Kim, 1991 Broadly speaking there are two kinds of professional practice skills relevant to the burgeoning field of gerontological human service clinical modalities and macro strategies This book identifies seven essential approaches to clinical gerontology including five of the most important macro skills that all professionals in the field will need to acquire and it presents each of them in a single collection intended to serve as a basic text and reference work for academic and in service training Each contributor to this volume speaks with recognized expertise on his/her preferred subject while mindful of the larger purpose of the collection as a whole In a concluding chapter Dr Kim draws on his own long and successful experience in obtaining financial support for his programs and provides a wealth of useful information on the preparation of grant proposals and the conduct of other fundraising activities *Serving the Elderly* is adaptable to the uses of a wide variety of geriatric health care providers from students and trainees in social work clinical psychology and other care giving professions to already established practitioners who are branching out in gerontology

Serving the Elderly P.K.H. Kim, 1991-01-01 *Spiritual Resiliency in Older Women* Janet L. Ramsey, Rosemary Blieszner, 1999-03-19 Persons of all ages struggle to survive losses and rewrite their life stories Self help books abound yet seldom do we stop to consider living resources the wise old persons who are among us Gerontologists Janet L Ramsey and Rosemary Blieszner have recorded narratives of spiritually resilient German and American women and offer here a rare combination of listening personal story telling and professional reflection Avoiding simplistic answers and acknowledging the ambiguity of human experience the authors give voice to a remarkably unheard group strong old women In this unique book you will find unforgettable stories of courage and faith but also provocative suggestions on how to enrich your clinical and academic work through an increased emphasis on spiritual coping The authors also emphasize the importance of acknowledging emotions in spiritual experiences and integrating faith and close human relationships EBOOK: Older People And Community Care Beverly

Hughes,1995-09-16 *Older People and Community Care* sets social and health care practice with older people firmly in the context of the new community care arrangements and the consequent organizational trends towards a market culture. However it also questions the relative lack of attention given by professionals to issues of structural inequality in old age compared for example to race and gender. Thus the book tackles a double agenda. How can community care practice be suffused with anti ageist values and principles. Addressing this question the book sets out the foundation knowledge and values which must underpin the development of anti discriminatory community care practice and examines the implications for practitioners in terms of the essential skills and inherent dilemmas which arise. *Older People and Community Care* is essential reading for all those working with and managing services to older people and who aspire to make empowerment for older people a reality.
