Wright,1993-07 Charles Wright identifies the characteristic features of Irish Christian literature which influenced Anglo Saxon vernacular authors As a full length study of Irish influence on Old English religious literature the book will appeal to scholars in Old English literature Anglo Saxon studies and Old and Middle Irish literature Holy Wells of Ireland Celeste Ray,Finbar McCormick,2023-09-19 The storied landscapes of Ireland are dotted with holy wells hallowed springs pools ponds and lakes credited with curative powers and often associated with Catholic and indigenous saints While many of these sites have been recently lost to development others are visited daily for devotions and remain the focus of annual community gatherings Encouraging both their use and protection Holy Wells of Ireland delves into these irreplaceable resources of spiritual archaeological and historical significance Reserves of localized spiritual practices holy wells are also ecosystems in themselves and provide habitats for rare and culturally meaningful flora and fauna The shift toward a post Catholic Ireland has prompted renewed interest in holy wells as popular domains with organic faith traditions Of the roughly 3 000 holy wells documented across Ireland some attract international pilgrims and others are stewarded by a single family Featuring 140 color images this remarkable volume shares the transdisciplinary work of contributors who study these wells through the overlapping lenses of anthropology archaeology art history biomedicine folklore geography history and hydrology Braiding community perspectives with those of scholars across academia Holy Wells of Ireland considers Irish holy wells as a resilient feature of ever evolving Irish Christianity as inspiration to other faith traditions as places of pilgrimage and healing and as threatened biocultural resources The Oxford History of British and Irish Catholicism, Volume IV Carmen M. Mangion,Susan O'Brien,2023-09-01 After 1830 Catholicism in Britain and Ireland was practised and experienced within an increasingly secure Church that was able to build a national presence and public identity With the passage of the Catholic Relief Act Catholic Emancipation in 1829 came civil rights for the United Kingdom s Catholics which in turn gave Catholic organisations the opportunity to carve out a place in civil society within Britain and its empire This Catholic revival saw both a strengthening of central authority structures in Rome creating a more unified transnational spiritual empire with the person of the Pope as its centre and a reinvigoration at the local and popular level through intensified sacramental devotional and communal practices After the 1840s Catholics in Britain and Ireland not only had much in common as a consequence of the Church s global drive for renewal but the development of a shared Catholic culture across the two islands was deepened by the large scale migration

from Ireland to many parts of Britain following the Great Famine of 1845 Yet at the same time as this push towards a degree of unity and uniformity occurred there were forces which powerfully differentiated Catholicism on either side of the Irish Sea Four very different religious configurations of religious majorities and minorities had evolved since the sixteenth century Reformation in England Ireland Scotland and Wales Each had its own dynamic of faith and national identity and Catholicism had played a vital role in all of them either as other or in the case of Ireland as the majority's self Identities of religion nation and empire and the intersection between them lie at the heart of this volume They are unpacked in detail in thematic chapters which explore the shared Catholic identity that was built between 1830 and 1913 and the ways in which that identity was differentiated by social class gender and above all nation Taken together these chapters show how Catholicism was integral to the history of the United Kingdom in this period

Christian Solar Symbolism and Jesus the Sun of Justice Kevin Duffy, 2022-02-24 This pioneering study of Christian sun symbolism describes how biblical light motifs were taken up with energy in the early Church Kevin Duffy argues that living in a world of 24/7 illumination we need to reconnect with the sun and its light to appreciate the meaning of light in the Bible and Christian tradition With such a retrieval we can appreciate Pope Francis's insistence that like the moon the Church does not shine with its own light and assess the claim that the Eucharist is to be celebrated *Ad Orientem* that is towards the rising sun in the East Liturgy architecture poetry and the writings of saints and theologians such as Augustine Hildegard of Bingen Francis of Assisi and Thomas Traherne offer abundant resources for a much needed *ressourcement* While Christ was preached as the True Sun among sun worshipping Aztecs and the consecrated host was placed in a solar monstrance on Baroque altars in the modern era solar themes have been neglected In this accessible work the author suggests that we rebalance a spiritual symbolism that has over emphasised darkness and cloud at the expense of light and sun He proposes a creative retrieval of the traditional title of Christ as the Sun of Justice This title blends the personal the social and the cosmic ecological and speaks powerfully to a secularising era that contemporaries Friedrich Nietzsche and Thérèse of Lisieux both described as one where the sun does not shine
