## **Serving The Seriously Mentally Ill:**

**Serving Mentally Ill Offenders** Gerald Landsberg, DSW, Marjorie Rock, Dr. PH, Lawrence K.W. Berg, PhD, Esq., 2002-01-10 This comprehensive book addresses the complex issues associated with the criminalization of mentally ill offenders in the United States and the ways in which social workers and other mental health professionals can best channel their efforts to create better services and treatment. Specialists in law enforcement, community-based mental health and outreach, the legal community, the corrections environment and substance abuse providers present best practices and programs that offer rehabilitation alternatives to mentally ill offenders. Unique to this volume is the perspective provided by key players of the criminal justice system including a judge, a prosecutor, an advocate, a defense attorney and a mentally ill offender. The last section provides in-depth research into the challenges of placing the dually diagnosed offender into alternative to incarceration programs. *Criminalizing the Seriously Mentally Ill* Edwin Fuller Torrey, Joan Stieber, Jonathan Ezekiel, 1998-04 **Clinical Training in Serious Mental Illness**, 1990 *The Journey of Native American People with Serious Mental Illness* A. Marie Sanchez, Frank D. McGuirk, 1996-04 The Federal Role in Providing Services to the Mentally Ill United States. Congress. House. Committee on Government Operations. Human Resources and Intergovernmental Relations Subcommittee, 1988 Serious Mental Illness Abraham Rudnick, David Roe, 2018-08-17 Practical and evidence-based, this unique book is the first comprehensive text focused on person-centered approaches to people with serious mental illness such as schizophrenia and bipolar disorder. It reflects a range of views and findings regarding assessment, treatment, rehabilitation, self-help, policy making, education and research. It is highly recommended for all healthcare professionals, students, researchers and educators involved in general practice, psychiatry, nursing, social work, clinical psychology and therapy. Healthcare service providers and policy makers and shapers will find the book's wide-ranging multi-professional approach enlightening. *Serious Mental Illness* reflects a continued distancing from the outmoded and unsubstantiated belief that people with severe mental illnesses could not recover and that they would respond positively only to goals and treatment plans chosen, designed and implemented by providers in order to prevent their further deterioration. Anyone with an interest in the concept of person-centered approaches will discover new ideas in this book. Indeed, anyone with an interest in person-centered approaches has to read this book. Not only is it the first such book on person-centered approaches but it will serve as the gold standard in this topic area for years to come. William A. Anthony in the Foreword.

*Working With Serious Mental Illness* Catherine Gamble, Geoff Brennan, 2006-01-06 This title is directed primarily towards health care professionals outside of the United States In today's mental health services there is a pressing need for practitioners to place greater emphasis on working with users of services and to use skills that have a sound theoretical basis This book focuses on evidence based practice but reflects that in mental health the best evidence is the personal experience of the user Many publications explore theoretical aspects of service delivery or provide an in depth analysis of specific clinical interventions However how practitioners comprehensively amalgamate theory with their practice is often missing This book fills that gap and seeks to guide plan and suggest down to earth treatment ideas for individuals on a day to day basis Mental health practice focused Full of practical advice user friendly clearly accessible and well designed Reflects user input including a chapter written by a user of mental health services describing their experiences of mental illness Leading contributors from practice Early intervention Supervision Implementation and practice development issues Meaningful activity and recovery Engaging and working with carers Relapse prevention
