Service-Learning Capacity Enhancement in Hong Kong Higher Education
 Grace Ngai, Daniel T.L. Shek, 2022-08-17 This book provides an in depth multi faceted look into capacity building for service learning using the case of the higher education landscape in Hong Kong Service learning has been proven to be an effective pedagogy for the holistic development of students as well as promotion of their well being It also attempts to promote the well being of the service recipients and the community While service learning is becoming increasingly popular in many higher educational institutions around the world the learning gains that can be attained from service learning are only as good as the learning experience allows and poorly developed or motivated service learning may potentially do adverse harm to students and the community This book reinforces the imperative to enhance the capacity of the institution teachers students and community partners by exploring a diverse range of methods for achieving capacity building among different stakeholders Examples of the methods explored include formal course based professional development scale development action research and communities of practice Furthermore the book includes a series of detailed qualitative case studies that are aimed at embodying good practice unpacking what matters from service learning Aa a useful resource for scholars and educators who are passionate about holistic youth leadership development this book is also relevant to researchers in the intersection between well being and higher education

Research Anthology on Service Learning and Community Engagement Teaching Practices Management Association, Information Resources, 2021-12-30 The need for more empathetic and community focused students must begin with educators as service learning has begun to grow in popularity throughout the years By implementing service and community aspects into the classroom at an early age educators have a greater chance of influencing students and creating a new generation of service minded individuals who care about their communities Teachers must have the necessary skills and current information available to them to provide students with quality service learning and community engagement curricula The Research Anthology on Service Learning and Community Engagement Teaching Practices provides a thorough investigation of the current trends best practices and challenges of teaching practices for service learning and community engagement Using innovative research it outlines the struggles

frameworks and recommendations necessary for educators to engage students and provide them with a comprehensive education in service learning Covering topics such as lesson planning teacher education and cultural humility it is a crucial reference for educators administrators universities lesson planners researchers academicians and students Handbook of College Science Teaching Joel J. Mintzes, 2006 The Handbook offers models of teaching and learning that go beyond the typical lecture laboratory format and provides rationales for new practices in the college classroom It is ideal for graduate teaching assistants senior faculty and graduate coordinators and mid career professors in search of reinvigoration

Toward a Civil Society C. David Lisman, 1998-08-30 Addressing the need for marshaling the resources of education to help promote a more civil society this book argues that education has a critical role to play in challenging the dominant views of politics and education Service learning or academically based community service is seen as a promising educational pedagogy that can help students acquire civic virtue and serve as a mechanism to enable institutions of higher education become stronger community partners However there is currently a lack of theoretical grounding for the service learning movement consequently service learning is in danger of being co-opted by academic traditionalism which could vitiate service learning's social transformative potential and in fact undermine efforts at democratic revitalization The author provides a basic explanation of service learning and how it is connected to promoting civic virtue It examines the underlying public philosophy debate between weak and strong democracy theorists or procedural and civic republicanism This book argues that certain approaches to service learning such as the voluntarist or charity model the experiential education model and the justice model are ineffective because of their association with weak democracy theory or procedural republicanism The central argument of this book is that a progressive communitarian public philosophy maintaining that individuals attain meaning and significance in the context of community is the most appropriate grounding for service learning The School Community Journal, 2001 **Resources in Education**, 2000-10 Culturally Engaging Service-Learning With Diverse Communities Delano-Oriaran, Omobolade O., Penick-Parks, Marguerite W., Fondrie, Suzanne, 2017-09-13 Evaluating the experiences of racially marginalized and underrepresented groups is vital to creating equality in society Such actions have the potential to provoke an interest in universities to adopt high impact pedagogical practices that attempt to eliminate institutional injustices Culturally Engaging Service Learning With Diverse Communities is a pivotal reference source for the latest scholarly research on service learning models that recognize how systemic social injustices continue to pervade society Featuring extensive coverage on a broad range of topics and perspectives such as cultural humility oral histories and social ecology this book is ideally designed for scholars practitioners and students interested in engaging in thoughtful and authentic partnerships with diverse groups *The Inverted Classroom Model* Eva-Marie Großkurth, Jürgen Handke, 2014-11-10 Only two years after its first run the Inverted Classroom Conference has become a familiar event at Marburg University Most conference participants not only knew about this digital teaching and learning scenario but were

experienced users and developers While during its predecessors most participants wanted to familiarize themselves with the central components of the Inverted Classroom Model the focus of the 3rd German Inverted Classroom Conference in 2014 to which this conference volume is dedicated was not only a discussion of variants of the model but also for the first time the inclusion of long term evaluations and aspects of student behavior This shift of emphasis is reflected in the contributions to this volume Even though all central aspects of the ICM content production and delivery testing and the in class phase are still addressed we can now find recommendations concerning digital material acquisition in class tuition the role of student tutors as well as first long term studies about ICM effects In general then the focus was much wider than that of the first two ICM conferences from a new and originally non familiar teaching and learning scenario to more general aspects of digitization of teaching and learning in the 21st century

Alan S. Tinkler,Barri E. Tinkler,Virginia M. Jagla,Jean R. Strait,2015-12-01 When considering inequality one goal for educators is to enhance critical engagement to allow learners an opportunity to participate in an inquiry process that advances democracy Service learning pedagogy offers an opportunity to advance engaged learning opportunities within higher education This is particularly important given the power dynamics that are endemic within conversations about education including the conversations around the Common Core charter schools and the privatization of education Critical inquiry is central to the ethos of service learning pedagogy a pedagogy that is built upon community partner participation and active reflection Within higher education service learning offers an important opportunity to enhance practice within the community allowing students to engage stakeholders and youth which is particularly important given the dramatic inequalities that are endemic in today s society **Educating Democratic Citizens in Troubled Times** Janet S. Bixby,Judith L. Pace,2014-03-14 This book offers a groundbreaking examination of citizenship education programs that serve contemporary youth in schools and communities across the United States These programs include social studies classes and curricula school governance and community based education efforts The book takes an interdisciplinary approach to exploring the experiences and perspectives of educators and youth involved in these civic education efforts The contributors offer rich analyses of how mainstream and alternative programs are envisioned and enacted and the most important factors that shape them A variety of theoretical lenses and qualitative methodologies are used including ethnography focus group interviews and content analyses of textbooks **Handbook of Research on Critical Thinking Strategies in Pre-Service Learning Environments** Mariano, Gina J.,Figliano, Fred J.,2019-01-25 Learning strategies for critical thinking are a vital part of today s curriculum as students have few additional opportunities to learn these skills outside of school environments Therefore it is of utmost importance for pre service teachers to learn how to infuse critical thinking skill development in every academic subject to assist future students in developing these skills The Handbook of Research on Critical Thinking Strategies in Pre Service Learning Environments is a collection of innovative research on the methods and applications of critical thinking that highlights ways to effectively use critical thinking strategies and implement critical thinking skill development into courses While highlighting topics including deep learning metacognition and discourse analysis this book is ideally designed for educators academicians researchers and students
