## Salvation Of Modern Man:

Radical Secularization? Stijn Latré, Walter Van Herck, Guido Vanheeswijck, 2016-06-30 What does it mean for a society to be secular Answering this question from a philosophical angle Radical Secularization delves into the philosophical presuppositions of secularization Which cultural evolutions made secularization possible International scholars from different disciplines assess the answers given by many leading philosophers such as among others L with Blumenberg and Habermas Germany Gauchet and Nancy France Taylor and Bellah North America They examine the theory that secularization cannot only be regarded as a cultural change that was forced upon religion from an external source e g science but should also be considered as a phenomenon triggered by motives internal to religion If religions are indeed capable of inner transformations the question arises whether religions can persist in the secular societies they inadvertently helped to bring about and how secular societies may accommodate religion

Archbishop Fulton Sheen, the Contemporary Humanist Emmanuel K. Ngwainmbi, Rev. Fr. John Berinyuy, 2023-08-30 This book is a theological reflection of Sheen's contribution to humanity and society It analyzes the modern person from the Catholic doctrinal perspective explores Fulton Sheen's perception of the contemporary individual and demonstrates that global economic religious and political crises cannot be resolved by focusing only on the mundane It further underscores some contemporary anthropological challenges and proposes a philosophy and theology of life that can enable contemporary humans to know themselves better and make life worth living The authors argue that advancements in science and technology have failed to prolong happiness people are still frustrated disillusioned cynical bored and suicidal This book enters the landscape of Sheen's controversial pause before he was sanctified and provides a lengthy liturgical extrapolation of Sheen's Christian anthropology wrestling with other thinkers and general concerns surrounding human angst in modern society **Journal of Theological Studies**, 1904 Two Roberto Esposito, 2015-09-01 The debate on political theology that ran throughout the twentieth century has reached its end but the ultimate meaning of the notion continues to evade us Despite all the attempts to resolve the issue we still speak its language we remain in its horizon The reason for this says Roberto Esposito lies in the fact that political theology is neither a concept nor an event rather it is the pivot around which the machine of Western civilization has revolved for more than 2 000 years At its heart stands the juncture between universalism and exclusion unity and separation the tendency of the Two to make itself into One by subordinating one part to the domination of the other All the philosophical and political categories that we use starting with the Roman and Christian notion of the person continue to reproduce this exclusionary dispositif To take our departure from political theology then the task of contemporary philosophy we must radically revise our conceptual lexicon Only when thought has been returned to its rightful place connected to the human species as a whole rather than to individuals will we be able to escape from the machine that has imprisoned our lives for far too long Death in the City (repackage) Francis A. Schaeffer, 2021-05-20 A

Redesign of the Classic Work by Francis A Schaeffer Few Christians had a greater impact on the Christian response to modernism and postmodernism during the last half of the twentieth century than Francis A Schaeffer whose works offered a seemingly prophetic perspective that anticipated shifts in culture long before they happened In *Death in the City* originally written against the backdrop of the 1960s countercultural upheaval Schaeffer shows that when the intellectual and spiritual foundation of a society fails the society itself is destined to crumble The death that follows subtly suffocates truth meaning and beauty out of the culture Schaeffer offers a simple response to the rejection of biblical principles we see in our day commitment to God s word as truth This commitment is often a costly practice but it is compassion for a world that is lost and dying without the gospel *Death in the City* encourages us to respond to the changing culture not by hiding away but by living each aspect of life in supernatural communion with the Lord

**Contemporary Jewish Philosophies** William E. Kaufman,1992 Here is a systematic critique of the theological and philosophical views of the major Jewish thinkers of the 20th century The pattern of the book is one of challenge and response with the purpose of activating the mind of the reader to the vital issues of Jewish theology in our own time New forms of Jewish philosophic inquiry in response to the Holocaust the American Jewish experience and the establishment of the state of Israel makes necessary a clear and comprehensive framework in which contemporary Jewish thought may be studied Kaufman traces the effects of this new stage of philosophical thinking through the writings of such luminaries as Franz Rosenzweig Martin Buber Leo Baeck and Mordecai Kaplan as well as seeking the sources of the thought of such contemporary figures as Emil Fackenheim Jacob Agus Arthur Cohen Eugene Borowitz Richard Rubenstein and Abraham Joshua Heschel in the traditional roots of covenant salvation and transcendence

*Heidegger's Confrontation with Modernity* Michael E. Zimmerman,1990-05-22 Writing in a lively and refreshingly clear American English Zimmerman provides an uncompromisingly honest and judicious account of Heidegger s views on technology and his involvement with National Socialism One of the most important books on Heidegger in recent years John D Caputo superb Thomas Sheehan The New York Review of Books thorough and complex Choice excellent guide to Heidegger as eco philosopher Radical Philosophy engrossing rich in substance makes clear Heidegger s importance for the issue of technology ethics and politics Religious Studies Review The relation between Martin Heidegger s understanding of technology and his affiliation with and conception of National Socialism is the leading idea of this fascinating and revealing book Zimmerman shows that the key to the relation between Heidegger s philosophy and his politics was his concern with the nature of working and production

**Teachers and the New Theology** William Strawson,2017-06-29 If God is dead what s the good

of keeping R E on the timetable Sir have you read this book about secular Christianity worship and prayer are finished aren t they Don t you think it would be better for our children to be taught morals instead of religion After all religious people don t seem to know what they believe nowadays and we don t bother with religion at home so why should children be forced into it at school Many people will recognize their own bewilderment in these questions In this confusing world of new theology teachers parents and scholars seem equally baffled The old guidelines have been rubbed out but no new ones seem to replace them The book tackles these problems from the point of view of a theologian who himself is deeply immersed in these issues and is looking for new light on these old questions which religion has always dealt with and which are as vital today as ever Its aim is to explain what the new theologians are saying and to show that beyond the initial skepticism about the old ideas there is the beginning of a new and hopeful attitude to religion which can be of the utmost value to contemporary life

Mehta on Heidegger, Hermeneutics, and Indian Tradition** Jarava Lal Mehta,1992 In these essays J L Mehta Indian philosopher in whose life and work East and West met profoundly reflects on the origins and potency of modern hermeneutics and phenomenology and applies the principles of interpretation to Hindu traditions These farseeing essays show a hopeful way for non Western cultures to gain insight into the basic presuppositions of the Western world and to reclaim their own origins and ways of thinking and to participate in an emerging planetary thinking *The Ground of Certainty* Donald G. Bloesch,2002-01-29 In this book Dr Donald Bloesch sharply diverges from much traditional thinking on the relationship between theology and philosophy and suggests an alternative that is solidly anchored in biblical faith Instead of seeing this relationship in terms of synthesis or correlation or even simple subordination he calls for the conversion and transformation of philosophical meanings in the light of the biblical revelation Philosophy can be of considerable aid to theologians but they must take care not to let philosophical concepts determine the meaning of faith Reason can be enlisted in the service of revelation but it cannot establish the truth of revelation Against the irrationalism of contemporary existentialist theology and the rationalism that has pervaded both scholastic orthodoxy Catholic and Protestant and liberal philosophical theology Bloesch proposes an evangelical theology of revelation that seeks to employ reason in the task of understanding the faith The author upholds not an autonomous reason but an obedient reason and he shows that this ideal has support in the history of theology as well as in the Bible **The Problem of Immortality** Radoslav Andrea Tsanoff,1924 Dynamic Judaism Emanuel Goldsmith,Mel Scult,2024-10-22 Available in a new digital edition with reflowable text suitable for e readers Mordecai M Kaplan was born in a small Lithuanian town on the outskirts of Vilna on a Friday evening in June of 1881 Kaplan was raised in a predominately Jewish atmosphere which is shown by the fact that he knew his day of birth only by the Jewish calendar until he went to the New York Public Library as a young man to look up the corresponding date His family was extremely traditional and his father Israel Kaplan was a learned man Kaplan s concept of Judaism as an evolving religious civilization was widely influential in 20th century American Jewish life and his founding of the Reconstructionist Rabbinical College created a new denomination This book contains a biographical essay and excerpts from all of his major works **Business Ethics 3.0** Erhard Meyer-Galow,2018-05-22 The reputation of business managers is declining due to their disregard for moral decisions and ethical practices Business students are currently taught only technical knowledge without concern for being compassionately and holistic engaged However when entering the business sector these graduates encounter a world which necessitates difficult personally challenging decisions ones for which

technical knowledge is insufficient Successful sustainable resolutions can only be expected to result from a holistic sustainable approach which accommodates the difficulty in balancing ethical practices with the demands for ever increasing profits This unique graduate textbook addresses the issue of business ethics from the perspective of an individual's internal growth facilitated by a consideration of the principles of depth psychology spiritual wisdom meditation and quantum physics written by a CEO with an enormous business background It not only promotes a new ethical approach but also addresses the implementation of this new approach in the most important business sectors as a replacement for previous ineffective codes of conduct which have failed It's a must read for business students with aspirations of becoming managers or entrepreneurs in the economic sector as well as for all young professionals managers and entrepreneurs to improve their ethical performance and sustainable success

Message from the author This book creates an impetus for change in a business world where unethical practices are rampant by providing a suggested New Integral Ethics for the economy an ethical approach based upon inner psychological and spiritual development arising from a serious consideration of Depth Psychology Readers will learn how adoption of specific Practices which lead to inner growth and spiritual maturity will result in ethical morally sound business practices not because they are mandated but because once the SELF is actualized you cannot do otherwise Laws appeals and directives which have never successfully resulted in ethical practices become unnecessary replaced by intrinsically ethical individuals who collectively influence corporate ethical behaviour This is a giant leap into a new dimension in our globalized digitized economy

Business Ethics 3.0 by Erhard Meyer Galow provides a much needed beacon of light to a segment of our society that seem to be sinking deeper and deeper into darkness The term business ethics once an important topic within the business community has slowly descended through the fog of profitable ends justifying unprincipled means to become nothing more than a self contradictory oxymoron especially among large international corporations In Business Ethics 3.0 Erhard Meyer Galow has taken a fresh approach that appeals to individual personal growth rather than the usual proffering of academic arguments that are not implementable in the real world of relentless Machiavellian competition Only through raising and improving individual awareness and responsibility can real long term change have a chance of developing Business Ethics 3.0 is on the right track with a positive and compelling message may it succeed where the academics have failed
