EU Insolvency Law McCormack, Gerard, 2022-09-21 This comprehensive book provides a clear analysis of the main features of the European Insolvency Regulation 2015 848 within the context of previous EU initiatives as well as addressing the contrasting objectives of universalism and territorialism which underpin cross border insolvency law It measures the EU regulations against the UNCITRAL Model Law on Cross Border Insolvency and compares this with how the Model Law has been implemented elsewhere such as in the US and the UK

International Insolvency Law Professor Paul Omar, 2013-02-28 International insolvency is a newly established branch of the study of insolvency that owes much to the phenomenon of cross border incorporations and conduct of business in more than one jurisdiction It is largely an offspring of globalization Paul Omar examines the development of domestic rules dealing with cross border instances and the many international projects in the field

Commercial Agreements Jeremy Leong, 2024-07-05 Presenting a unique conceptual framework for interpreting and improving commercial agreements this book marries a sound theoretical foundation with practical strategies for negotiating drafting advising on and litigating such agreements

insolvency within the European Union Bringing together a diverse team of legal scholars and practitioners from across the EU Member States it delivers incisive dissections of the European Insolvency Regulation EIR provisions which define the jurisdiction of the courts of EU Member States in insolvency proceedings as well as the national law that should be applied and provide for the automatic recognition of other Member State s judgements along with a regime of coordination between proceedings opened in different Member States Commentary on the UNIDROIT Principles of International Commercial Contracts (PICC) Stefan Vogenauer, Jan Kleinheisterkamp, 2009 This volume on the UNIDROIT principles of international commercial contracts provides quick access to all case law and legal literature for specific problems paired with in depth scholarly analysis **International Arbitration: Law and Practice in Switzerland** Gabrielle Kaufmann-Kohler, Antonio Rigozzi, 2015 This third edition and the first in English of the globally cited Arbitrage International Droit et Pratique la Lumière de la LDIP provides complete guidance on arbitration law and practice relating to Switzerland from two of the leading authorities on Swiss practice **Covenants and Third-Party Creditors** Daniela Matri, 2017-10-17 This book adds to the debate on the effects of covenants on third party creditors externalities which have recently become a focus of discussion in the contexts of bankruptcy law corporate law and corporate governance The general thrust of the debate is that negative effects on third party creditors predominate because banks act in their own self interest After systematising the debated potential positive and negative externalities of covenants the book empirically examines these externalities It investigates the banks factual conduct and its effects on third party creditors in Germany and the US The study s most significant outcome is that it disproves the assumption that banks disregard third party creditors interests These findings are then interpreted with the tools of economic analysis particularly with the concept of common pool resources CPRs Around the aggregated value of the debtor company s asset pool as CPR exists an n person prisoner s dilemma between banks and third party creditors No creditor knows when and under what conditions the other creditor will appropriate funds from the debtor company s asset pool This coordination problem is traditionally addressed by means of bankruptcy law and collaterals However the incentive structure that surrounds the bilateral private governance system created by covenants and an event of default clause a CPR private governance system is found to also be capable of tackling this problem Moreover the interaction between the different regulation spheres bankruptcy law collateral and the CPR private governance system has important implications for both the aforementioned discussions as well as the legal treatment of covenants and event of default clauses Covenants alone cannot be seen as an alternative to institutional regulation the complete CPR private governance system and its interaction with institutional regulation must also be taken into consideration In addition their function must first find more acceptance and respect in the legal treatment of covenants and event of default clauses The CPR private governance system fills a gap in the regulation of the tragedy of the commons by bankruptcy law and collateral This has particularly important implications for the German 138 BGB 826 BGB and ad hoc duties to disclose insider information **International Acquisition Finance**
