Pets' Playground Amanda Chin, 2009. Pets play an important role in child development. They promote the advancement of a range of social attributes in children including companionship, nurturing, love, affection, responsibility and respect. However, this human-animal bond can quickly dissolve if simple safety is not practiced. Current trends show that dog bites are on the rise, especially in children. This engaging and educational activity book is intended for young children between four and nine years of age. It is intended to provide the necessary skills and knowledge to help promote safety for both children and their pets. Topics with supporting activities include what pet behavior shows about the pet's feelings, safe pet toys and meals, plus unsafe toys and unhealthy foods, pet care and responsibility, vet visits and more. Because of its comprehensive nature, it could easily be used in the classroom setting as well by parents and in vet offices. There are fifteen diverse activities, one or two at the end of each chapter, can be copied for multiple use or each child can have their own book. It is also fully illustrated with colorful, engaging characters and art.

Companion Animals and Domestic Violence Nik Taylor, Heather Fraser, 2019-02-03. In this

book Nik Taylor and Heather Fraser consider how we might better understand human animal companionship in the context of domestic violence The authors advocate an intersectional feminist understanding drawing on a variety of data from numerous projects they have conducted with people about their companion animals and links between domestic violence and animal abuse arguing for a new understanding that enables animals to be constituted as victims of domestic violence in their own right The chapters analyse the mutual loving connections that can be formed across species and in households where there is domestic violence Companion Animals and Domestic Violence also speaks to the potentially soothing healing and recovery oriented aspects of human companion animal relationships before during and after the violence and will be of interest to various academic disciplines including social work anthropology sociology philosophy geography as well as to professionals working in domestic violence or animal welfare service provision
