## **Saga Of America:**

**Saga America** Barry Fell, 1980 Dr Barry Fell and Emeritus Professor at Harvard documents trans Atlantic Old World incursions with much fresh evidence of Libyan Carthaginian Celtic Greek Roman and Viking presences on the east Coast But even more extraordinary is his documentation of pre Columbian Europeans and North Africans in the far West Graeco Libyans Dr Fell demonstrates used their sophisticated navigational skills to cross the Indian and Pacific Oceans to reach and settle in California and Nevada from the third century B C Their inscriptions in the form of petroglyphs have been carefully recorded in the past by scholars but until Dr Fell translated them their significance was a matter of mystified conjecture and they were ascribed vaguely to some lost Indian culture Dr Fell describes how Thomas Jefferson had suspected a relationship between some American Indian and North African languages In Jefferson s spirit Fell pursued his researches in North Africa and found astounding confirmation of his discoveries both in complementary documentation and in the enthusiastic recognition by North African scholars

Dust jacket **Saga America** Barry Fell, 1983 Maintains that complex advanced societies flourished here before the arrival of Christopher Columbus and uses coins artwork and other artifacts found across America to support these theories

**The Viking Discovery of America** Helge Ingstad, Anne Stine Ingstad, 2000 Faced with harsh conditions in their Greenland home a group of Vikings took the reins of fate into their own hands With incredible luck skill and fortitude they discovered lands filled with a profusion of wood wild game and fertile land In the sagas that grew from this discovery the lands were given names that resonated with hope and promise Almost 1000 years later a husband and wife team united their talents Intrigued by allusions in the ancient sagas to fabled Vinland they considered the scholarship on Viking culture and technology they studied maps and they researched intensively the prominent theories on Vinland s location And finally their efforts bore fruit when a remote Newfoundland peninsula yielded up a soapstone spindle whorl a Viking ring pin and what had to be the overgrown remnants of over a dozen Viking buildings

**The Discoveries of the Norsemen in America** Joseph Fischer, 1903 *Viking America* Geraldine Barnes, 2001 Viking America examined through the writing and rewriting of the Vinland story from the middle ages to the twentieth century The accounts in the Vinland sagas of the great voyages to the northeast coast of America in the early years of the eleventh century have often been obscured by detailed argument over the physical identity of the West Atlantic land which its Scandinavian discoverers named Vinland Geraldine Barnes leaves archaeological evidence aside and returns to the Old Norse narratives Groenlendinga saga Saga of Greenlanders and Eiriks saga rauda Saga of Eric the Red in her study of the writing and rewriting of the Vinland story from the middle ages to the late twentieth century She sets the sagas in the context of Iceland s transition from paganism to Christianity later chapters explore the Vinland story in relation to issues of regional pride and national myths of foundation in nineteenth and early twentieth century America to the ethos of popular imperialism during the same period in English literature and in the late twentieth century to postcolonial concerns

World and the visitors from both East and West who traveled to the Americas long before 1492 Provides more than 300  
photographs and drawings including Celtic runes in New England Gaelic inscriptions in Colorado and Asian symbols in the  
West Reinterprets many archaeological finds such as the Ohio Serpent Mound Reveals Celtic Hebrew Roman early Christian  
Templar Egyptian Chinese and Japanese influences in North American artifacts and ruins As the myth of Columbus  
discovering America falls from the pedestal of established history we are given the opportunity to discover the real story of  
the New World and the visitors from both East and West who traveled there long before 1492 Sharing his more than 25 years  
of research and travel to sites throughout North America Carl Lehrburger employs epigraphy archaeology and  
archaeoastronomy to reveal extensive evidence for pre Columbian explorers in ancient America He provides more than 300  
photographs and drawings of sites relics and rock art including Celtic and Norse runes in New England Phoenician and  
Hebrew inscriptions in the Midwest and ancient Shiva linga and Egyptian hieroglyphs in the West He uncovers the real story  
of Columbus and his motives for coming to the Americas He reinterprets many well known archaeological and astronomical  
finds such as the Ohio Serpent Mound America s Stonehenge in New Hampshire and the Crespi Collection in Ecuador He  
reveals Celtic Hebrew Roman early Christian Templar Egyptian Chinese and Japanese influences in famous stones and ruins  
reconstructing the record of what really happened on the American continents prior to Columbus He also looks at Hindu  
influences in Mesoamerica and sacred sexuality encoded in archaeological sites Expanding upon the work of well known  
diffusionists such as Barry Fell and Gunnar Thompson the author documents the travels and settlements of trans Atlantic and  
trans Pacific explorers miners and settlers who made it to the Americas and left their marks for us to discover Interpreting  
their sacred symbols he shows how their teachings prayers and cosmologies reveal the cosmic order and sacred landscape of  
the Americas      **The Muslim Discovery of America** Frederick William Dame,2013 Some so called authorities claim that  
Muslims came to America hundreds of years before Columbus arrived in the New World Are the claims true Columbus  
expedition represents the first major discovery of the Americas and the first appearance of non Native Americans The  
conventional wisdom is that Columbus ended tens of thousands of years of near total isolation for the Native Americans Since  
the Americas had been initially populated probably between 13 000 BC and 11 000 BC there had been no engagement with  
peoples from any other continent save small ventures by the Norse into Northeastern Canada Did Muslims come to the  
Americas possibly as early as the 700s These researchers argue that Muslims came from Islamic Spain particularly the port  
of Delba Pelos during the rule of Caliph Abdullah Ibn Mohammed 888 912 A Muslim historian Abul Hassan Al Masudi c 895  
957 added a map of the world to his book one that contained a large area in the ocean of darkness and fog the Atlantic ocean

which he referred to as the unknown territory the Americas This book demonstrates that this assertion is important for Muslims because in conjunction with the relevant verses from the Koran and quotes from Mohammed it establishes the claim of Muslims that Allah intended America to be Islamic The book also investigates the lives of selected Muslims in America and organizations from the eighteenth century into the twenty first century It reveals that there was nothing more than a continuation of typical Islamic deception and subversive jihad It also documents the lie of the Islamic claim that hundreds of place names in the United States of America and Canada derive from Arabic Islamic roots Finally the book exposes the rewriting of American history by Islamic and pro Islamic media This book is alarming informative interesting and true
