over the past three decades several developing countries have launched a variety of programs including cash transfers subsidies in kind public works and income generation programs However there is little guidance on appropriate program design and few studies have synthesized the lessons from widely differing country experiences This report fills that gap It reviews the conceptual issues in the choice of programs synthesizes cross country experience and analyzes how country and region specific constraints can explain why different approaches are successful in different countries

Public Works as a Safety Net Kalanidhi Subbarao,Carlo del Ninno,Colin Andrews,Claudia Rodríguez-Alas,2012-12-11 A review of the conceptual underpinnings and operational elements of public works programs around the world drawing from a rich evidence base and analyzing previously unassimilated data to fill a gap in knowledge related to public works programs now so popular

Public Finance for Poverty Reduction Quentin Wodon,Blanca Moreno-Dodson,2007-11-06 This book presents some basic theoretical concepts of public finance with a particular emphasis on its impact poverty reduction Eight case studies from Latin America and Africa illustrate how these concepts are applied in practice and the implementation issues that emerge

Poverty Reduction in the 1990s Alison Evans,2000-01-01 The World Development Report 1990 Poverty provided the foundation for the World Bank strategy to help achieve global poverty reduction This report is a contribution to the strategy review process It examines the implementation of the 1990 strategy maps changes against assessment of Bank performance at both the country and the project level and assesses the relevance of key elements of the 1990 strategy in light of new data and shifts in the development assistance environment The report concludes that the 1990 strategy remains relevant but needs to be combined with a more comprehensive approach Lessons from experience confirm the importance of a holistic approach to reach the poor more effectively This includes a focus on local level institutions and building on existing institutional frameworks wherever possible and on working across sectors for maximum impact The 1990 strategy and the operational guidelines based on it have failed to generate a clear emphasis on measuring and monitoring results A critical test of the Bank s evolving poverty strategy will be the design of a credible framework for measuring the results of the Bank s country assistance and helping to build local capacity for monitoring the impact of poverty reduction programmes The report is in English with the foreword and the executive summary given in English Spanish and French

Conditional Cash Transfers Ariel Fiszbein,Norbert R. Schady,2009-02-09 Conditional Cash Transfer CCT programs aim to reduce poverty by

making welfare programs conditional upon the receivers actions That is the government only transfers the money to persons who meet certain criteria These criteria may include enrolling children into public schools getting regular check ups at the doctor s office receiving vaccinations or the like They have been hailed as a way of reducing inequality and helping households break out of a vicious cycle whereby poverty is transmitted from one generation to another Do these and other claims make sense Are they supported by the available empirical evidence This volume seeks to answer these and other related questions Specifically it lays out a conceptual framework for thinking about the economic rationale for CCTs it reviews the very rich evidence that has accumulated on CCTs it discusses how the conceptual framework and the evidence on impacts should inform the design of CCT programs in practice and it discusses how CCTs fit in the context of broader social policies The authors show that there is considerable evidence that CCTs have improved the lives of poor people and argue that conditional cash transfers have been an effective way of redistributing income to the poor They also recognize that even the best designed and managed CCT cannot fulfill all of the needs of a comprehensive social protection system They therefore need to be complemented with other interventions such as workfare or employment programs and social pensions

Social Policy in a Development Context T. Mkandawire, 2004-11-10 Drawing upon both conceptual and empirical evidence this volume argues the case for the centrality of social policy in development focusing particularly on the message that social policy needs to be closely intertwined with economic policy It is argued that social policy can provide the crucial link between economic development poverty eradication and equity This volume is a significant contribution to thinking about social policy in a development context

Transforming the Rural Nonfarm Economy Steven Haggblade, Peter B. R. Hazell, Thomas Reardon, 2007-11-16 Contrary to conventional wisdom that equates rural economies with agriculture rural residents in developing countries often rely heavily on activities other than farming for their income Indeed nonfarm work accounts for between one third and one half of rural incomes in the developing world In recent years accelerating globalization increasing competition from large businesses expanding urban markets for rural goods and services and greater availability of information and communication technology have combined to expose rural nonfarm businesses to new opportunities as well as new risks By examining these rapid changes in the rural nonfarm economy international experts explore how the rural nonfarm economy can contribute to overall economic growth in developing countries and how the poor can participate in this rapidly evolving segment of the economy The authors review an array of

recent studies of the rural nonfarm economy in order to summarize existing empirical evidence explore policy implications and identify future research priorities They examine the varied scale structure and composition of the rural nonfarm economy as well as its relationship with agricultural and urban enterprises And they address key questions about the role of public intervention in the rural nonfarm economy and how the rural poor can participate in and navigate the rapid transition underway in rural areas The contributors offer new insights to specialists in rural development and to others interested in overall economic development

Inclusive States Anis A. Dani, Arjan de Haan, 2008-04-29 The heterogeneity of social structures and cultural identities in many developing countries together with traditional hierarchies rivalries and deep seated biases has perpetuated inequities Inclusive States Social Policy and Structural Inequalities examines the role of the state and society in addressing structural inequalities and identifies a set of policy recommendations to redress them This book defines structural inequality as a condition arising from unequal status attributed to a category of people in relation to others a relationship perpetuated and reinforced by unequal relations in roles functions decision rights and opportunities Inclusive states are those that direct policies to address the needs of all that respect the rights of citizens to exercise voice and influence on which services are provided and how they are delivered and that have an interest in strengthening the social contract with their citizens A central focus of policy remains a concern for equity both to level the playing field to encourage social mobility and to ensure equity in the distributional effects of policy reforms and development interventions This book highlights two key challenges for social policy First policy design needs to take into account the weaknesses of basic state functions in many developing countries since these have important ramifications for social policy outcomes Second in most developing countries social structures marked by historically rooted structural inequalities pose significant challenges to the provision of services and require a long term commitment to address underlying questions and problems This book describes some of the challenges found in different contexts and some of the ways in which these challenges can be and are being addressed This book is part of a new series New Frontiers in Social Policy which examines issues and approaches to extend the boundaries of social policy beyond conventional social services toward policies and institutions that improve equality of opportunity and social justice in developing countries Other forthcoming titles in the series include Assets Livelihoods and Social Policy and Institutional Pathways to Equity Addressing Inequality Traps

Poverty and Policy in Latin America and the Caribbean Quentin Wodon, Robert L. Ayres, 2000 Although the progress toward poverty reduction remains sluggish other dimensions of social welfare in the Latin American and Caribbean LAC region show signs of improvement Adult literacy and school

enrollment rates life expectancy at birth and the amount of access to safe water are increasing Nutrition indicators are also improving However other factors demonstrate that many problems persist especially the inequality between rich and poor This report analyzes the evolution of poverty and inequality in the LAC region from 1986 to 1996 with projections to 1998 It reviews the policies which have been advocated or implemented to reduce poverty The report combines the results of new empirical work using household surveys from 12 countries short theoretical developments and a review of the literature on issues related to poverty inequality and social policy in LAC Some of the theoretical developments introduce new research techniques Chapters three to six follow the framework proposed in the forthcoming World Development Report 2000 2001 The framework identifies three essential elements for poverty reduction Those elements include opportunities for the poor and investments in the human capital of the poor security through social safety nets and empowerment
